

SEAG-style practice tests

the catapult papers

Name: _____

Score: _____

Test 7

2026 edition

Notes for parents

The Main Series of The Catapult Papers provides a full set of SEAG-style practice assessments suitable for P7 pupils (or confident pupils at the end of P6). These papers offer a more challenging level of practice than the Warm-Up Series, reflecting the balance and pace of the official assessments more closely. As with all Transfer Test preparation, children will meet a wide range of English and Maths concepts, including some that require recall of earlier learning.

The questions in this series have been written to give children a realistic sense of the difficulty and variety they will encounter in the actual SEAG papers. The progression across the series helps pupils build accuracy, fluency, and familiarity with the demands of the assessment. Many families use these tests after completing the Warm-Up Series, though the order of use is entirely flexible.

The official time limit for the Transfer Test is 60 minutes. However, because this is a practice paper, no time limit is printed. Parents may decide how long to allow for completion, depending on confidence, focus, and stage of preparation.

This test paper may be written on, but answers must be recorded on the separate answer sheet provided. Guidance on how to do this is included at the top of that page. An answers page is also included for marking. Each correct answer is worth one mark, and no question carries more than one mark. Half-marks should not be awarded. In the English section, misspelled answers should only be accepted when spelling is not part of the skill being tested. When spelling accuracy is required (e.g. plurals, verb endings, homophones), an incorrectly spelled answer should not be counted as correct.

Spaces for recording the final score are provided on both the cover page and the answer sheet. Parents may record the result as a percentage or as a score out of 56.

Finally, please remember that these are practice tests. It is normal for children to make mistakes as they adjust to the level of challenge. The purpose of the Main Series is to develop confidence, build stamina, and strengthen the range of skills needed for the SEAG assessment. Consistent practice and calm encouragement are the most effective supports during this stage of preparation.

Permission to use this paper is granted for one child only. No photocopying or sharing of the test is permitted. A separate set of The Catapult Papers is available exclusively for schools.

English

In this exercise there are some mistakes with **punctuation** or use of **capital letters**. On each numbered line there is either **one** mistake or **no** mistake. Find the group of words with the mistake in it and **mark its letter on your answer sheet**. If there is **no** mistake, mark **N**.

Punctuation Exercise

1 'May I recommend tonight's special?' asked the waiter. 'It's absolutely delicious.'

A B C D

2 'Each member of our staff is trained to the highest standard to assist you, Sir'

A B C D

3 'By adding flour to the mixture,' he explained, you will create a thicker sauce.'

A B C D

4 Never one to shy away from a challenge Oscar climbed to the top diving board.

A B C D

5 Tourists visiting Belfast City hall often pause, amazed at the building's beauty.

A B C D

In this exercise you have to choose the **best** word, or **group of words**, to complete each numbered line so that the sentences make sense and are written in correct English. Choose the best answer and **mark its letter on your answer sheet**.

Grammar Exercise

6 They couldn't hear each other speak because so as due as a result
A B C D
therefore to the volume of the music.
E

7 James is the most tall tallest tall taller more taller of the two
A B C D E
brothers.

8 I had better receive a answer response feedback explanation replies
A B C D E
to my question soon.

9 Sasha had wrote been written write writ written dozens of
A B C D E
letters to the mayor.

10 'You can borrow my car in case of so that as soon as as though
A B C D
on the condition that you fill it up with petrol afterwards.'
E

In this exercise there are some **spelling** mistakes. On each numbered line there is either **one** mistake or **no** mistake. Find the group of words with the mistake in it and **mark its letter on your answer sheet**. If there is no mistake, mark **N**.

Spelling Exercise

11

It should come as no suprise to learn that fireworks are very dangerous.

**12**

Because off the heavy rain, the match has been cancelled until tomorrow.

**13**

The whole town was excited by the plans for the new leasure centre.

**14**

She spent several minutes streching her arms, legs and back after the walk.

**15**

We should be greatful for the free things we receive in life: the air we breathe

and the beauty of nature.

Read the whole passage carefully, then answer the questions that follow.

Bowling Ball's Big Night Out

1. It was one of those dismal nights where you just want to cosy up with a good book
2. and a hot cup of tea. However, the neighbourhood bowling alley was humming with
3. activity. As bowlers of all ages and skill levels tried their luck on the lanes, the air was
4. filled with laughter and the sound of clattering pins.
5. A somewhat-more-disgruntled character on the scene was one of the balls. It had
6. been meticulously crafted using the best materials and the most expert hands. But
7. now, after years of thumps and bumps, clatters and crashes, it was beginning to
8. show evidence of wear and tear. Years of strikes and spares had worn down its
9. weight, and its once-shiny surface was chipped and scuffed. The bowling ball began
10. to wonder if there was a better life elsewhere.
11. Our spherical protagonist craved adventure and the chance to travel outside the
12. bowling alley's walls. And so it moved when the opportunity arose. When all eyes
13. were averted to another part of the hall, it rolled stealthily from its lane and out into
14. the wider world.
15. The wind continued to wail and the rain kept on falling in sheets as the storm raged.
16. The ball, however, was unfazed and proceeded to roll further into the perilous world
17. beyond. Rain had made the streets slick, and the ball often found it difficult to remain
18. balanced on the jagged concrete. It moved forward while dodging vehicles and
19. people, passing through alleys and down side streets.
20. As the night progressed, the threat became increasingly apparent. Danger lurked at
21. every turn in the abandoned buildings and shadowy alleys where the ball was rolling.
22. It observed two cars crashing, was followed by stray dogs, and narrowly escaped
23. being crushed by a toppling tree at one point.
24. The ball, however, was adamant on moving forward. It careered past deserted parks
25. and lifeless streets, having an unquenchable desire to see more, but never feeling
26. content.
27. It eventually started to tire as the sun rose. Its weight had further diminished from the
28. lengthy and arduous journey, but its heart felt much, much heavier. Its surface was
29. further covered in dents and scratches unlike those it had gathered at the bowling

30. hall. These were scars not worth having. Being outside of the familiarity of the
31. alley, it was now afraid and alone.

32. So it simply returned. It rolled through the doors and back onto the lane before
33. finally coming to a stop and promptly falling asleep.

34. The next thing it knew, it was being hoisted aloft and was staring directly into the
35. face of a determined man (though for a moment, his countenance was one of
36. confusion as he couldn't figure out how his favoured plaything had accumulated
37. such dirt). The grip of the fingers was firm. The man's other hand gently and
38. smoothly caressed the ball's surface. With deep satisfaction, it breathed in and
39. savoured the moment.

40. Several seconds later, it was propelled with power and verve down the one street it
41. knew so well: not a dark, derelict one but a bright and stimulating motorway within
42. his own hometown. Narrowly avoiding the hard-shoulder to the right, he found
43. himself spinning back towards the centre and, with a crash, he collided head-first
44. with a familiar friend: Front Pin.

45. Front Pin, in turn, swiped the rest of the Pin family off their feet, each of them
46. emitting exclamations of enthused exhilaration as they hurtled through the air.

47. That evening, it was another one of those dismal nights where you just want to
48. cosy up with a good book and a hot cup of tea – or rather, in our protagonist's
49. case, it was one of those nights where you just want to roll around in the comfort
50. of your own home.

Please answer these questions. (Look at the passage again if you need to.)
You should choose the **best** answer and mark its letter on your answer sheet.

16

Which of the following well-known sayings best summarises what the main character learned by the end of the passage?

- A The grass is always greener on the other side.
- B No pain, no gain.
- C There's no place like home.
- D Appearances can be deceiving.
- E It's a big world out there.

17

Which of the following words from the passage is similar in meaning to 'dreary' or 'dull'?

- A dismal (line 1)
- B meticulously (line 6)
- C chipped (line 9)
- D scuffed (line 9)
- E averted (line 13)

18

Which of the following statements is the best summary of lines 5 - 10?

- A The main character was considered to be the finest-looking ball in the bowling alley.
- B The main character is thinking back to the days when he would design the finest-looking bowling balls.
- C The main character is a bowling ball that is not being used correctly by the customers at the bowling alley.
- D The main character is a man who is becoming increasingly unhappy at how old he looks.
- E The main character is a tired bowling ball that, after years of damage, starts dreaming of change.

19

‘...it rolled stealthily from its lane and out into the wider world.’
(lines 13 - 14)

What does this tell us about the main character’s escape?

- A** The main character caused mayhem during its escape.
- B** The main character was rolled out of the hall by a human.
- C** The escape took a long time to complete.
- D** The escape was unsuccessful.
- E** The escape was unnoticed.

20

Which of the following dangers did the main character NOT encounter while out on the streets?

- A** slippery surfaces
- B** homeless animals
- C** traffic collisions
- D** broken glass
- E** falling trees

21

‘...each of them emitting exclamations of enthused exhilaration...’
(lines 45 - 46)

This phrase is an example of which of the following?

- A** alliteration
- B** persuasive writing
- C** rhyme
- D** simile
- E** direct speech

22 Look at lines 27 - 31. Which of the following options best describes the main character's condition?

- A physically and emotionally heavy
- B physically and emotionally light
- C physically heavy but emotionally light
- D physically light but emotionally heavy
- E physically and emotionally renewed

For these questions you have to **write your answers**, neatly, in the boxes provided on your answer sheet.

23 Which word in lines 11 - 14 is closest in meaning to 'main character'?

24 The word 'face' appears on line 35. Which other word in the same paragraph has a similar meaning?

25 Only one character in this passage is given a name. What is this name?

26 The main character is regularly referred to as 'it'. Which one part of speech is this word?

27 If the beginning of this passage described a Monday evening, which day of the week would it be by the end of the passage?

28 Which one part of speech are the following as they appear in the passage?

with (line 2), **from** (line 13), **through** (line 19), **past** (line 24)

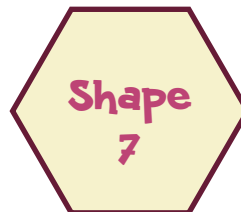

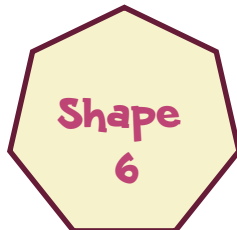

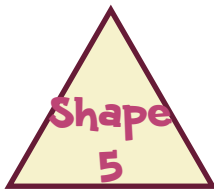

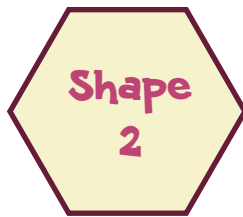

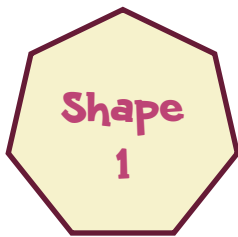

Maths

29

Which of the following decimal numbers means the same as seven halves?

A 0.7**B** 2.5**C** 2.7**D** 3.5**E** 7.2**30**

Study the sequence of shapes below. It contains a heptagon, a hexagon, a pentagon, a square and a triangle. The sequence then starts over again.

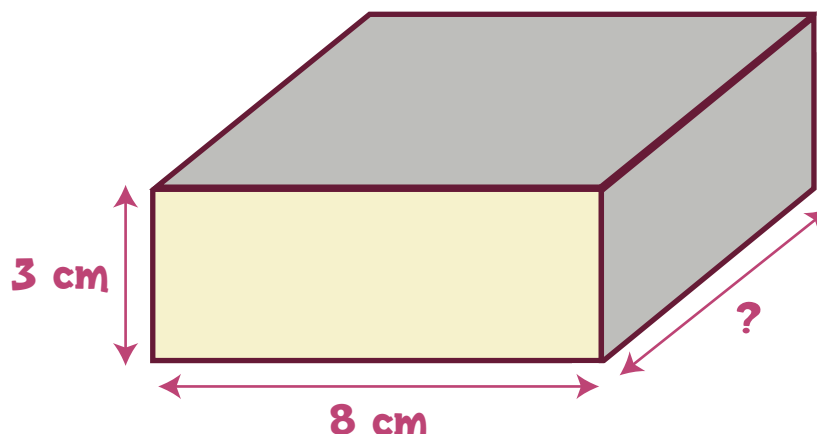

What will Shape 9 be?

A a heptagon**B** a hexagon**C** a pentagon**D** a square**E** a triangle

31

The volume of this cuboid is 168 cm^3 .

What is the measurement of the edge that has been labelled with a question mark?

- A 6 cm B 7 cm C 8 cm D 9 cm E 10 cm

32

Which of the following numbers is one more than five hundred and sixteen thousand and thirty?

- A 501630 B 516030 C 516031 D 5001631 E 5016031

33

A square has a perimeter of 24 cm.
A rectangle has the same area as the square.
One of the rectangle's sides measures 4 cm.

What is the length of the other side of the rectangle?

- A 6 cm B 7 cm C 8 cm D 9 cm E 10 cm

34

Miss Rutherford is in charge of planning the school concert. She writes the following schedule.

Miss Rutherford thinks she should add one extra minute BETWEEN each item on the plan to allow the performers to enter and leave the hall.

The concert begins at 7.15 pm. At what time will the concert finish?

- A** 8.12 pm **B** 8.14 pm **C** 8.17 pm **D** 8.19 pm **E** 8.20 pm

35

How many kilograms are in eight tins of beans that each weigh 415 grams?

- A** 0.332 kg **B** 3.032 kg **C** 3.2 kg **D** 3.32 kg **E** 33.2 kg

36

A cone, cube, cylinder, sphere and square-based pyramid must be added to the correct parts of this Carroll Diagram.

	has a curved face	has no curved faces
has an odd number of faces		
has an even number of faces		

Which of the five shapes will be written in the shaded part of the Carroll Diagram?

- A cone
- B cube
- C cylinder
- D sphere
- E square-based pyramid

37

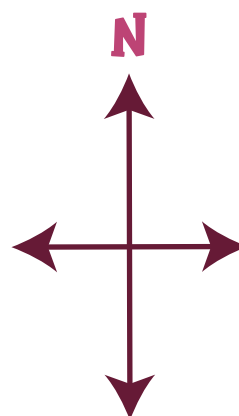

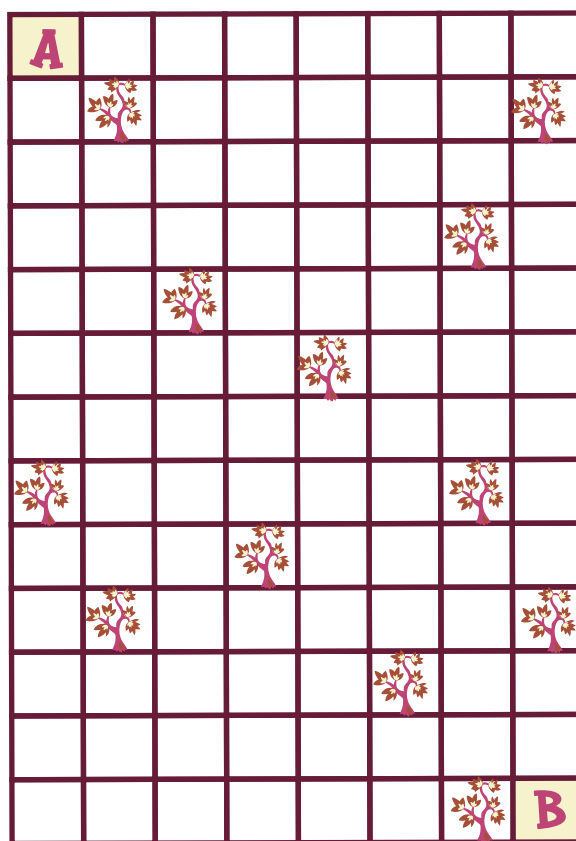

IN	→ - 0.7 → × 4 →	OUT
6.3	→	?

What is the missing number at the end of this function machine?

- A 1.75
- B 22.4
- C 22.8
- D 26.4
- E 28

38

A sequence of instructions must be given to guide a character through this maze. The character starts in the square marked A. They have to be successfully guided to the square marked B. They must NOT pass through a square that contains a tree.

Which of the following sequences of instructions would successfully lead the character from Square A to Square B?

- A** east 2 squares, south 4 squares, west 1 square, south 5 squares, east 5 squares
- B** south 6 squares, east 2 squares, south 6 squares, east 5 squares
- C** south 6 squares, east 4 squares, south 5 squares, east 3 squares, south 1 square
- D** east 5 squares, south 9 squares, east 2 squares, south 3 squares
- E** south 3 squares, east 5 squares, south 6 squares, east 1 square, south 3 squares

39

$\frac{7}{12}$	$\frac{3}{4}$	$\frac{5}{6}$	$\frac{2}{3}$	$\frac{1}{2}$
----------------	---------------	---------------	---------------	---------------

Which of these fractions is largest?

A $\frac{7}{12}$ B $\frac{3}{4}$ C $\frac{5}{6}$ D $\frac{2}{3}$ E $\frac{1}{2}$

40

17	27	37	47	57
----	----	----	----	----

Which of these numbers is the largest prime number in the list?

A 17

B 27

C 37

D 47

E 57

41

$$386 \times 61$$

Which of the following numbers is the best estimated answer to this multiplication?

A 1800

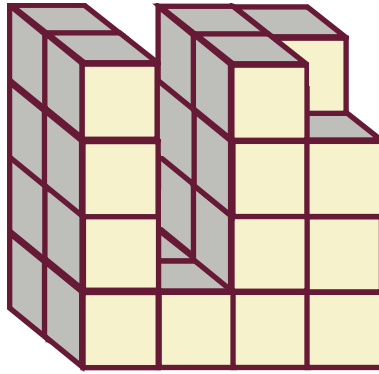

B 2400

C 18000

D 24000

E 28000

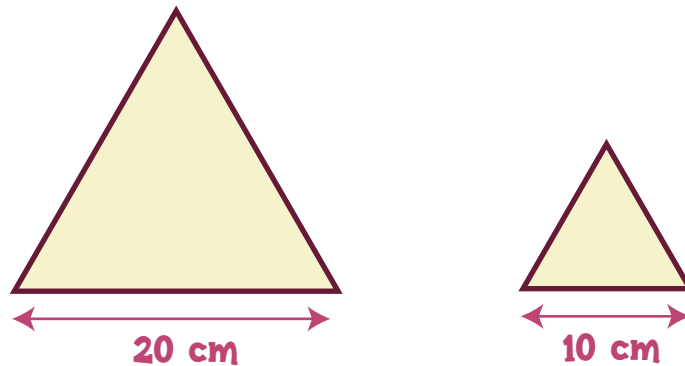

42

How many cubes have been used to make this arrangement?

- A 25 cubes
- B 26 cubes
- C 27 cubes
- D 28 cubes
- E 29 cubes

43

How many of the smaller equilateral triangles can fit inside the larger equilateral triangle?

- A 2 triangles
- B 3 triangles
- C 4 triangles
- D 5 triangles
- E 6 triangles

44

It is exactly 100 minutes before 2 am. What is this as a 24-hour clock time?

A 00:20

B 00:40

C 01:00

D 00:10

E 00:00

45

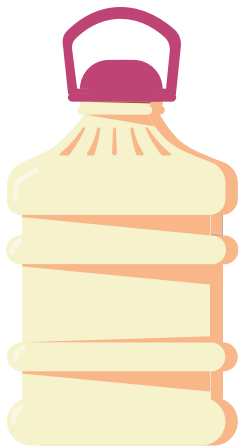

Each of these bottles can hold 10 litres of water.

Bottle A is full.

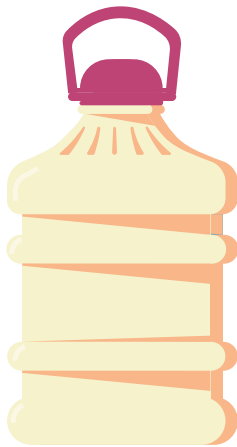

Bottle B contains 10% less water than Bottle A.

Bottle C contains 10% less water than Bottle B.

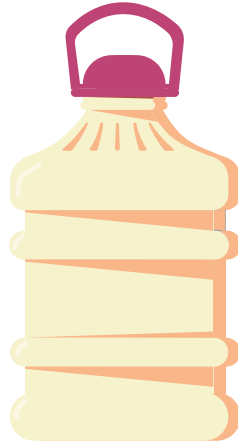

Bottle D contains 10% less water than Bottle C.

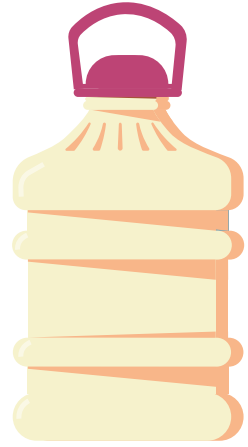

Bottle A

Bottle B

Bottle C

Bottle D

How many millilitres of water are in Bottle D?

A 7000 ml

B 7200 ml

C 7290 ml

D 8100 ml

E 9000 ml

46

Joanna is thinking of a number.

Half of her number is three times greater than 25.

What is Joanna's number?

A 37.5

B 25

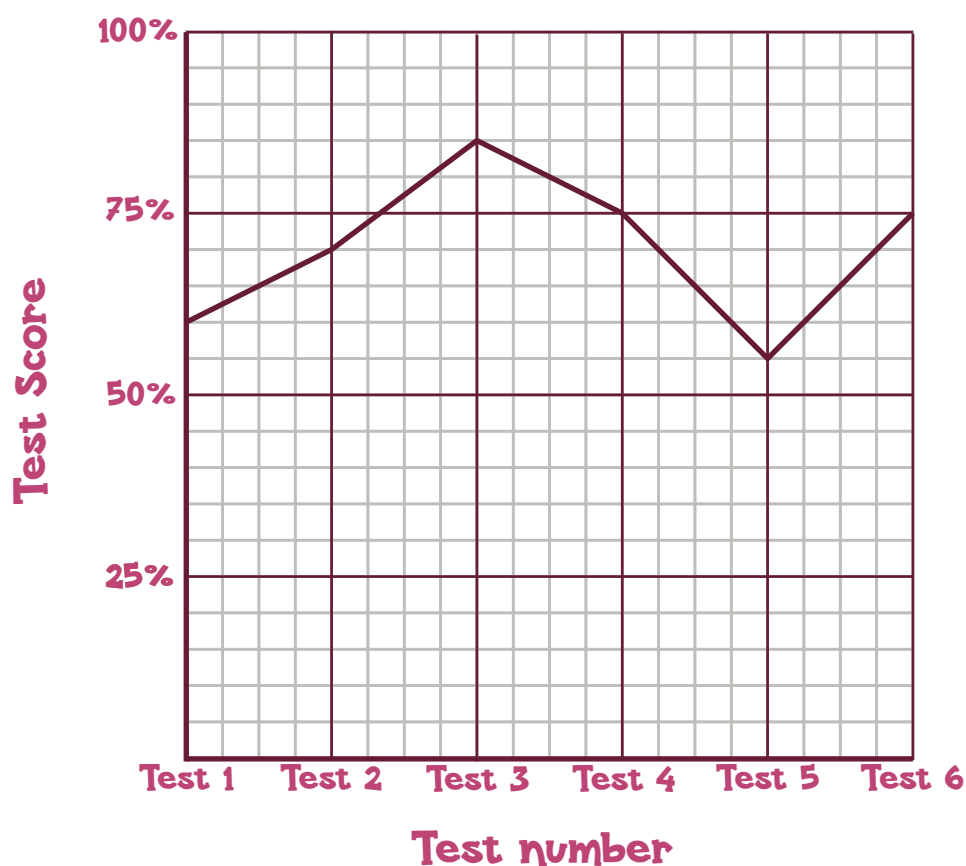

C 75

D 150

E 50

47

Timothy's Scores

The line graph shows Timothy's six scores in a series of tests.

What was Timothy's mean score in these tests?

A 56%

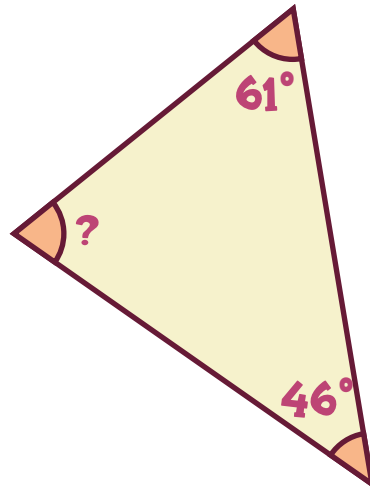

B 66%

C 68%

D 70%

E 75%

48

What is the size of the missing angle in this scalene triangle?

- A** 73° **B** 83° **C** 87° **D** 90° **E** 93°
-

49

The cost of a pair of trainers is $\frac{3}{4}$ of the cost of a jacket.

The trainers cost £48.

How much does the jacket cost?

- A** £12 **B** £16 **C** £36 **D** £64 **E** £144
-

50

How many cube numbers have exactly three digits?

- A** 5 cube numbers
B 6 cube numbers
C 7 cube numbers
D 8 cube numbers
E 9 cube numbers
-

For questions 51 - 56, you have to **write your answers** in the boxes provided on your answer sheet. The units of measurement have been given.

51

Jack performs 10 push-ups on Monday.

He doubles this number of push-ups on Tuesday.

On Wednesday, he doubles the number of push-ups he performed on Tuesday.

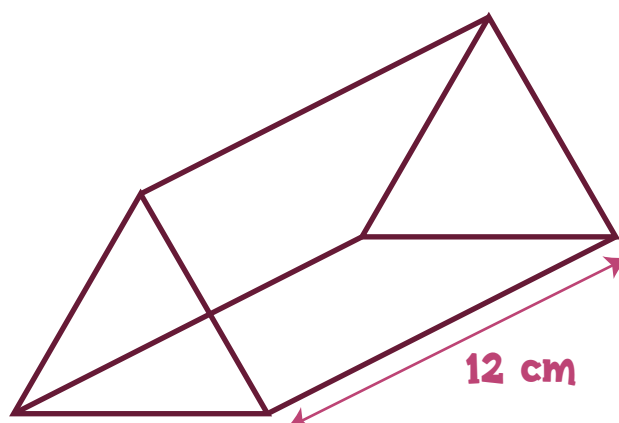

On Thursday, he performs double the number of Wednesday's push-ups.

He wants to continue with this pattern on Friday. However, he is only able to complete 75% of Friday's target.

How many push-ups did Jack perform in total from Monday to Friday?

52

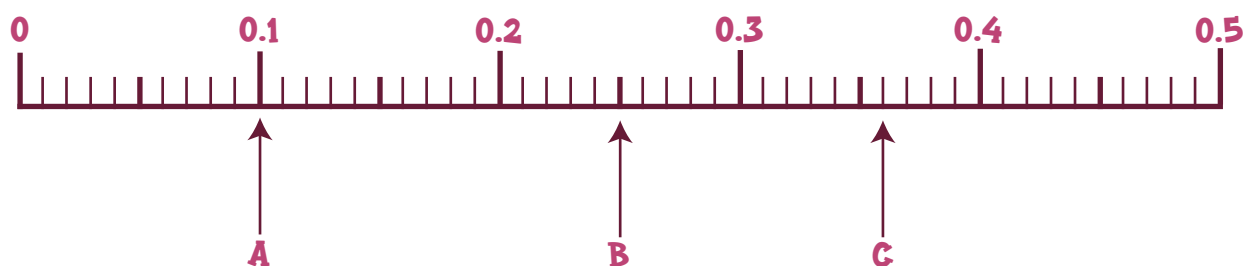

The triangles that are used to create this prism are equilateral. Each has a perimeter of 15 cm.

What is the combined length of all the prism's edges?

53

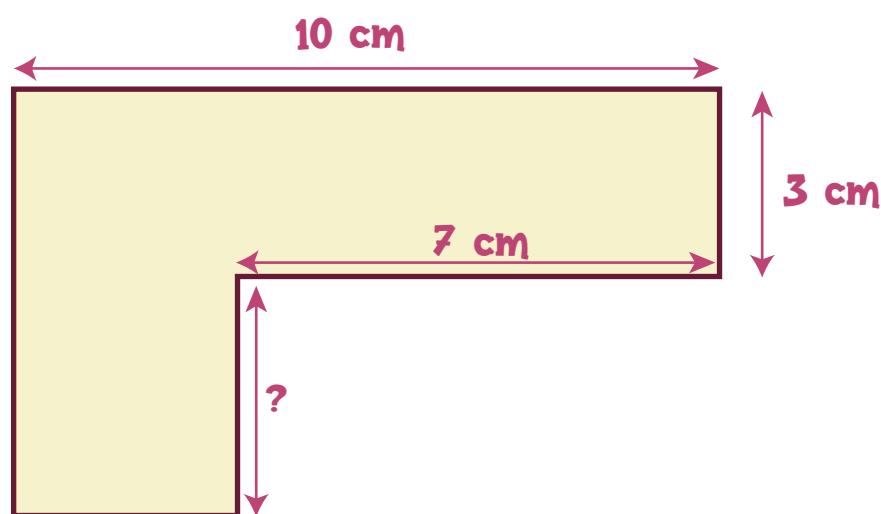

The arrows labelled A, B and C are pointing at three different decimal values.

What is the sum of the three decimal values to which the arrows are pointing?

54

The area of the shape below is 42 cm^2 .

What is the length of the side of the shape that is labelled with a question mark?

55

There are four buses each day that travel from Cairnburn to Marville. This is the timetable for these buses.

	Bus 1	Bus 2	Bus 3	Bus 4
Cairnburn	0940	1106	1455	1734
Dorwood	0956	1117	1519	1753
Needly	1007	1124	1530	1815
Garworth	1019	1134	1534	1834
Pintown	1037	1149	1606	1903
Marville	1055	1204	1625	1928

Katie arrives at the Dorwood bus stop at 5.20 pm.

How many minutes will it be from the time Katie arrives at the bus stop to the time she arrives in Marville?

56

Jonah needs to cut 12 cm pieces of string from a length of string that measures 5.5 metres.

What is the greatest number of pieces of 12 cm string that Jonah will be able to cut?

The Catapultalogue
