

SEAG-style practice tests

the catapult papers

the warm-up series

Name: _____

Score: _____

Warm-Up 1

2026 edition

Notes for parents

The Warm-Up Series of The Catapult Papers introduces children to the Transfer Test process in a gentle and accessible way. These papers are intended for P6 pupils and reflect the stage at which schools typically begin early preparation, around eight months before the official exams. At this point in the school year, some relevant English and Maths skills will not yet have been covered in class. Although a small number of these concepts may appear within the Warm-Up papers, the overall difficulty level has been moderated to provide a first, confidence-building look at SEAG-style questions.

As children progress through the Warm-Up Series, they will gradually become familiar with the structure, pacing, and style of SEAG assessments. Completion of this series should help prepare them for the more challenging papers within the main Catapult Papers series (20 papers), which continue the progression toward full P7 readiness.

The official time limit for the Transfer Test is 60 minutes. However, because this is a practice paper, no time limit is printed. Parents may decide how long to allow for completion, depending on their child's needs and stage of learning.

This test paper may be written on, but answers must be recorded on the separate answer sheet provided. Guidance on how to do this is included at the top of that page. An answers page has also been provided for marking. Each correct answer is awarded one mark, and no question is worth more than one mark. Half-marks are not recommended. In the English section, misspelled answers should only be accepted when spelling is not part of the skill being tested. When spelling accuracy is central to the question (e.g. plurals, verb endings), the response should be marked incorrect if spelled wrongly.

Spaces for recording the final score are provided on both the cover page and the answer sheet. Parents may record the result either as a percentage or as a score out of 56.

Finally, please remember that these are practice tests. Early scores are not an indication of eventual performance. At this stage, the purpose of the Warm-Up Series is to build familiarity, develop confidence, and introduce children gradually to the range of skills and question types they will meet later in the Transfer Test journey.

Permission to use this paper is granted for one child only. No photocopying or sharing of the test is permitted. A separate series of The Catapult Papers is available exclusively for schools.

English

In this exercise there are some mistakes with **punctuation** or use of **capital letters**. On each numbered line there is either **one** mistake or **no** mistake. Find the group of words with the mistake in it and **mark its letter on your answer sheet**. If there is no mistake, mark **N**.

Punctuation Exercise

1 'Frank, did you clean your room,' asked Mum. Unsurprisingly, there was no reply.
A B C D

2 There wasnt the slightest sign of an intruder; everything was in its right place.
A B C D

3 Much to Dad's irritation, Jack had forgotten to prepare everyone's dinner
A B C D

4 'Remain in your seats!' shouted Mrs Thorpe. 'The bell hasn't rung yet!'
A B C D

5 'Typical!' complained Jacob. 'Every time we take a day trip to newcastle, it
never fails to pour!'
A B C D

In this exercise you have to choose the **best** word, or **group of words**, to complete each numbered line so that the sentences make sense and are written in correct English. Choose the best answer and **mark its letter on your answer sheet**.

Grammar Exercise

- 6 Everything that Louisa write writes writ wrote written was presented
A B C D E
in the most beautiful handwriting.
- 7 Instead Rather Despite Although Alternatively of complaining about it,
A B C D E
why don't you just do something?
- 8 To be honest, this has been a complete waste to too two of off
A B C D E
my time.
- 9 When I arrived at the hotel yesterday, I could immediately see that it was all
I'll I'm I'd I've I did ever wanted.
A B C D E
- 10 The writing on the wall could of have be not if meant anything;
A B C D E
it might as well have been in a foreign language.

In this exercise there are some **spelling** mistakes. On each numbered line there is either **one** mistake or **no** mistake. Find the group of words with the mistake in it and mark its letter on your answer sheet. If there is no mistake, mark N.

Spelling Exercise

- 11** The charging bull came to an immediate halt, then changed direction.
A B C D
- 12** The incredible detective had solved countless puzzling mysterys in London.
A B C D
- 13** Hundreds of villagers attended the opening of the new stationery store.
A B C D
- 14** Each member of the group stood in respectfull silence after hearing the story.
A B C D
- 15** 'Throughout each of these journeys, I was ever so grateful to have my
friend by my side.'
A B C D

Read the whole passage carefully, then answer the questions that follow.

Finn McCool

1. In the charming emerald isle, tucked along the stunning coast of County Antrim, an
2. enchanting tale unfolds, featuring none other than the giant Finn McCool.
3. This titan took centre stage in a fanciful fable that would make even the most
4. disinterested storyteller sit up and take notice.
5. Picture, if you will, the dramatic backdrop of this account – wild and rugged
6. landscapes, the North Channel's raging waters, and a rivalry for the ages. Finn
7. McCool was the stuff of legends, known far and wide for his colossal frame and
8. unmatched bravery. Yet, it was his (and his wife's) quicksilver thinking that made
9. him a figure of deep fascination.
10. On the distant shores of bonnie Scotland, we meet Finn's great nemesis, the rival
11. giant, Benandonner. He, too, was of impressive size and strength, and these two
12. formidable beings would share an ongoing feud, each boasting of their own
13. achievements and daring the other to prove their courage.
14. One fine day, a wild idea struck Finn like a lightning bolt – why not construct a
15. causeway, a bridge of towering stones, spanning the violent waters that separated
16. Ireland from Scotland? And so, with great care, he crafted this earthly marvel, today
17. known to mortals as the Giant's Causeway. Each stone, hexagonal in shape, fit
18. perfectly with its neighbours, forming a pathway that seemed to bridge the realms
19. of reality and fantasy.
20. With the causeway's completion, McCool issued his challenge to Benandonner:
21. a showdown of epic proportions. The giant from Scotland (never one to decline a
22. battle) accepted with eagerness. However, the further he advanced across the
23. mammoth bridge, more and more flickers of uncertainty danced across his face.
24. 'Have I finally met my match?'
25. He had – but not in a way you'd expect! Here, in our tale, enters the ingenious
26. Oonagh, Finn's quick-witted spouse. With a strategy born of sheer brilliance, she
27. dressed her husband in infantile clothing and awaited Benandonner's arrival. As the
28. Scottish giant laid eyes upon the gigantic 'baby' resting in its crib, terror seized his
29. heart. His thoughts raced, 'If the offspring be of such monumental proportions, what
30. manner of monster must the father be?'

31. In a fit of panic, Benandonner turned tail and fled to Scotland with all the speed he
32. could muster. Such was the strength of each rampant leap across the waters, that
33. every stone across the bridge sank. Yes, the chronicle may tell us that Finn won
34. this particular battle of wits but – even though Benandonner didn't realise it – the
35. only remnants of Finn's structure would now be in County Antrim alone.
36. The Giant's Causeway, decorated with its unique columns, remains a geological
37. wonder, and a lasting testament to our timeless fascination with myths.
-

Please answer these questions. (Look at the passage again if you need to.)
You should choose the **best** answer and mark its letter on your answer sheet.

16

What is the purpose of the first paragraph of this passage?

- A It makes us feel like we are in Scotland.
- B It warns us of a surprise ending to the tale.
- C It sets the scene and introduces us to the main character.
- D It seeks to confuse us with difficult words.
- E It creates the effect of reading a history book.

17

Which of the following phrases from the passage tells us that Finn McCool had a 'swift-thinking mind'?

- A colossal frame (line 7)
- B quicksilver thinking (line 8)
- C deep fascination (line 9)
- D wild idea (line 14)
- E sheer brilliance (line 26)

18

Look at lines 14 - 19. Which one of these lines contains two words that are opposite in meaning to each other?

- A line 14
- B line 16
- C line 17
- D line 18
- E line 19

19

Look at lines 20 - 24. Which of the following statements best describes Benandonner's thoughts as his confrontation with Finn McCool drew near?

- A Benandonner was beginning to have second thoughts about his chances of success.
- B Benandonner couldn't wait for the challenge, and was extremely confident that he would succeed.
- C Benandonner was uncertain that the bridge would be able to bear his weight as he travelled from Scotland to Ireland.
- D Benandonner began to think that Finn McCool would not show up for the contest.
- E Benandonner thought that he may be too tired for battle after completing such a long journey.

20

Which one part of speech is the word 'ingenious' (line 25)?

- A noun
- B pronoun
- C verb
- D adverb
- E adjective

21

‘If the offspring be of such monumental proportions, what manner of monster must the father be?’ (lines 29 - 30)

What is the meaning of this sentence within the passage?

- A** If the stones are so large, the builder must be huge.
- B** If the child can lift such large stones, the father must be even stronger.
- C** If the child is so large in size, the father must be even larger.
- D** If the stones are so large, the father must be a huge, mythical animal.
- E** If the child is made of stone, the father must also be made of stone.

22

Why does The Giant’s Causeway have an apostrophe in its name?

- A** The causeway belonged to a giant.
- B** The causeway belonged to more than one giant.
- C** The causeway is a giant.
- D** The causeway is a collection of giants.
- E** The giants belonged to the causeway.

For these questions you have to **write your answers**, neatly, in the boxes provided on your answer sheet.

23

Look at lines 31 - 35. Which two-word phrase means ‘changed direction’?

24

Which word in lines 31 - 35 means ‘a written record of a historical event’?

25

Which word in the first paragraph is a compound word?

26

Look at lines 14 - 19. One of these lines contains a simile. Write the number of the line.

27

Look at lines 25 - 30. Which word is used instead of 'wife'?

28

Which one part of speech are the following as they appear in the passage?

boasting (line 12), **daring** (line 13), **decline** (line 21), **realise** (line 34)

Maths

29

Chloe reads 16 pages of a book each night from Monday to Friday. She reads another 22 pages on Saturday, then finishes the book on Sunday. The book has 127 pages in total.

How many pages did Chloe read on Sunday?

- A 25 pages
 - B 26 pages
 - C 27 pages
 - D 28 pages
 - E 29 pages
-

30

What is the size of Angle A in this triangle?

- A 25°
 - B 55°
 - C 65°
 - D 75°
 - E 125°
-

31

**Ingredients for
ten iced lollies**

Fruit juice-----900 ml

Water-----500 ml

Honey-----50 g

These are the ingredients that are needed for making ten iced lollies.

How much fruit juice would be needed to make TWO iced lollies?

- A 90 ml B 160 ml C 180 ml D 450 ml E 1800 ml
-

32

The numbers 1 - 12 are to be placed in this Venn Diagram.

How many numbers should be written in the shaded area of the Venn Diagram?

- A 1 number
B 2 numbers
C 3 numbers
D 4 numbers
E 5 numbers

33

This square has an area of 36 cm^2 .

What is the perimeter of the square?

- A** 6 cm **B** 9 cm **C** 24 cm **D** 36 cm **E** 144 cm
-

34

A number is the sum of 25 tens, 25 thousands and 25 units.

What is the number?

- A** 25275 **B** 25050 **C** 2775 **D** 252525 **E** 2550
-

35

Mrs Thorpe has bought six pizzas for her child's birthday party.

There will be twelve children at the party altogether, and Mrs Thorpe wants each child to have three slices of pizza.

Each pizza will be cut into the same number of slices.

How many slices should there be in each pizza?

- A** 4 **B** 6 **C** 8 **D** 9 **E** 12
-

36

A bus leaves Belfast Central Station at 6.45 pm.

It arrives at Dublin Airport 90 minutes later.

At what time does the bus arrive at Dublin Airport?

A 8.15 am **B** 7.35 pm **C** 7.15 pm **D** 8.15 pm **E** 8.35 pm

37

Thomas buys three bottles of water, each costing 85p.

He also buys two energy bars, each costing £1.49.

How much will Thomas have to pay for these items in total?

A £5.43 **B** £5.53 **C** £5.54 **D** £6.43 **E** £6.54

38

Jasmine is facing north then turns 135° clockwise.

In which direction is Jasmine now facing?

A south **B** southwest **C** west **D** east **E** southeast

39

Mr Nelson parks at the North Street car park at 12.00 pm. The table shows the parking charges at five different car parks in the town centre.

Car Park	0-59 mins	60-119 mins	120-179 mins	180-239 mins	240 mins or more
High St	£2.50	£4.25	£5.75	£7.00	£7.75
Frank St	£2.25	£4.00	£5.50	£6.75	£7.50
Main St	£2.00	£3.75	£5.25	£6.50	£7.25
North St	£1.75	£3.50	£5.00	£6.25	£7.00
South St	£1.50	£3.25	£4.75	£6.00	£6.75

Mr Nelson returns to the car park at 3.40 pm. He pays for his parking fee using a £10 note.

How much change does Mr Nelson receive after paying for his parking fee?

- A £3.00 B £3.25 C £3.50 D £3.75 E £4.00

40

The bar chart shows the number of Principal's Prizes that were given throughout one school year at Pinevale Primary School.

How many more Principal's Prizes did Year 1 win than Year 4?

- A 6 B 7 C 8 D 9 E 10
-

41

Which of the following shapes has the greatest number of lines of symmetry?

- A square
B parallelogram
C equilateral triangle
D rectangle
E rhombus
-

42

The picture shows the paths that twelve characters can make across a grid.

Which of the following statements is true?

- A Garth's path to Norman is parallel to Tony's path to Dan.
- B Reuben's path to Sam is parallel to Bill's path to Isaac.
- C Eric's path to Ian is parallel to Elijah's path to Marcus.
- D Isaac's path to Bill is parallel to Ian's path to Eric.
- E Tony's path to Dan is parallel to Bill's path to Isaac.

43

How many seconds are there in one quarter of an hour?

- A 15 seconds
- B 60 seconds
- C 90 seconds
- D 150 seconds
- E 900 seconds

44

24.936

Which of the digits above is in the tenths place?

A 9**B 6****C 4****D 3****E 2**

45

Jonah lives 3 km from school. Each morning, he leaves his house at 8.15 am and walks directly to school at a steady pace of 6 kilometres per hour.

It takes Saoirse 10 minutes to walk to the same school as Jonah. Each morning, she leaves her house at 8.35 am.

Which of the following statements is true?

- A** Jonah arrives at school 5 minutes before Saoirse.
- B** Saoirse arrives at school 5 minutes before Jonah.
- C** Jonah arrives at school 10 minutes before Saoirse.
- D** Jonah arrives at school 10 minutes after Saoirse.
- E** Jonah and Saoirse arrive at school at the same time.

46

What temperature is being shown on this thermometer?

- A -6°C B -3°C C 0°C D 3°C E 6°C
-

47

Below is a list of the first ten triangular numbers, but one is missing.

1 3 6 10 15 21 28 36 _____ 55

What is the missing number?

- A 47 B 46 C 45 D 44 E 43
-

48

Clara gives her dog the same measurement of food each day.

In total, her dog receives 1300 g of food after five days.

How much food does her dog receive in total in one week?

- A 0.26 kg B 1.82 kg C 3.6 kg D 9.1 kg E 18.2 kg
-

49

Which of these fractions is equal to $\frac{7}{9}$?

- A $\frac{21}{36}$ B $\frac{12}{14}$ C $\frac{42}{54}$ D $\frac{49}{56}$ E $\frac{24}{36}$
-

50

The number of squares in each shape below is increasing each time.
They are following a pattern.

Shape 1

Shape 2

Shape 3

How many squares will there be in Shape 4?

- A 23 squares
B 25 squares
C 27 squares
D 29 squares
E 31 squares
-

For questions 51 - 56, you have to **write your answers** in the boxes provided on your answer sheet. The units of measurement have been given.

51

Is this triangle an equilateral, an isosceles or a scalene triangle?

.....

52

11.4	11.36	11.115	11.13	11.41
-------------	--------------	---------------	--------------	--------------

Divide the largest of these five numbers by 10.

.....

53

The perimeter of the rectangle is 12 cm less than the perimeter of the square.

What is the length of line A?

54

How many edges are there in total in FIVE triangular prisms?

55

What are the coordinates of the point X on this grid?

.....

56

A band played at the same concert venue for two consecutive nights. On the first night, there were 5612 people in attendance. On the second night, there were 480 fewer people in attendance than the night before.

What was the combined number of people who attended both concerts?
