

SEAG-style practice tests

the catapult papers

the warm-up series

Name: _____

Score: _____

Warm-Up 7

2026 edition

Notes for parents

The Warm-Up Series of The Catapult Papers introduces children to the Transfer Test process in a gentle and accessible way. These papers are intended for P6 pupils and reflect the stage at which schools typically begin early preparation, around eight months before the official exams. At this point in the school year, some relevant English and Maths skills will not yet have been covered in class. Although a small number of these concepts may appear within the Warm-Up papers, the overall difficulty level has been moderated to provide a first, confidence-building look at SEAG-style questions.

As children progress through the Warm-Up Series, they will gradually become familiar with the structure, pacing, and style of SEAG assessments. Completion of this series should help prepare them for the more challenging papers within the main Catapult Papers series (20 papers), which continue the progression toward full P7 readiness.

The official time limit for the Transfer Test is 60 minutes. However, because this is a practice paper, no time limit is printed. Parents may decide how long to allow for completion, depending on their child's needs and stage of learning.

This test paper may be written on, but answers must be recorded on the separate answer sheet provided. Guidance on how to do this is included at the top of that page. An answers page has also been provided for marking. Each correct answer is awarded one mark, and no question is worth more than one mark. Half-marks are not recommended. In the English section, misspelled answers should only be accepted when spelling is not part of the skill being tested. When spelling accuracy is central to the question (e.g. plurals, verb endings), the response should be marked incorrect if spelled wrongly.

Spaces for recording the final score are provided on both the cover page and the answer sheet. Parents may record the result either as a percentage or as a score out of 56.

Finally, please remember that these are practice tests. Early scores are not an indication of eventual performance. At this stage, the purpose of the Warm-Up Series is to build familiarity, develop confidence, and introduce children gradually to the range of skills and question types they will meet later in the Transfer Test journey.

Permission to use this paper is granted for one child only. No photocopying or sharing of the test is permitted. A separate series of The Catapult Papers is available exclusively for schools.

English

In this exercise there are some mistakes with **punctuation** or use of **capital letters**. On each numbered line there is either **one** mistake or **no** mistake. Find the group of words with the mistake in it and **mark its letter on your answer sheet**. If there is **no** mistake, mark **N**.

Punctuation Exercise

1 Mr Magill's old toy store was full of chess boards Cluedo games and Rubik's cubes.

A B C D

2 Out of the blue, Jessicas' parents arrived; they were horrified at what they saw.

A B C D

3 'Are you sitting down?' Caleb asked. 'You're not going to believe this news!'

A B C D

4 'Whats the point in learning about symmetry? That won't help me become a vet!'

A B C D

5 The leaves' colours, when you think about it, are the main reason why thousands' of people visit this forest in October.

A B C D

In this exercise you have to choose the **best** word, or **group of words**, to complete each numbered line so that the sentences make sense and are written in correct English. Choose the best answer and **mark its letter on your answer sheet**.

Grammar Exercise

6 The local bank chose Miss Foster to be their new manager because she had a
huge abundance years wealth lots of experience.
A B C D E

7 'Your fingerprints are everywhere, Max. We need to get rid get out
get clear get lost destroy the evidence quickly!'
C D E

8 Just as night follows day, it is a possibly certainty possible certainly
certain that Ella will come home whistling a happy tune.
E

9 Ollie's group had token took taken taking take too much time to
complete the art project.

10 'Please remain seated down up sat in until you receive further
instruction.'

In this exercise there are some **spelling** mistakes. On each numbered line there is either **one** mistake or **no** mistake. Find the group of words with the mistake in it and **mark its letter on your answer sheet**. If there is no mistake, mark **N**.

Spelling Exercise

- 11** Sam was thrilled to discover that he had been given the role of narrator.
A B C D
- 12** 'In my opinion, the most elegant clothes desingers tend to be European.'
A B C D
- 13** 'He is a relyable pupil, always prepared to help out, and full of enthusiasm.'
A B C D
- 14** Dad tried, with all his strength and determination, to undo the mood of despair.
A B C D
- 15** It was, without doubt, an extreamly unfortunate episode; the vehicles were at a
standstill, and the storm was approaching.
A B C D

Read the whole passage carefully, then answer the questions that follow.

Bambi

1. In early summer the trees stood still under the blue sky, held their limbs
2. outstretched and received the direct rays of the sun. On the shrubs and bushes in
3. the undergrowth, the flowers unfolded their red, white and yellow stars. On some
4. the seed pods had begun to appear again. They perched innumerable on the fine
5. tips of the branches, tender and firm and determined, and seemed like small,
6. clenched fists. Out of the earth came whole troops of flowers, like varied stars, so
7. that the soil of the dusky forest floor shone with a silent, glowing, colourful gladness.
8. Everything smelled of fresh leaves, of blossoms, of moist earth and green wood.
9. When morning broke, or when the sun went down, the whole woods resounded with
10. a thousand voices, and from morning till night, the bees hummed, the wasps
11. droned, and filled the fragrant silence with their murmur.

12. Bambi questioned her. He loved to ask his mother questions. It was the pleasantest
13. thing for him to ask a question and then to hear what answer his mother would give.
14. Bambi was never surprised that question after question should come into his mind
15. continually and without effort. He found it perfectly natural, and it delighted him very
16. much. It was very delightful, too, to wait expectantly till the answer came. If it turned
17. out the way he wanted, he was satisfied. Sometimes, of course, he did not
18. understand, but that was pleasant also because he was kept busy picturing what he
19. had not understood, in his own way. Sometimes he felt very sure that his mother
20. was not giving him a complete answer, was intentionally not telling him all she knew.
21. And at first, that was very pleasant, too. For then there would remain in him such a
22. lively curiosity, such suspicion, mysteriously and joyously flashing through him, such
23. anticipation, that he would become anxious and happy at the same time, and grow
24. silent.

25. Now he saw the whole heaven stretching far and wide, and he rejoiced without
26. knowing why. In the forest he had seen only a stray sunbeam now and then, or the
27. tender, dappled light that played through the branches. Suddenly he was standing in
28. the blinding hot sunlight whose boundless power was beaming upon him. He stood
29. in the splendid warmth that made him shut his eyes but which opened his heart.

30. It sounded different from the thrushes' song, or the yellowbirds', different from the
31. friendly notes of the cuckoo, but Bambi loved the owl's cry, for he felt its mysterious
32. honesty, its unspeakable wisdom and strange sadness.

33. 'Oh just as you please,' said the crow solemnly. 'Forget what I said to you, but
34. remember that the Prince did not die because he was proud or stupid, but because
35. no one can escape Him.'
36. Bambi felt himself thrill with pride, felt inspired with a deep earnestness. Yes, life
37. was difficult and full of danger. But come what might he would learn to bear it all.
38. The leaves were falling from the great oak at the meadow's edge. They were falling
39. from all the trees.
40. One branch of the oak reached high above the others and stretched far out over
41. the meadow. Two leaves clung to its very tip.
42. 'It isn't the way it used to be,' said one leaf to the other.
43. 'No,' the other leaf answered. 'So many of us have fallen off tonight we're almost
44. the only ones left on our branch.'
-

Please answer these questions. (Look at the passage again if you need to.)
You should choose the **best** answer and mark its letter on your answer sheet.

16

What is the purpose of the first paragraph in this passage?

- A** It introduces us to the main character of the story.
- B** It helps us picture the world in which the main character lives.
- C** It places us in the middle of a conversation between a young animal and its mother.
- D** It provides us with a science lesson on the growth of plants, flowers and shrubs within a forest.
- E** It provides us with clues that the main character is going to face many unexpected challenges in life.

17

Look at lines 12 - 24. Which of the following words best describes the character of Bambi?

- A hardworking
- B lazy
- C inquisitive
- D heartless
- E fearful

18

Look at lines 25 - 29. Where is Bambi standing?

- A at the top of a mountain
- B by the shore of a lake
- C beneath the forest's shade
- D at the edge of a meadow, away from its shade
- E at the foot of a mountain

19

Which of the following statements best describes the time of year in which this passage is set?

- A The entire passage describes one summer's day in the forest.
- B The entire passage describes one autumn's day in the forest.
- C The passage spans an entire year, covering all four seasons.
- D There is no clue in the passage about the time of year.
- E The passage spans a period of time that begins on a summer's day but ends on an autumn's day.

20

What is the author's **MAIN** purpose in writing lines 33 - 44 of the passage?

- A These lines are a contrast to the opening of the passage. Nature was at peace in the beginning, but now the reality of suffering has appeared.
- B We are being shown that the main character has an active imagination: even the leaves can talk to each other!
- C The author wants us to feel tension, and to wonder if the two remaining leaves on the tree will survive.
- D The author wants us to focus on how large the oak tree is.
- E The author wants us to see how much Bambi enjoys listening to the crow's story about the Prince.

21

Which **adverb** in lines 12 - 24 tells us that something was being done 'on purpose'?

- A continually (line 15)
- B perfectly (line 15)
- C intentionally (line 20)
- D mysteriously (line 22)
- E joyously (line 22)

22

'It sounded different from the thrushes' song, or the yellowbirds', different from the friendly notes of the cuckoo, but Bambi loved the owl's cry...'
(lines 30 - 31)

This statement tells us which of the following facts?

- A There are multiple thrushes, yellowbirds and owls.
- B There are multiple thrushes but just one yellowbird and one owl.
- C There is just one thrush, one yellowbird and one owl.
- D There is just one yellowbird and one thrush, but multiple owls.
- E There are multiple thrushes and yellowbirds, but just one owl.

For these questions you have to **write your answers**, neatly, in the boxes provided on your answer sheet.

- 23** How many different colours are mentioned in lines 1 - 11?
- 24** Which two-word phrase in lines 8 - 11 could be meaningfully replaced by the words 'scented hush'?
- 25** Which word, in lines 25 - 29, means the same as 'unending' or 'without limit'?
- 26** The word 'warmth' (line 29) is the noun form of the adjective 'warm'. What is the noun form of the adjective 'long'?
- 27** Which eight-word phrase, in lines 33 - 44, tells us that 'things aren't how they were in the past'?
- 28** Which one part of speech are the following as they appear in the passage?
received (line 2), **shone** (line 7), **broke** (line 9), **found** (line 15)

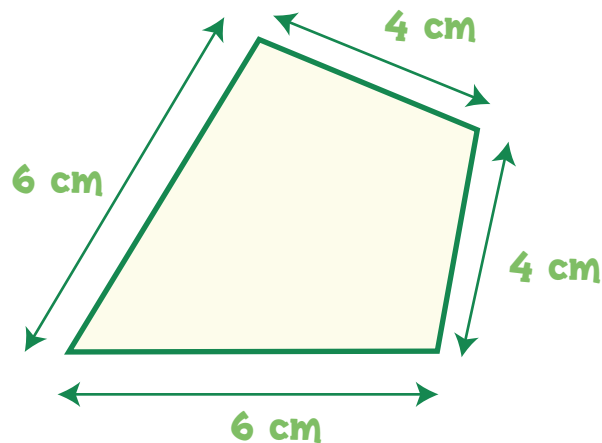

Maths

29

In 2023, the 16th October fell on a Monday.

On which day of the week did the 2nd November 2023 fall?

- A Monday
- B Tuesday
- C Wednesday
- D Thursday
- E Friday

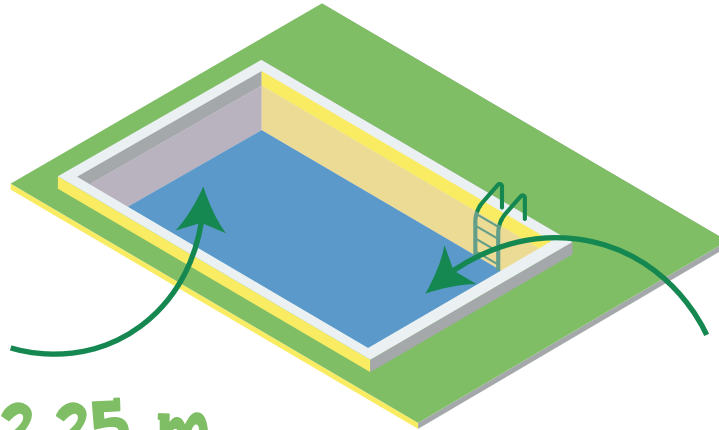

30

What is the name of this shape?

- A kite
- B trapezium
- C parallelogram
- D rhombus
- E pentagon

31

The shallow end of a public swimming pool measures 1.1 m in depth. The deep end of the same swimming pool measures 2.25 m in depth.

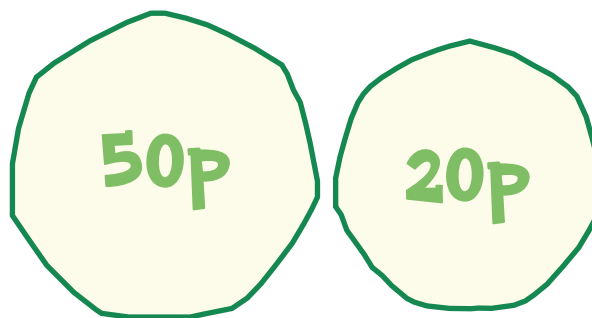

**Deep End: 2.25 m****Shallow End: 1.1 m**

What is the difference between the depth of the shallow end and the depth of the deep end?

- A** 1.15 cm **B** 1.24 cm **C** 11.5 cm **D** 115 cm **E** 124 cm

32

James has saved £5.60 in coins. This amount is made up entirely of 50p coins and 20p coins. He has the same number of each coin.

How many coins does James have in total?

- A** 12 **B** 14 **C** 16 **D** 18 **E** 20

33

This table shows Elliott's first six scores in his weekly spelling tests in Year 5.

	Week 1	Week 2	Week 3	Week 4	Week 5	Week 6
Score	8	6	8	7	9	7

What was Elliott's mean score for these first six tests?

- A 7 B 7.3 C 7.5 D 7.6 E 8
-

34

A quadrilateral has three of its angles labelled. They are 33° , 71° and 40° .

Which of the following statements about the fourth angle in the quadrilateral is true?

- A The fourth angle is an acute angle.
B The fourth angle is a right angle.
C The fourth angle is an obtuse angle.
D The fourth angle is a straight angle.
E The fourth angle is a reflex angle.
-

35

Which of the following decimal numbers is greatest?

- A 0.131 B 0.15 C 0.1 D 0.2 E 0.189
-

36

The price of one first-class stamp is £1.10. The price of one second-class stamp is 75p.

What is the difference between the cost of eight first-class stamps and eight second-class stamps?

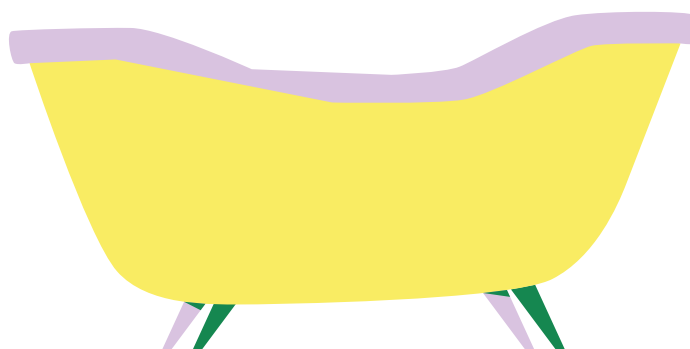

- A** £0.35 **B** £2.00 **C** £2.80 **D** £4.00 **E** £14.80
-

37

In Year 4 there are 70 pupils altogether. 42 of these pupils are boys.

What percentage of the Year 4 pupils are girls?

- A** 10% **B** 20% **C** 25% **D** 40% **E** 50%
-

38

Approximately how many litres of water can a bathtub hold?

- A** 10000 litres
B 100 litres
C 10 litres
D 1 litre
E 0.1 litres

39

The table of numbers below is called a Magic Square. There are four missing numbers.

16	2	3	13
5	11	10	8
?	?	?	?
4	14	15	1

The rules for a Magic Square are as follows:

- Each number from 1 to 16 must appear in the Magic Square.
- Each horizontal row of numbers must add to make the same total.
- Each vertical column of numbers must add to make the same total.
- The two diagonal lines of numbers (top left to bottom right, and top right to bottom left) must add to make the same total.
- These three totals are the SAME number.

From left to right, what is the order of the four missing numbers?

- A** 9, 7, 6, 12
- B** 9, 6, 7, 12
- C** 9, 7, 12, 6
- D** 7, 9, 6, 12
- E** 7, 9, 12, 6

40

The first five multiples of nine are placed into this Carroll Diagram.

	Odd Number	Even Number
Not a Square Number		
Square Number		

Which number would be written in the shaded section of the Carroll Diagram?

A 9

B 27

C 36

D 81

E 100

41

1	3	6	12	16
---	---	---	----	----

How many of these numbers are factors of 48?

A 1 number

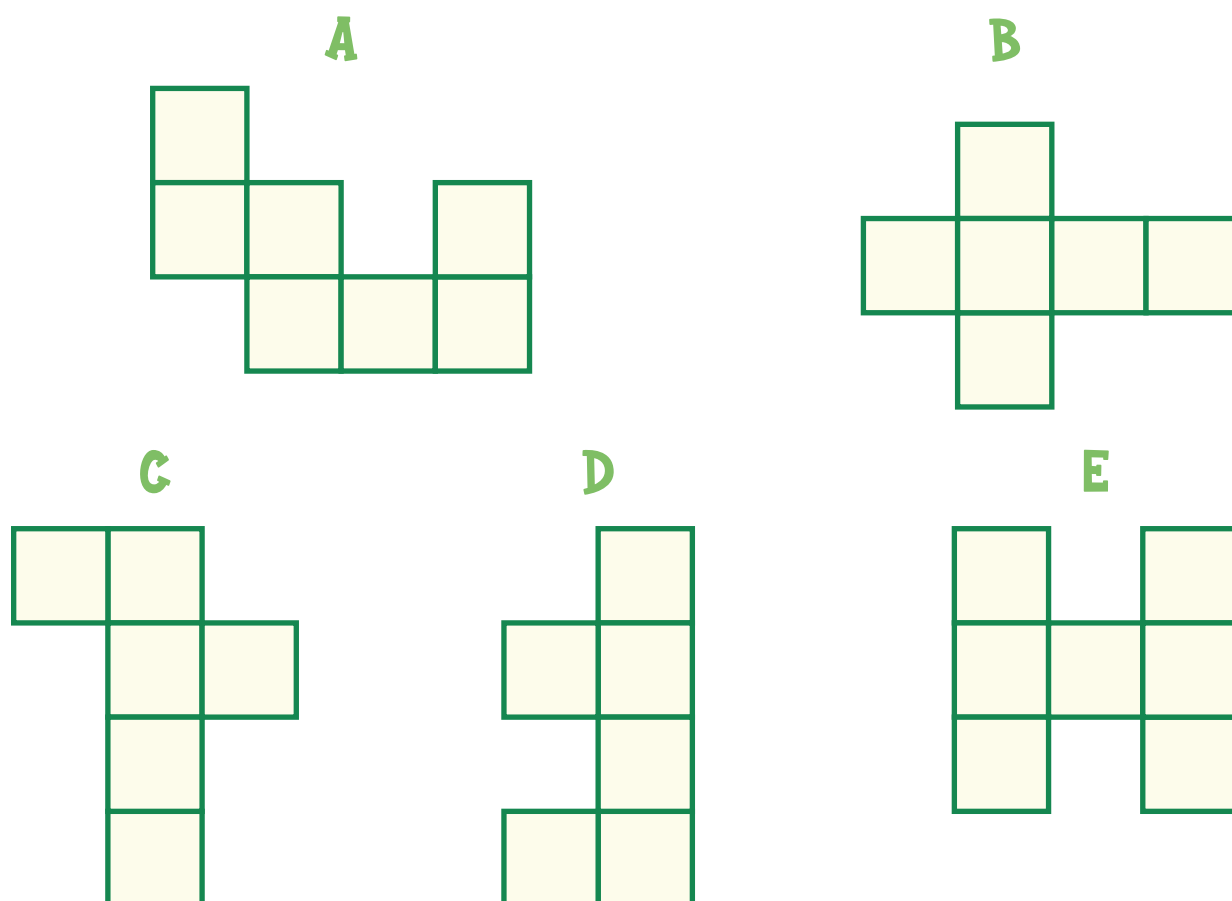

B 2 numbers

C 3 numbers

D 4 numbers

E 5 numbers

42

Which of the nets above can be folded to make a cube?

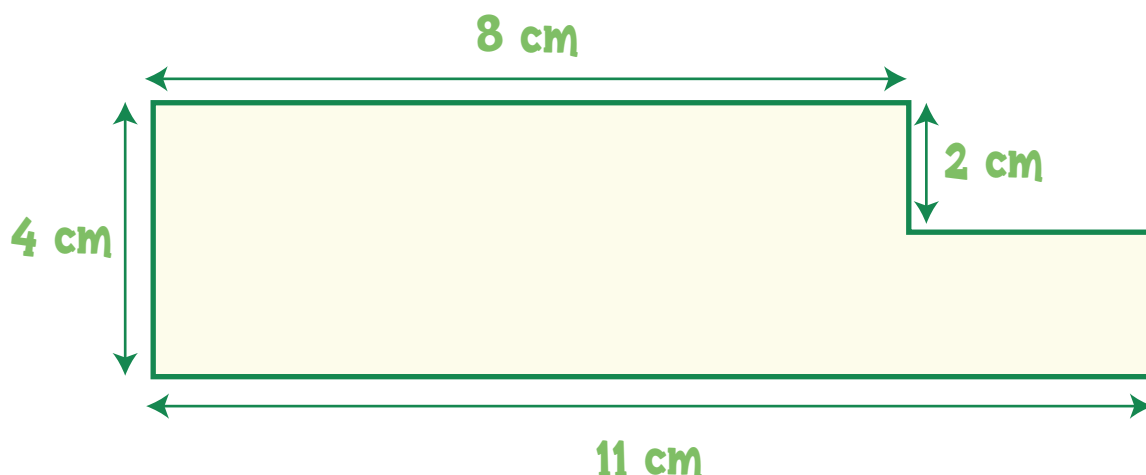

- A** Nets A and B only
- B** Nets B and C only
- C** Nets B, C and D only
- D** Nets A and E only
- E** Net B only

43

What time would show on a 24-hour clock when it is 75 minutes before a quarter to eight in the evening?

- A** 06:30
- B** 07:30
- C** 16:30
- D** 17:55
- E** 18:30

44

What is the area of this shape?

- A 25 cm^2 B 30 cm^2 C 38 cm^2 D 44 cm^2 E 704 cm^2

45

Michael uses an online 'Random Number Generator'.

When he presses the 'Generate' button, the generator will give him a random number from 1 to 100.

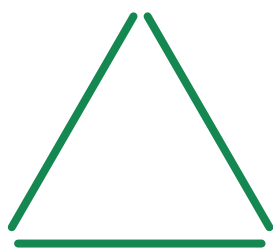

Michael presses the 'Generate' button three times, and gets three DIFFERENT numbers.

Which of the statements below about Michael's three numbers is NOT possible?

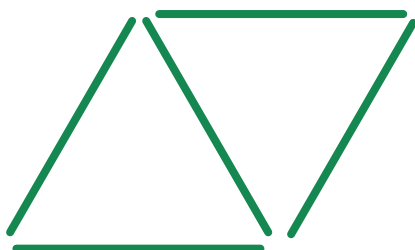

- A Michael's three numbers could all be odd numbers.
B The sum of Michael's three numbers could be 180.
C Michael's three numbers could all be cube numbers.
D The sum of Michael's three numbers could be 299.
E Michael's three numbers could each be divisible by ten.

46

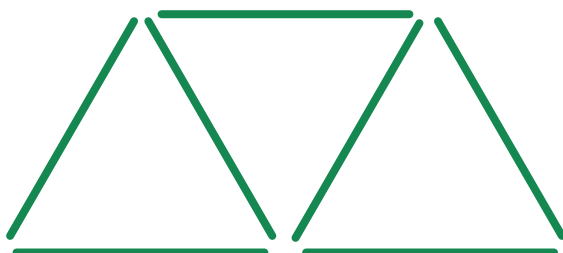

A sequence of patterns is created using straight lines. Each pattern forms one more triangle than the previous pattern.

Pattern 1

Pattern 2

Pattern 3

How many straight lines will be needed to create Pattern 7 in this sequence?

- A 7 straight lines
- B 9 straight lines
- C 14 straight lines
- D 15 straight lines
- E 21 straight lines

47

Which of the following values is greatest?

A $\frac{3}{4}$ B $\frac{23}{32}$ C $\frac{13}{16}$ D $\frac{5}{8}$ E $\frac{13}{20}$

48

Two towns are 32 km apart. They are drawn on a map. Each centimetre on the map represents 4 km.

How far apart are the towns on the map?

A 7 cm

B 8 km

C 12.8 cm

D 128 cm

E 8 cm

49

Which of these numbers is the same as 82 tenths?

A 8.2

B 820

C 0.82

D 80.2

E 0.082

50

$47 \times 53 = ?$

Which of the following numbers is the best estimated answer to this calculation?

A 200

B 250

C 2000

D 2500

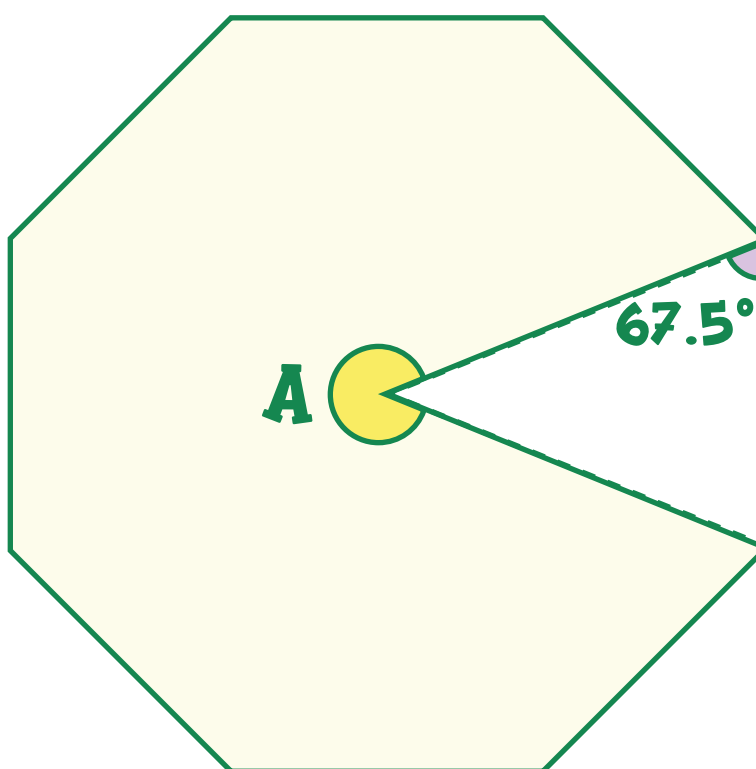

E 20000

For questions 51 - 56, you have to **write your answers** in the boxes provided on your answer sheet. The units of measurement have been given.

51

Carmel travels $\frac{3}{8}$ of a ten-kilometre journey.

How far, in kilometres, does she have **LEFT** to travel?

52

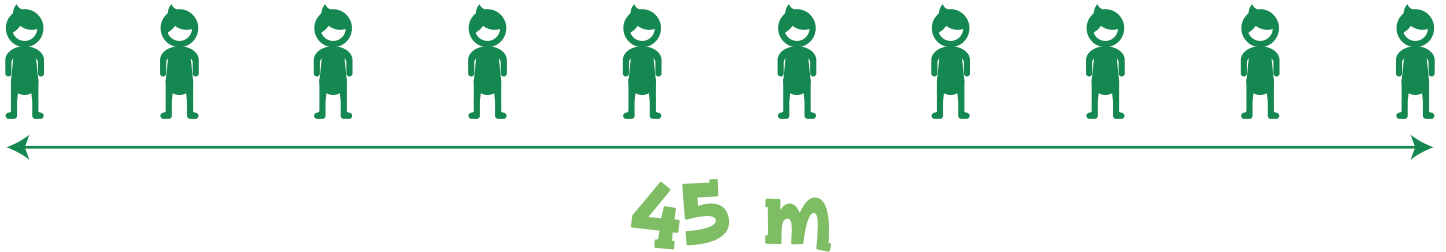

A cut-out in the shape of an isosceles triangle has been removed from the side of an octagon. One of the angles in the isosceles triangle measures 67.5° .

What is the size of Angle A?

53

Ten boys stand evenly spaced along a straight line. The distance from one boy to the next boy is exactly the same throughout the line.

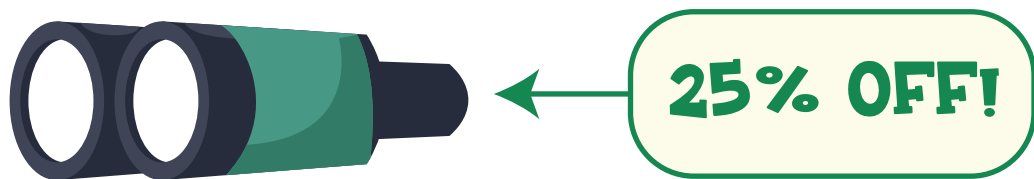

The distance from the first boy to the tenth boy is 45 metres.

What is the distance in metres from any one boy in the line to the boy next to him?

54

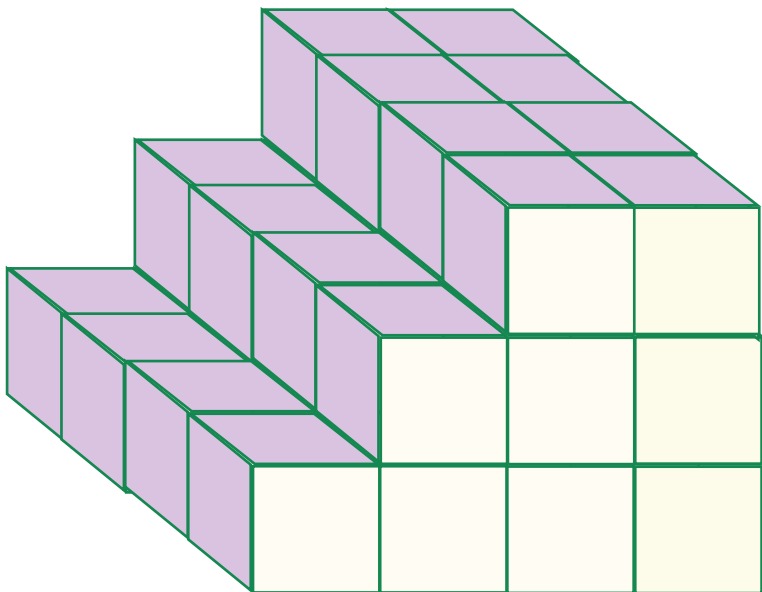

A pair of binoculars is reduced in price during a Christmas sale.

Before the sale, the pair of binoculars cost £80.

How much does the pair of binoculars cost during the sale?

55

How many cubes are there altogether in this arrangement?

56

Hildon	0700	Trains depart from the Hildon platform every 15 minutes from 0700 until 2300.
Great Thomas	0710	
Mardsley	0725	
Firham Street	0735	
Bikerston	0740	

Henry wants to catch the 0845 train from the Hildon platform, but arrives six minutes too late.

The next train from the Hildon platform arrives four minutes late.

For how many minutes does Henry wait at the Hildon platform for the next train?
