

SEAG-style practice tests

the catapult papers

the warm-up series

Name: _____

Score: _____

Warm-Up 6

2026 edition

Notes for parents

The Warm-Up Series of The Catapult Papers introduces children to the Transfer Test process in a gentle and accessible way. These papers are intended for P6 pupils and reflect the stage at which schools typically begin early preparation, around eight months before the official exams. At this point in the school year, some relevant English and Maths skills will not yet have been covered in class. Although a small number of these concepts may appear within the Warm-Up papers, the overall difficulty level has been moderated to provide a first, confidence-building look at SEAG-style questions.

As children progress through the Warm-Up Series, they will gradually become familiar with the structure, pacing, and style of SEAG assessments. Completion of this series should help prepare them for the more challenging papers within the main Catapult Papers series (20 papers), which continue the progression toward full P7 readiness.

The official time limit for the Transfer Test is 60 minutes. However, because this is a practice paper, no time limit is printed. Parents may decide how long to allow for completion, depending on their child's needs and stage of learning.

This test paper may be written on, but answers must be recorded on the separate answer sheet provided. Guidance on how to do this is included at the top of that page. An answers page has also been provided for marking. Each correct answer is awarded one mark, and no question is worth more than one mark. Half-marks are not recommended. In the English section, misspelled answers should only be accepted when spelling is not part of the skill being tested. When spelling accuracy is central to the question (e.g. plurals, verb endings), the response should be marked incorrect if spelled wrongly.

Spaces for recording the final score are provided on both the cover page and the answer sheet. Parents may record the result either as a percentage or as a score out of 56.

Finally, please remember that these are practice tests. Early scores are not an indication of eventual performance. At this stage, the purpose of the Warm-Up Series is to build familiarity, develop confidence, and introduce children gradually to the range of skills and question types they will meet later in the Transfer Test journey.

Permission to use this paper is granted for one child only. No photocopying or sharing of the test is permitted. A separate series of The Catapult Papers is available exclusively for schools.

English

In this exercise there are some mistakes with **punctuation** or use of **capital letters**. On each numbered line there is either **one** mistake or **no** mistake. Find the group of words with the mistake in it and **mark its letter on your answer sheet**. If there is **no** mistake, mark **N**.

Punctuation Exercise

- 1** 'The green ones are his,' said Freya, 'But those purple ones are definitely hers.'
- A B C D
- 2** Buddy (Alice's younger brother) was everyone's choice to captain the boys' team.
- A B C D
- 3** Isla pointed at the tank then turned to face Mum. 'That's a rainbow fish, isn't it.'
- A B C D
- 4** 'A question mark?' Mrs James told him, 'should always be at the end of questions.'
- A B C D
- 5** Heat the soup in the microwave for four minutes stirring halfway through. Leave it to cool for one minute before serving.
- A B C D

In this exercise you have to choose the **best** word, or **group of words**, to complete each numbered line so that the sentences make sense and are written in correct English. Choose the best answer and **mark its letter on your answer sheet**.

Grammar Exercise

6

'You should always be kind to others, no matter what whether or not
A B
as far as if and when in order that they say or do to you.'
C D E

7

His understanding of grammar is impressive. However Nevertheless
A B
Although Furthermore Yet, he is an excellent reader.
C D E

8

The teacher cancelled the quiz on behalf of in need of on account of
A B C
in place of in case of so many students being absent.
D E

9

It was eight o'clock, and Maggie hadn't even begin begun beginning
A B C
begins began her Spanish homework.
D E

10

'I expect those of you these of you less of you much of you
A B C D
each of you to participate in the class discussion.'
E

In this exercise there are some **spelling** mistakes. On each numbered line there is either **one** mistake or **no** mistake. Find the group of words with the mistake in it and mark its letter on your answer sheet. If there is no mistake, mark N.

Spelling Exercise

- 11** Scientists are in agreement that more reaserch is needed on the matter.
A B C D
- 12** 'This exellent work deserves a reward; it is of the highest quality, Frank!'
A B C D
- 13** 'That workout was exhausting; my arms and legs are really sore!' moaned Iris.
A B C D
- 14** Underneath the enourmous pile of waste, the rats were enjoying a feast.
A B C D
- 15** The entire company of people was composed of villains, crimminals and
lawbreakers; there was bound to be trouble.
A B C D

Read the whole poem carefully, then answer the questions that follow.

The Walrus and the Carpenter

1. The sun was shining on the sea, shining with all his might:
2. He did his very best to make the billows smooth and bright –
3. And this was odd, because it was the middle of the night.
4. The moon was shining sulkily, because she thought the sun
5. Had got no business to be there after the day was done –
6. ‘It’s very rude of him,’ she said, ‘to come and spoil the fun.’
7. The sea was wet as wet could be, the sands were dry as dry.
8. You could not see a cloud, because no cloud was in the sky:
9. No birds were flying overhead – there were no birds to fly.
10. The Walrus and the Carpenter were walking close at hand;
11. They wept like anything to see such quantities of sand:
12. ‘If this were only cleared away,’ they said, ‘it would be grand!’
13. ‘If seven maids with seven mops swept it for half a year,
14. Do you suppose,’ the Walrus said, ‘that they could get it clear?’
15. ‘I doubt it,’ said the Carpenter, and shed a bitter tear.
16. ‘O Oysters, come and walk with us!’ the Walrus did beseech.
17. ‘A pleasant walk, a pleasant talk, along the briny beach:
18. We cannot do with more than four, to give a hand to each.’
19. The eldest Oyster looked at him, but never a word he said.
20. The eldest Oyster winked his eye, and shook his heavy head –
21. Meaning to say he did not choose to leave the oyster-bed.
22. But four young Oysters hurried up, all eager for the treat:
23. Their coats were brushed, their faces washed, their shoes were clean and neat –
24. And this was odd, because, you know, they hadn’t any feet.
25. Four other Oysters followed them, and yet another four;
26. And thick and fast they came at last, and more, and more, and more –
27. All hopping through the frothy waves, and scrambling to the shore.

28. The Walrus and the Carpenter walked on a mile or so,
29. And then they rested on a rock conveniently low:
30. And all the little Oysters stood and waited in a row.
31. 'The time has come,' the Walrus said, 'to talk of many things:
32. Of shoes – and ships – and sealing-wax – of cabbages – and kings –
33. And why the sea is boiling hot – and whether pigs have wings.'
34. 'But wait a bit,' the Oysters cried, 'before we have our chat;
35. For some of us are out of breath, and all of us are fat!'
36. 'No hurry!' said the Carpenter. They thanked him much for that.
37. 'A loaf of bread,' the Walrus said, 'is what we chiefly need:
38. Pepper and vinegar besides are very good indeed –
39. Now if you're ready, Oysters dear, we can begin to feed.'
40. 'But not on us!' the Oysters cried, turning a little blue.
41. 'After such kindness, that would be a dismal thing to do!'
42. 'The night is fine,' the Walrus said. 'Do you admire the view?'
43. 'It was so kind of you to come! And you are very nice!'
44. The Carpenter said nothing but 'Cut us another slice:
45. I wish you were not quite so deaf – I've had to ask you twice!'
46. 'It seems a shame,' the Walrus said, 'to play them such a trick,
47. After we've brought them out so far, and made them trot so quick!'
48. The Carpenter said nothing but 'The butter's spread too thick!'
49. 'I weep for you,' the Walrus said: 'I deeply sympathise.'
50. With sobs and tears he sorted out those of the largest size,
51. Holding his pocket-handkerchief before his streaming eyes.
52. 'O Oysters,' said the Carpenter, 'You've had a pleasant run!
53. Shall we be trotting home again?' But answer came there none –
54. And this was scarcely odd, because they'd eaten every one.

Please answer these questions. (Look at the poem again if you need to.)
You should choose the **best** answer and mark its letter on your answer sheet.

16

Which of the following words best describes the mood of the poem?

- A serious
- B eerie
- C insightful
- D scenic
- E absurd

17

What was unusual about the sunshine in the poem?

- A It was a sunny, hot day but it was the middle of winter.
- B The sun was beating down heavily, even though it was a cloudy day.
- C Even though it was shining brightly, the sun was also sulking with the moon.
- D Even though it was shining brightly, the sun was also saying rude things.
- E It was sunny in the middle of the night.

18

What do the Walrus and the Carpenter wish were NOT present on the beach?

- A water
- B sand
- C oysters
- D birds
- E maids

19

How many of the Oysters joined the Walrus and the Carpenter on their walk?

- A** four
- B** five
- C** eight
- D** twelve
- E** more than twelve

20

Look at lines 34 - 39. What wish does the Carpenter grant to the Oysters?

- A** that they have a loaf of bread
- B** that they have a chat
- C** that they have a rest
- D** that they lose weight
- E** that they may return home for dinner

21

Which of the following statements best describes the Walrus' behaviour when the final decision is made over what to have for dinner?

- A** He shows no sympathy towards the Oysters.
- B** He sympathises with the Oysters and refuses to eat them.
- C** He pleads with the Carpenter to change his mind, but ends up deciding to eat the Oysters anyway.
- D** He tricks the Carpenter, allowing the Oysters to escape.
- E** He is so fascinated by the view that he doesn't realise what he's eating for dinner.

22

Which of the following lines in the poem contains a hyphenated word?

- A line 33
- B line 38
- C line 45
- D line 51
- E line 53

For these questions you have to **write your answers**, neatly, in the boxes provided on your answer sheet.

23

'Sulkily' (line 4) is the adverb form of the adjective 'sulky'. What is the adverb form of the adjective 'hungry'?

24

Which particular Oyster refused to go on the walk with the Walrus and the Carpenter?

25

The poet admits that one of the items of clothing worn by the Oysters was highly unusual. What was this item of clothing?

26

What one thing, mentioned in lines 31 - 33, is something that was used to keep envelopes closed?

27

Look at lines 49 - 51. Which VERB is used as a rhyming word for 'size'?

28

Which one part of speech are the following as they appear in the passage?

treat (line 22), **rock** (line 29), **chat** (line 34), **breath** (line 35)

Maths

29

Which fraction is NOT equal to 50%?

A $\frac{8}{16}$ **B** $\frac{1}{2}$ **C** $\frac{17}{32}$ **D** $\frac{6}{12}$ **E** $\frac{2}{4}$ **30**

These are the ingredients for making 10 chocolate cupcakes.

125 g flour
50 g cocoa powder
200 g sugar
5 g baking powder
2.5 g baking soda
120 ml vegetable oil
2 large eggs
5 ml vanilla extract
120 ml buttermilk

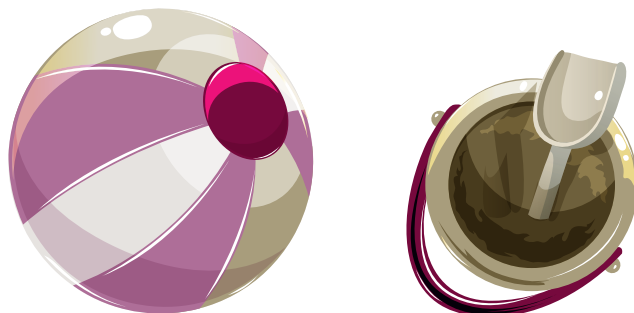

Which of the following ingredients would be the correct amount for making 25 chocolate cupcakes?

- A** 250 g flour
- B** 15 g baking powder
- C** 125 ml vanilla extract
- D** 250 g cocoa powder
- E** 300 ml buttermilk

31

One beach ball costs £3.99.

One bucket and spade set costs £5.99.

During one week, a seaside shop sells 31 beach balls and 19 bucket and spade sets.

Which of the following amounts is the best **ESTIMATE** for how much money the shop received that week for all of these items?

A £80

B £120

C £160

D £210

E £240

32

Which of the following calculations produces the same answer as $8^2 - 8$?

A 7×8

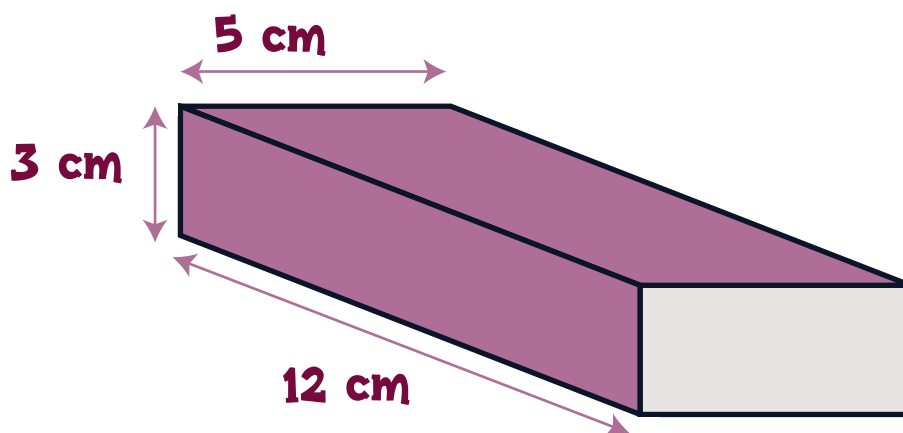

B 2×4

C $32 \div 2$

D 6×9

E 16×4

33

What is the volume of this cuboid?

- A** 20 cm³ **B** 40 cm³ **C** 80 cm³ **D** 120 cm³ **E** 180 cm³

34

The organisers of a chess tournament gave out £250 in prize money. The money was shared among four players, but they did not each receive the same amount.

Player	Prize Money
Carl	£84.80
Eamonn	£47.20
Lucia	?
Olivia	£60.05

How much prize money did Lucia win?

- A** £57.50 **B** £57.95 **C** £58.05 **D** £47.95 **E** £47.50

35

A map uses the following scale: 1 cm represents 6 km.
Two towns are 14.4 kilometres apart.

What is the distance between these two towns on the map?

- A** 2.2 cm **B** 2.4 cm **C** 8.4 cm **D** 20.4 cm **E** 86.4 cm
-

36

$$417 \div f = 139$$

What is the value of the letter f in this calculation?

- A** 3 **B** 4 **C** 5 **D** 278 **E** 556
-

37

Casey is seven years older than Anna.
Anna is two years younger than Charlie.
Two years from today, Charlie will be nine years old.

What age is Casey now?

- A** 12 **B** 14 **C** 16 **D** 18 **E** 20
-

38

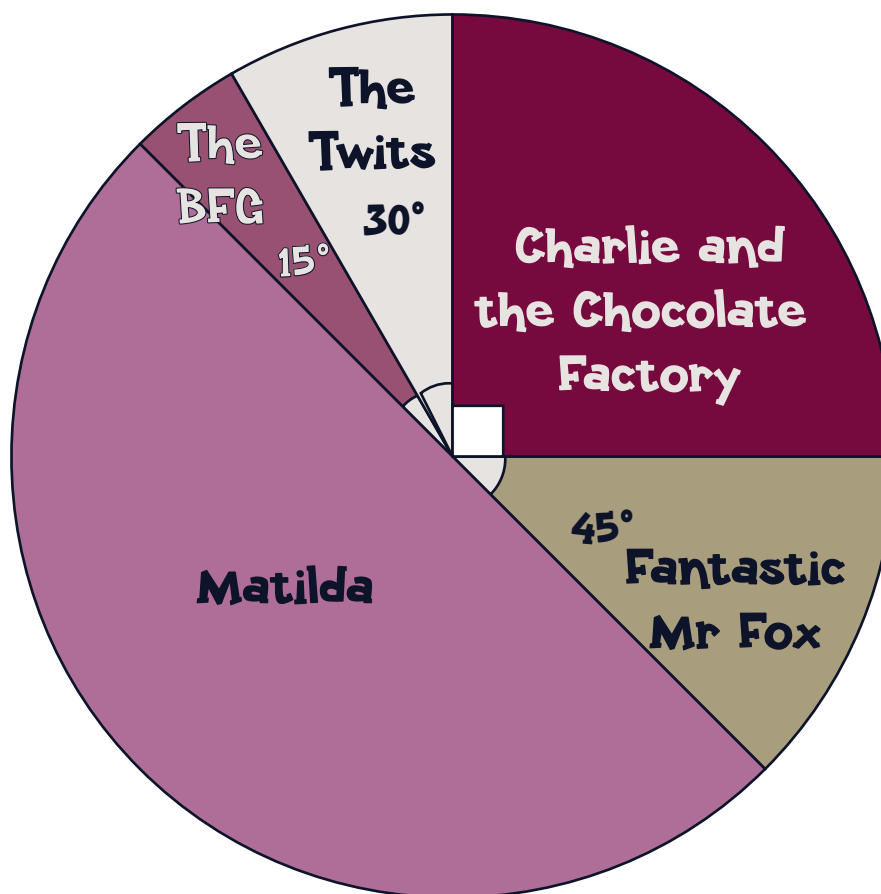

61 58 52 _____ 31 _____

What are the two missing numbers in this sequence?

- A** 43 & 16 **B** 46 & 25 **C** 45 & 16 **D** 40 & 16 **E** 45 & 19
-

39

48 students were asked to name their favourite Roald Dahl novel from a selection of five books. The results were recorded in a pie chart.

Which of the five novels was named by TWELVE students as their favourite?

- A The BFG
- B The Twits
- C Charlie and the Chocolate Factory
- D Fantastic Mr Fox
- E Matilda

40

There is a choice of three activities at a youth club: the teenagers can take part in a table quiz, they can play volleyball, or they can play video games.

60% of the teenagers take part in the table quiz, $\frac{1}{5}$ play volleyball, and eight teenagers play video games.

How many teenagers are at the youth club?

- A** 36 **B** 40 **C** 50 **D** 56 **E** 60
-

41

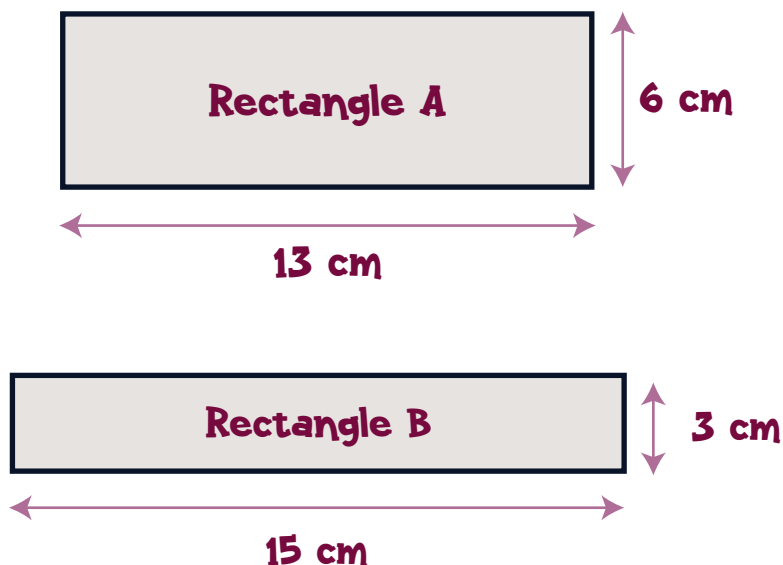

These eight number cards are placed on a table with their faces down. One card is turned over at random.

Which of the following statements is true?

- A** The probability of selecting a cube number is impossible.
B The probability of selecting a cube number is unlikely.
C The probability of selecting a cube number is evens.
D The probability of selecting a cube number is likely.
E The probability of selecting a cube number is certain.
-

42

What is the difference in area between Rectangle A and Rectangle B?

- A** 2 cm² **B** 123 cm² **C** 78 cm² **D** 76 cm² **E** 33 cm²
-

43

Joe and Alex challenge each other with a Maths quiz. Joe will ask Alex ten different times-tables questions, then Alex will ask Joe another ten different times-tables question.

If they answer a question correctly, they get five points. If they answer a question incorrectly, the other player gets one point.

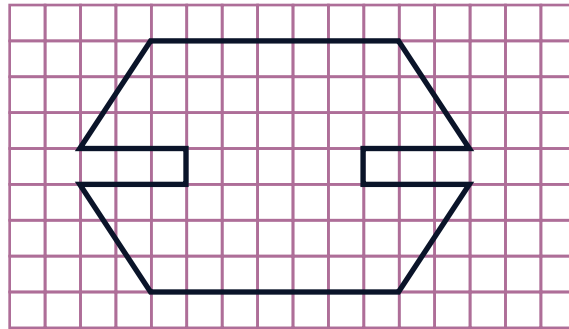

Joe answers 7 questions correctly, and Alex answers 8 questions correctly.

How many points did Alex score?

- A** 35 **B** 37 **C** 38 **D** 40 **E** 43
-

44

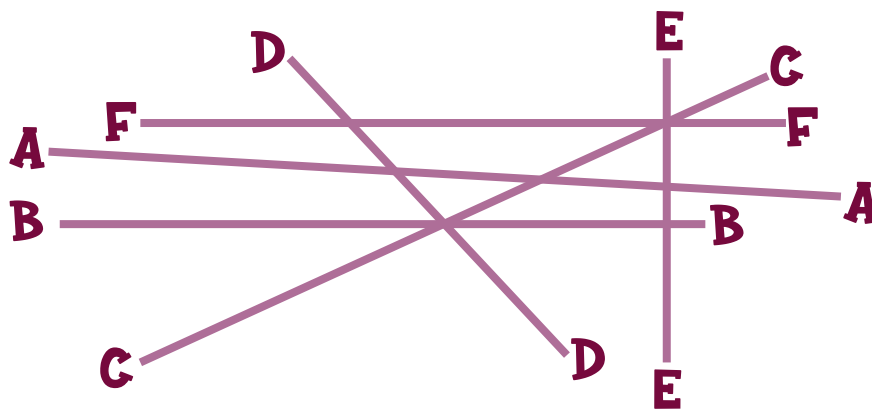

A 12-sided shape is drawn on a grid.

How many lines of symmetry does the shape have?

- A 0 lines of symmetry
- B 1 line of symmetry
- C 2 lines of symmetry
- D 3 lines of symmetry
- E 4 lines of symmetry

45

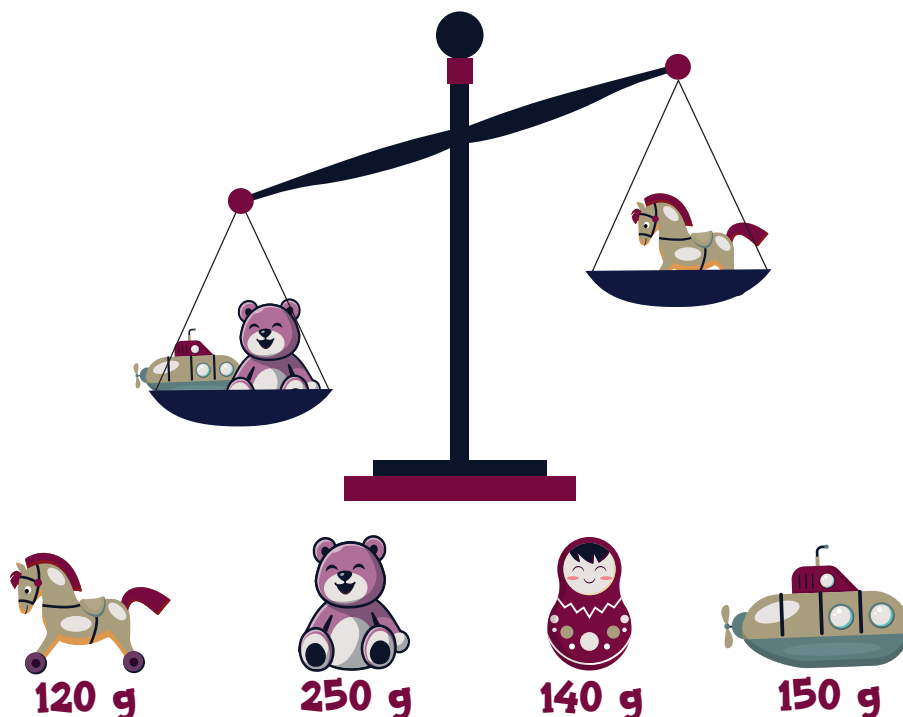

Which line is perpendicular to Line F?

- A Line A
- B Line B
- C Line C
- D Line D
- E Line E

46

Some toys are placed onto balancing scales. The weight of each toy is given below the picture.

The shopkeeper at a toy store wishes to place one or more toys alongside the horse so that the scales are perfectly balanced.

What should the shopkeeper place alongside the horse?

- A** two more horses
- B** one doll & one submarine
- C** one teddy bear
- D** two dolls
- E** one more horse & one submarine

47

Which of the following numbers is one thousand times greater than 5.03?

- A** 503 **B** 1005.03 **C** 1005.3 **D** 5003 **E** 5030

48

How many faces are on a square-based pyramid?

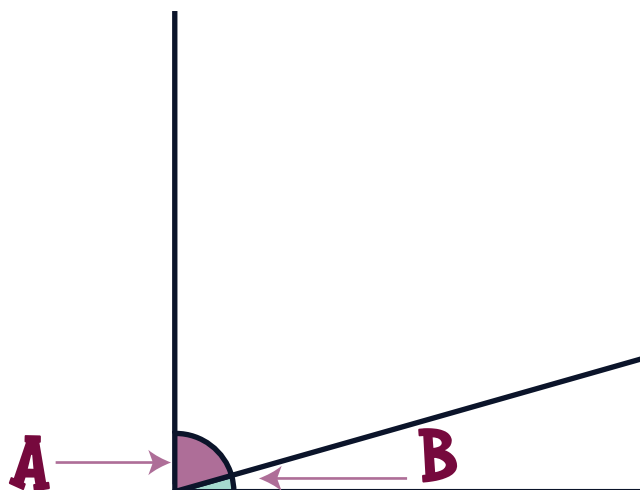

- A 3 faces
- B 4 faces
- C 5 faces
- D 6 faces
- E 7 faces

49

Which of the following decimal numbers is equal to $\frac{53}{100}$?

- A 0.053
- B 0.53
- C 5.03
- D 5.3
- E 53.0

50

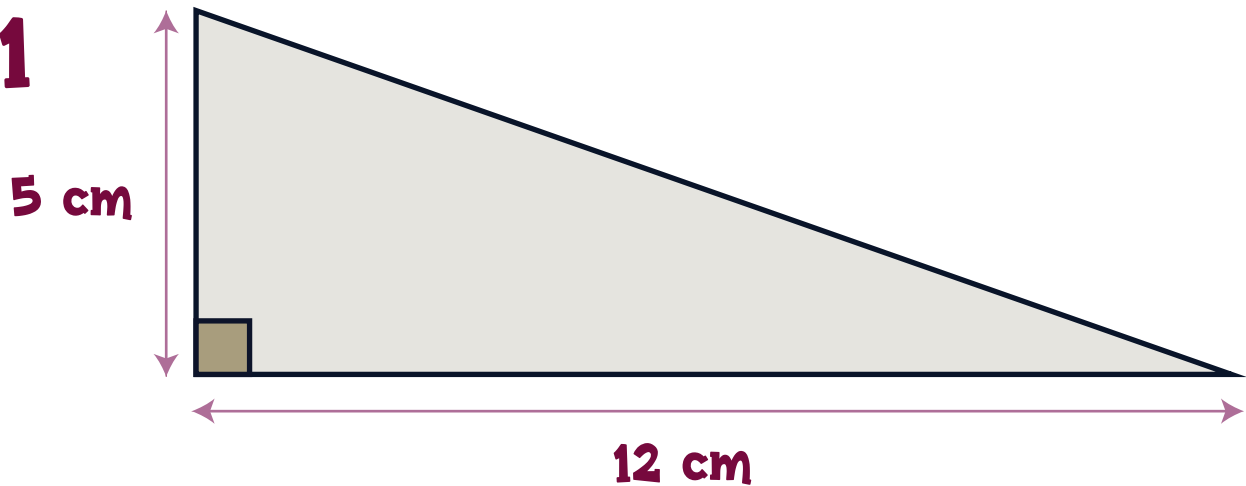

Angle A and Angle B combine to make a right angle.

Angle A is 74° .

What is the size of Angle B?

- A 6°
- B 16°
- C 26°
- D 90°
- E 106°

For questions 51 - 56, you have to **write your answers** in the boxes provided on your answer sheet. The units of measurement have been given.

51

What is the area of this triangle?

.....

52

Noah, Miles, Violet and Heidi form a relay team on Sports Day. They must each run 100 metres along the school track.

Noah takes 24 seconds to complete the first leg. Miles is next, and completes his turn in 28 seconds. On the third leg, Violet is two seconds slower than Noah. On the final leg, Heidi is three seconds faster than Miles.

How long, in minutes and seconds, did it take the team to finish the race?

.....

53

Five school football teams played against each other during a tournament. The number of goals scored in each match is recorded in the table.

Sutton	Weston	Middleton	Newton	
4	3	1	2	Euston
	5	3	1	Sutton
		6	0	Weston
			3	Middleton

The table does not show the scores from the matches. It only shows the total number of goals that were scored in each game.

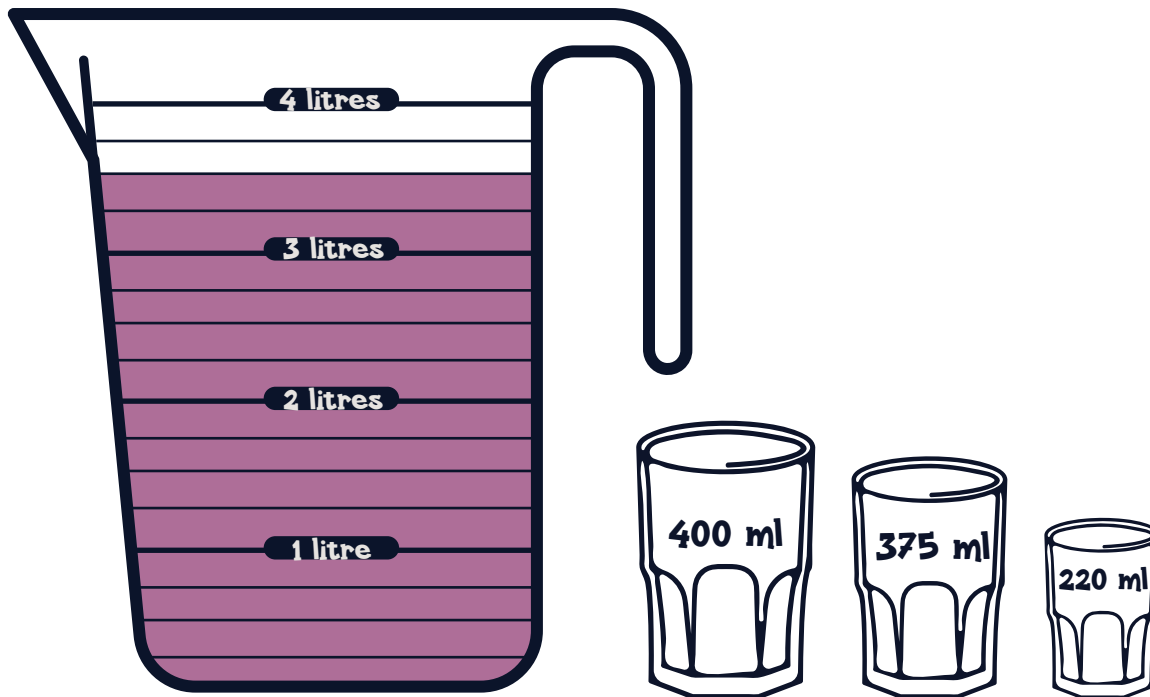

How many goals were scored in total in matches that involved Sutton?

54

What is the product of the fifth square number and the fifth prime number?

55

The three glasses are each to be completely filled with juice from the jug.

How many litres of juice will be left in the jug after the three glasses have been filled?

56

18	19	13
24	11	17

What is the mean of this list of numbers?

The Catapultalogue
