

the catapult papers

the main series

Name: _____

Score: _____

Notes for parents

The Main Series of The Catapult Papers provides a full set of SEAG-style practice assessments suitable for P7 pupils (or confident pupils at the end of P6). These papers offer a more challenging level of practice than the Warm-Up Series, reflecting the balance and pace of the official assessments more closely. As with all Transfer Test preparation, children will meet a wide range of English and Maths concepts, including some that require recall of earlier learning.

The questions in this series have been written to give children a realistic sense of the difficulty and variety they will encounter in the actual SEAG papers. The progression across the series helps pupils build accuracy, fluency, and familiarity with the demands of the assessment. Many families use these tests after completing the Warm-Up Series, though the order of use is entirely flexible.

The official time limit for the Transfer Test is 60 minutes. However, because this is a practice paper, no time limit is printed. Parents may decide how long to allow for completion, depending on confidence, focus, and stage of preparation.

This test paper may be written on, but answers must be recorded on the separate answer sheet provided. Guidance on how to do this is included at the top of that page. An answers page is also included for marking. Each correct answer is worth one mark, and no question carries more than one mark. Half-marks should not be awarded. In the English section, misspelled answers should only be accepted when spelling is not part of the skill being tested. When spelling accuracy is required (e.g. plurals, verb endings, homophones), an incorrectly spelled answer should not be counted as correct.

Spaces for recording the final score are provided on both the cover page and the answer sheet. Parents may record the result as a percentage or as a score out of 56.

Finally, please remember that these are practice tests. It is normal for children to make mistakes as they adjust to the level of challenge. The purpose of the Main Series is to develop confidence, build stamina, and strengthen the range of skills needed for the SEAG assessment. Consistent practice and calm encouragement are the most effective supports during this stage of preparation.

Permission to use this paper is granted for one child only. No photocopying or sharing of the test is permitted. A separate set of The Catapult Papers is available exclusively for schools.

English

In this exercise there are some mistakes with **punctuation** or use of **capital letters**. On each numbered line there is either **one** mistake or **no** mistake. Find the group of words with the mistake in it and **mark its letter on your answer sheet**. If there is **no** mistake, mark **N**.

Punctuation Exercise

1 'It'd be a lot easier,' suggested Grace, 'if you'd just say what you have'nt done.'

A B C D

2 Lets just all calm down and try – piece by piece – to remember what happened.

A B C D

3 After they'd watched the video again, Eric's secret identity became obvious.

A B C D

4 Believe it or not tomatoes are a type of fruit: they are not vegetables.

A B C D

5 Hanoi, the Capital of Vietnam, replaced Saigon as its main city.

A B C D

In this exercise you have to choose the **best** word, or **group of words**, to complete each numbered line so that the sentences make sense and are written in correct English. Choose the best answer and **mark its letter on your answer sheet**.

Grammar Exercise

6 Carolina, not Bianca, were are was is was being planning to be
A B C D E
here last night.

7 What Who Whose Whether Which of these three subjects would you
A B C D E
prefer to study next year?

8 The gift that was given to my sister and me I myself we they
A B C D E
shall never be forgotten.

9 As soon as Mr Potter had rise rose risen roses ridden, he set about
A B C D E
his usual morning chores.

10 Mine is on display at the Metropolitan Museum, but him hers her's
A B C
it's her was removed last year.
D E

In this exercise there are some **spelling** mistakes. On each numbered line there is either **one** mistake or **no** mistake. Find the group of words with the mistake in it and **mark its letter on your answer sheet**. If there is no mistake, mark **N**.

Spelling Exercise

- 11** 'These potatoes are definately not cooked properly,' Larry protested loudly.
A B C D
- 12** Julie's favourite restaurant was closed all weekend due to electrical problems.
A B C D
- 13** With a mischeivous smile, he caused his friends to burst out in laughter.
A B C D
- 14** Mrs Thompson was fashionably late for all of her weekly work conferances.
A B C D
- 15** 'I don't think I'll struggle with calculating a cuboid's volume,' said Sara, 'but
I don't like trianguler prisms.'
A B C D

Read the whole passage carefully, then answer the questions that follow.

Earthquakes

1. Earthquakes are natural disasters that occur when the ground beneath us starts to
2. shake and tremble. They can be scary and cause a lot of damage, but
3. understanding what they are and how to stay safe is important. In this report, we will
4. discover what causes earthquakes, where they are most likely to occur, and how to
5. stay safe during and after an earthquake.

6. **What Causes Earthquakes?**

7. The Earth's crust is made up of tectonic plates that are constantly moving and
8. shifting. When two plates collide, one can slide underneath the other, causing a
9. build-up of pressure. This pressure is then released suddenly in the form of an
10. earthquake.

11. **Where Do Earthquakes Occur?**

12. Earthquakes can happen anywhere in the world, but they are more common in
13. certain areas. The most earthquake-prone regions are located along the Pacific
14. Ocean, in what is known as the 'Ring of Fire'. This area includes countries such as
15. Japan, Indonesia, and the west coast of the United States.

16. **Magnitude of Earthquakes**

17. There are different types of earthquakes, and they can range in intensity. A small
18. earthquake might feel like a gentle shaking, while a large earthquake can cause
19. buildings to collapse and roads to split open. The magnitude of an earthquake is
20. measured using the Richter Scale. 1 on the Richter Scale is barely noticeable,
21. while the highest number ever recorded was 9.5, which occurred in Chile in 1960.

22. **What to Do During an Earthquake**

23. When an earthquake happens, it's important to know what to do. The first thing to
24. remember is to drop, cover, and hold on. This means dropping to the ground,
25. finding cover under a desk or table, and holding on until the shaking stops. It's
26. important to stay away from windows and objects that could fall on you.

27. **What to Do After an Earthquake**

28. After the earthquake, it's important to check for any injuries or things that have been
29. damaged. If you're trapped under debris, try to make a noise or use a flashlight to
30. signal for help. Avoid using matches or lighters, as gas lines may have been
31. damaged and could cause an explosion.

32. **Emergency Preparedness**

33. It's also important to have an emergency kit ready in case of an earthquake. This kit
34. should include items such as water, non-perishable food, a first-aid kit, and a
35. flashlight. It's also a good idea to have a plan in place with your family for where to
36. meet and what to do in case of an earthquake.

37. **The Aftermath**

38. The aftermath of an earthquake can be just as dangerous as the earthquake itself.
39. After an earthquake, there may be aftershocks that can cause additional damage or
40. collapse already weakened structures. It's important to remain cautious and avoid
41. entering damaged buildings or structures. If you smell gas or suspect a gas leak,
42. evacuate the area immediately and call for help. Additionally, be prepared for power
43. outages and have a battery-operated radio available to receive updates and
44. instructions from local authorities.

45. **Anticipating Earthquakes**

46. While earthquakes can't be prevented, we can take steps to minimise the damage
47. and keep ourselves safe. In addition to being prepared with emergency supplies and
48. having a plan in place, it's important to educate ourselves and our communities
49. about earthquake safety. By learning more about earthquakes and sharing that
50. knowledge with others, we can work together to reduce the impact of this natural
51. disaster.

52. **Conclusion**

53. Earthquakes can be scary, but knowing what to do can help keep you and your
54. family safe. Remember to drop, cover, and hold on during an earthquake, and have
55. an emergency kit and plan ready in case of a disaster. By being prepared, we can all
56. be better equipped to handle the unpredictable forces of nature.

Please answer these questions. (Look at the passage again if you need to.)
You should choose the **best** answer and mark its letter on your answer sheet.

16

What is the overall message of the passage?

- A Earthquakes are frightening and unpredictable.
- B Earthquakes are natural disasters that can cause a lot of damage, but we can prepare for them.
- C Earthquakes can be predicted and prevented.
- D Earthquakes are fascinating, natural occurrences.
- E Earthquakes are not a big deal, and we don't need to worry about them.

17

What causes an earthquake?

- A buildings being constructed on unstable ground
- B the Richter Scale
- C broken pipes leaking gas into the air
- D the formation of tectonic plates
- E the pressure caused by tectonic plates moving

18

What part of speech is the word 'intensity' (line 17)?

- A noun
- B adjective
- C verb
- D conjunction
- E adverb

19

What does 'earthquake-prone' mean (line 13)?

- A less likely to experience an earthquake
- B impossible to experience an earthquake
- C prepared for an earthquake
- D more likely to experience an earthquake
- E allergic to earthquakes

20 Which of the following items would you NOT find in an emergency kit?

- A a torch
- B tinned food
- C fresh fruit
- D water
- E a first-aid kit

21 According to the passage, which of the following statements is true?

- A Earthquakes are likely to occur anywhere in the world, at any moment.
- B It's easy to notice an earthquake that measures 1 on the Richter scale.
- C Earthquakes are preventable.
- D You should sit below the nearest window during an earthquake.
- E Dangerous aftershocks can occur following an earthquake.

22 Which set of actions does the passage recommend for those people who are experiencing an earthquake?

- A hide, shout, crawl
- B drop, cover, hold on
- C run, hide, shout
- D shout, drop, crawl
- E run, cover, shout

For these questions you have to **write your answers**, neatly, in the boxes provided on your answer sheet.

23 Look at lines 6 - 10. Earthquakes are caused by the release of something. What is that thing?

24 Look at lines 27 - 31. Which word means the same as 'rubble' or 'wreckage'?

25 In which year did the highest-ever recorded earthquake on the Richter Scale occur?

26 How many subheadings are used in this report?

27 Which one part of speech are the following as they appear in the passage?

occur (line 4), **range** (line 17), **check** (line 28), **cause** (line 39)

28 'Earthquake' is a compound word. It is made up of two smaller words ('earth' and 'quake') that are joined together to form a new word with a distinct meaning.

Which other compound word appears in lines 32 - 36?

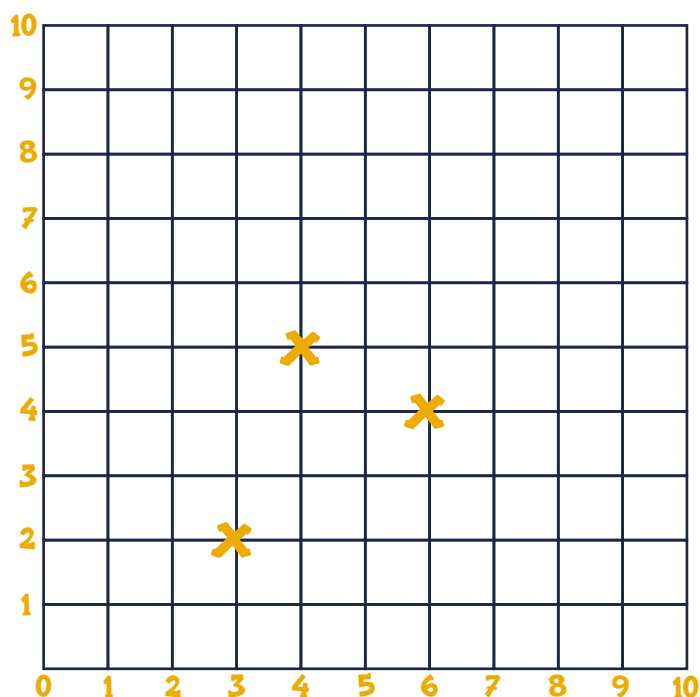

Maths

29

The distance from the front door of Jacob's house to his school gate is exactly 2.3 km.

What is this distance in metres?

- A** 23 m **B** 230 m **C** 2003 m **D** 2030 m **E** 2300 m

30

Three points have been plotted onto this graph. A fourth point needs to be added.

Which of the following coordinates could be marked on the graph to create the fourth corner of a parallelogram?

- A** (5,1) **B** (5, 2) **C** (2,3) **D** (7,1) **E** (0,3)

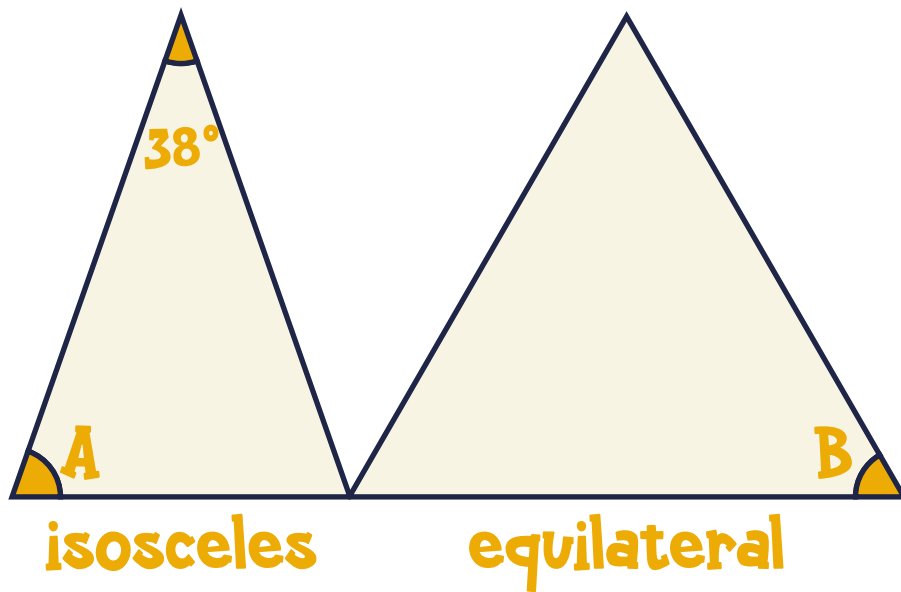

31

Barry is saving only 20p coins. His plan is to save enough of these coins in order to buy a card game that costs £6.00. So far, Barry has saved nine 20p coins.

How many more 20p coins does Barry need to save before he can afford the card game?

- A 30 coins
- B 21 coins
- C 42 coins
- D 22 coins
- E 19 coins

32

By how many degrees is Angle A in the isosceles triangle larger than Angle B in the equilateral triangle?

- A 11°
- B 16°
- C 19°
- D 44°
- E 71°

33

An online store reduces the prices of all its items by 20% in a sale. Mr Brennan wants to buy a book and a mug.

Before the sale, the book cost £12.50 and the mug cost £8.

How much does Mr Brennan pay in total for these two items during the sale?

- A** £4.10 **B** £10.25 **C** £16.40 **D** £18 **E** £20.50
-

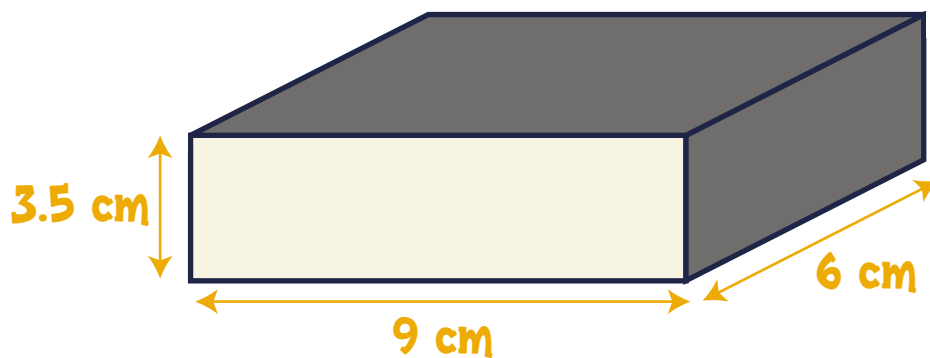

34

12 _____ 23 30 _____ 47 57

What are the two missing numbers in this sequence?

- A** 22 & 40 **B** 19 & 37 **C** 18 & 38 **D** 17.5 & 37 **E** 17 & 38
-

35

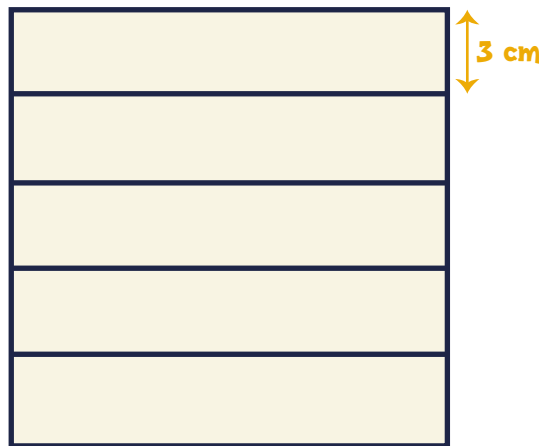

What is the volume of this cuboid?

- A** 18.5 cm³ **B** 162 cm³ **C** 185 cm³ **D** 189 cm³ **E** 196 cm³
-

36

Ruby multiplies the number 367.09 by 1000 then divides the answer by 10.

Which digit will be in the hundreds place in her final answer?

A 3**B** 6**C** 7**D** 0**E** 9**37**

Five identical rectangles are combined to form this square. One of the measurements on the rectangle has been given.

What is the perimeter of one single rectangle?

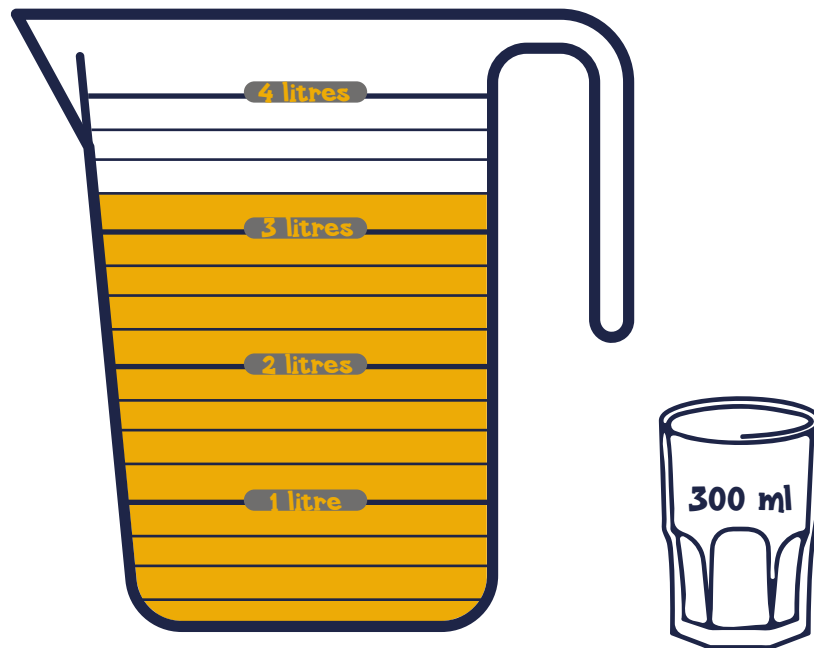

A 30 cm**B** 36 cm**C** 45 cm**D** 60 cm**E** 225 cm**38**

What time would show on a 24-hour clock when it is 3 hours and 15 minutes before midnight?

A 08:45**B** 09:45**C** 8.45 pm**D** 20:45**E** 21:45

39

A jug can hold 4 litres of lemon juice but is not completely full. The volume of juice in the jug is shown in the picture below.

Small drinking glasses hold 300 ml of juice each.

How many drinking glasses can be completely filled with lemon juice?

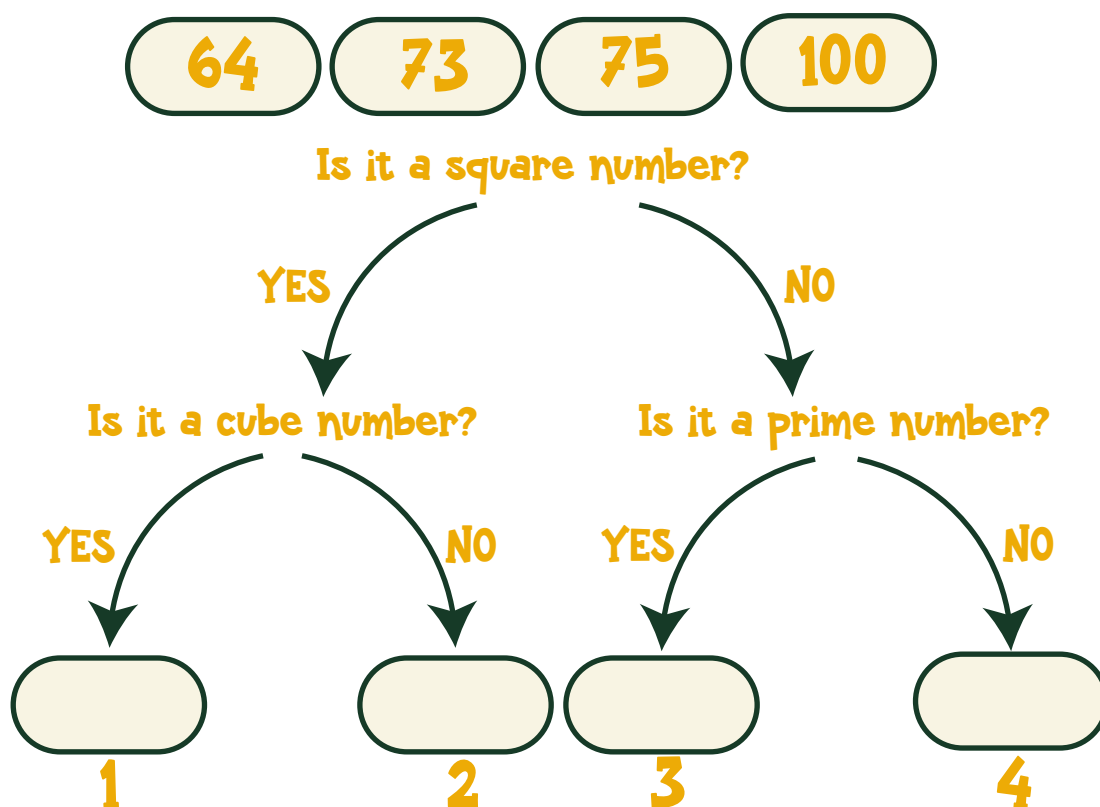

- A 9 glasses
- B 10 glasses
- C 11 glasses
- D 12 glasses
- E 13 glasses

40

Which decimal number is equal to the sum of $\frac{1}{2}$ and $\frac{1}{4}$?

- A 0.25
- B 0.3
- C 0.5
- D 0.7
- E 0.75

41

The numbers 64, 73, 75 and 100 are used in a decision tree. Each of the numbers will finish in a separate box.

What will be the order of numbers as they appear from box 1 through to box 4?

- A 100, 64, 75, 73
- B 64, 100, 75, 73
- C 100, 64, 73, 75
- D 64, 75, 73, 100
- E 64, 100, 73, 75

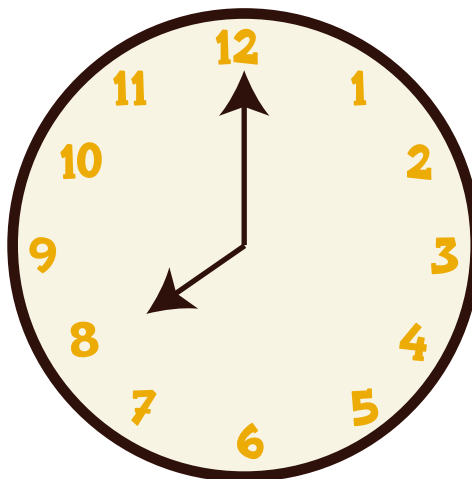

42

Harry reads 36 pages of a book each night from Monday to Friday. He reads a combined total of 60 pages on Saturday and Sunday. There are 17 pages left to read.

How many pages does Harry's book have?

- A 197 pages
 - B 223 pages
 - C 257 pages
 - D 269 pages
 - E 317 pages
-

43

What is the size of the obtuse angle created by the hands of the clock when it is 8 o'clock?

- A 95°
 - B 120°
 - C 160°
 - D 200°
 - E 240°
-

44

A box contains the following five types of cupcake:

- 6 orange & poppyseed cupcakes
- 6 lemon & cinnamon cupcakes
- 5 strawberry & white chocolate cupcakes
- 4 dark chocolate cupcakes
- 3 blueberry & vanilla cupcakes

A cupcake is taken from the box at random.

What is the probability that a lemon & cinnamon cupcake is chosen?

- A** $\frac{1}{8}$ **B** 10% **C** $\frac{1}{4}$ **D** 12% **E** $\frac{3}{4}$
-

45

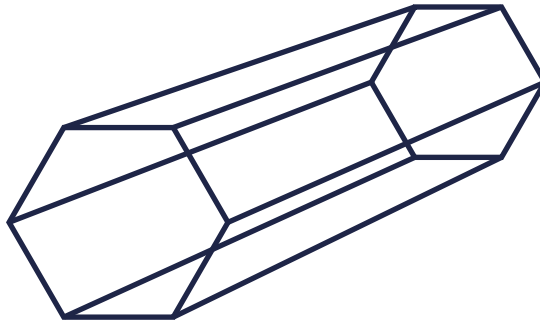

The area of a square is 110 cm^2 .

What is the length of one side of this square?

- A** between 6 cm and 7 cm
 - B** between 7 cm and 8 cm
 - C** between 8 cm and 9 cm
 - D** between 9 cm and 10 cm
 - E** between 10 cm and 11 cm
-

46

How many vertices are there in total on a hexagonal prism?

- A 8 vertices
- B 10 vertices
- C 12 vertices
- D 15 vertices
- E 18 vertices

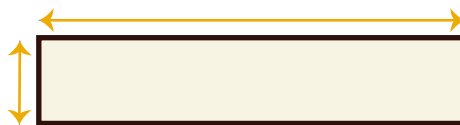

47

$$64.6 \times 85 = 5491$$

What is the answer to 6.46×8.5 ?

- A 5.491
- B 54.91
- C 549.1
- D 5491
- E 54910

48

The perimeter of this rectangle is 26 cm. One of its sides is 5 cm longer than the other side.

What is the measurement of the shorter side?

- A 5 cm
- B 4 cm
- C 9 cm
- D 8 cm
- E 21 cm

49

Belfast – Newry Bus Timetable

Belfast	0800	0900	0945	1045
Lisburn	0820	0920	1005	1105
Hillsborough	0826	0926	1011	1111
Banbridge	0853	0953	1038	1138
Loughbrickland	0858	0958	1043	1143
Newry	0928	1028	1113	1213

Frank lives in Lisburn. It is a 17-minute walk from his house to the Lisburn bus stop. He has to travel to Newry.

Frank leaves his house at 8.15 am and walks to the Lisburn bus stop.

For how many minutes does Frank have to wait at the bus stop until the next bus to Newry comes along?

- A** 5 minutes
- B** 6 minutes
- C** 26 minutes
- D** 48 minutes
- E** 68 minutes

50

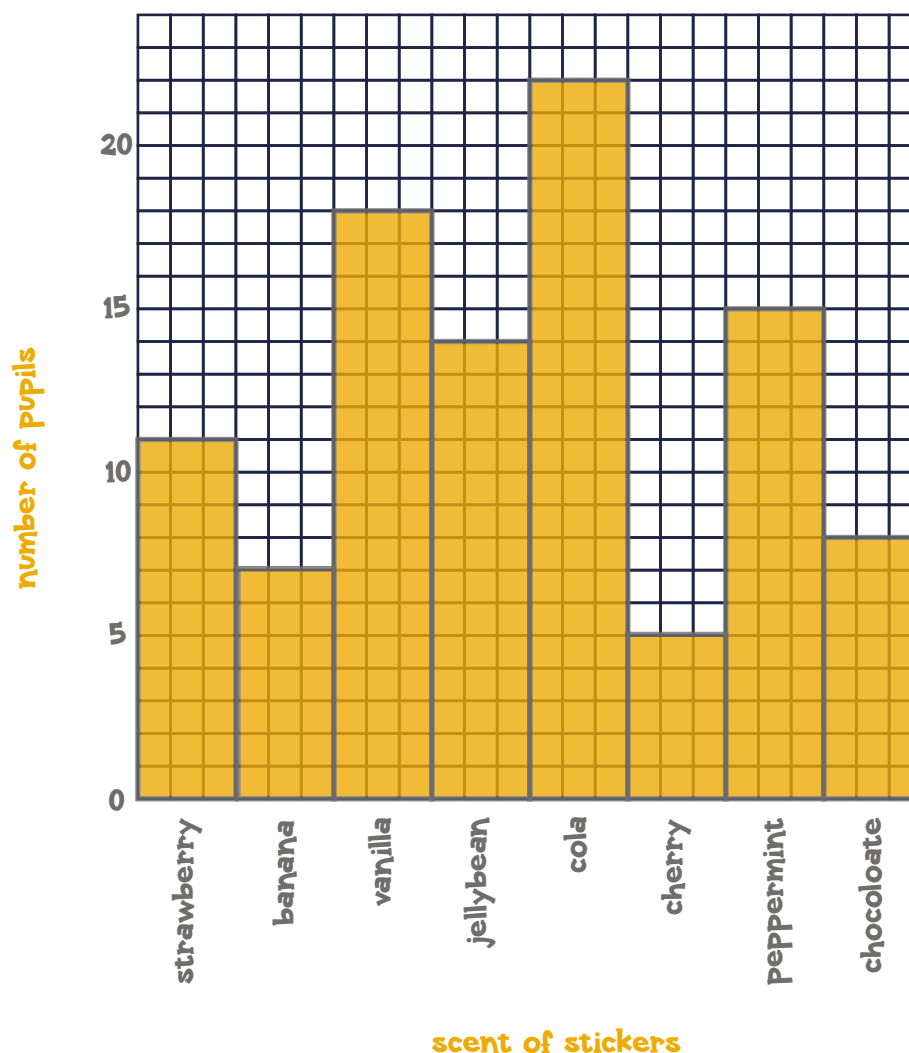

How many millimetres are there in 9.6 metres?

- A** 0.096 millimetres
- B** 0.96 millimetres
- C** 96 millimetres
- D** 960 millimetres
- E** 9600 millimetres

For questions 51 - 56, you have to **write your answers** in the boxes provided on your answer sheet. The units of measurement have been given.

51

Year 5's favourite sticker scents

The Year 5 pupils at Hazel Green Primary are rewarded for good work with scented stickers. There are 8 different types of sticker. Each child was asked to name their favourite scent of sticker and the results were recorded in this bar chart.

How many more pupils preferred cola stickers than cherry stickers?

.....

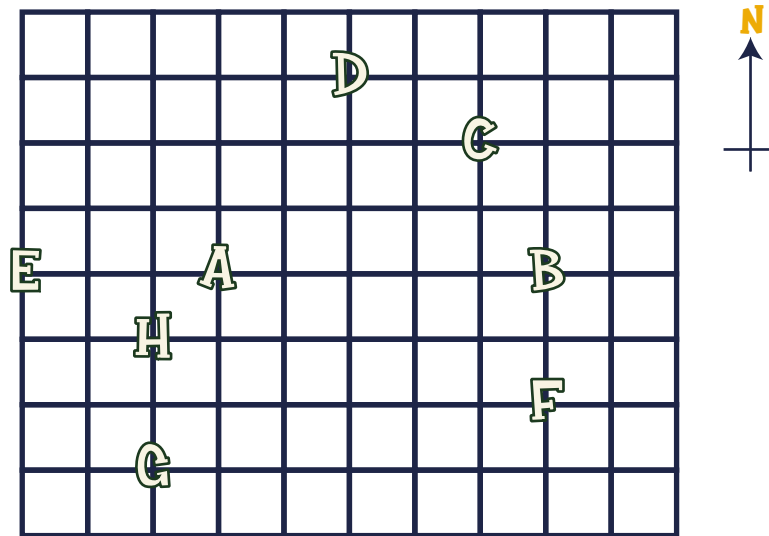

52

$$a + 12 = 27$$

$$b^3 = 27$$

If the number represented by the letter a is multiplied by the number represented by the letter b, what would the answer be?

53

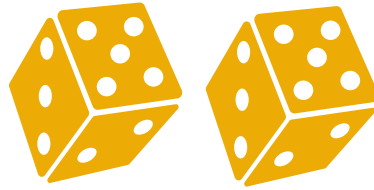

Which letter on this grid lies southeast of the letter D?

54

How many kilograms are the same as 40% of 6800 g?

55

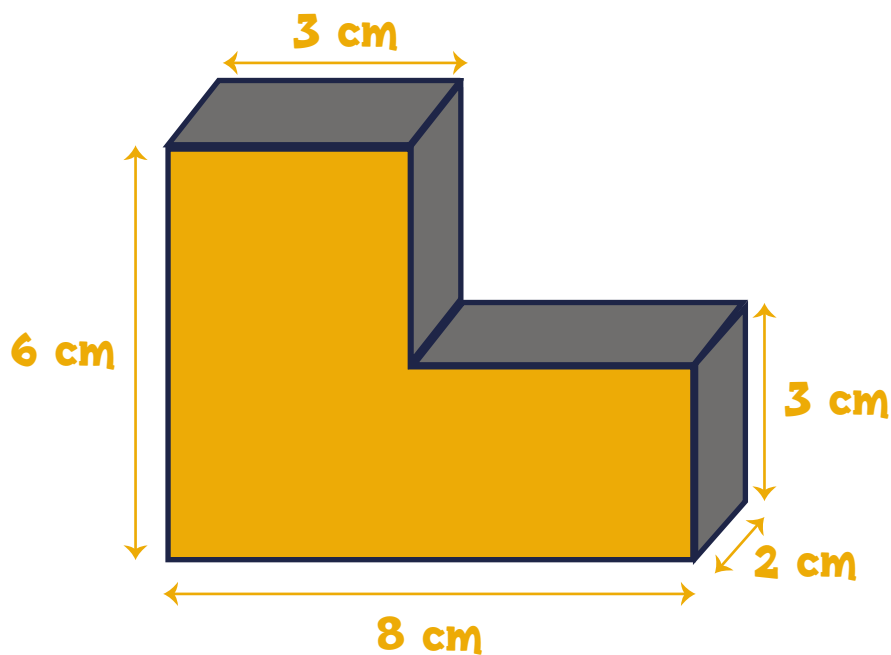

Hannah rolls three six-sided dice. Two of the dice land on a 5.

When Hannah looks at the third dice she knows that the sum of all three numbers combine to make a multiple of 7.

On which number did Hannah's third dice land?

56

A cuboid has had a corner removed from it.

What is the volume of this new shape?

The Catapult catalogue

**target
practice**

10 in-depth calculation workbooks for 9 to 11-year-olds
Over 1000 pages & 12 hours of teaching videos
