

SEAG-style practice tests

the catapult papers

A stylized illustration of a person with dark hair and sunglasses, wearing a black shirt, sitting in the basket of a catapult. The catapult has two long, curved arms that are raised, and a large, dark, Y-shaped base. The person's feet are visible, wearing sneakers. A dark grey banner with white text is positioned across the middle of the illustration.

the warm-up series

Name: _____

Score: _____

Warm-Up 10

2026 edition

Notes for parents

The Warm-Up Series of The Catapult Papers introduces children to the Transfer Test process in a gentle and accessible way. These papers are intended for P6 pupils and reflect the stage at which schools typically begin early preparation, around eight months before the official exams. At this point in the school year, some relevant English and Maths skills will not yet have been covered in class. Although a small number of these concepts may appear within the Warm-Up papers, the overall difficulty level has been moderated to provide a first, confidence-building look at SEAG-style questions.

As children progress through the Warm-Up Series, they will gradually become familiar with the structure, pacing, and style of SEAG assessments. Completion of this series should help prepare them for the more challenging papers within the main Catapult Papers series (20 papers), which continue the progression toward full P7 readiness.

The official time limit for the Transfer Test is 60 minutes. However, because this is a practice paper, no time limit is printed. Parents may decide how long to allow for completion, depending on their child's needs and stage of learning.

This test paper may be written on, but answers must be recorded on the separate answer sheet provided. Guidance on how to do this is included at the top of that page. An answers page has also been provided for marking. Each correct answer is awarded one mark, and no question is worth more than one mark. Half-marks are not recommended. In the English section, misspelled answers should only be accepted when spelling is not part of the skill being tested. When spelling accuracy is central to the question (e.g. plurals, verb endings), the response should be marked incorrect if spelled wrongly.

Spaces for recording the final score are provided on both the cover page and the answer sheet. Parents may record the result either as a percentage or as a score out of 56.

Finally, please remember that these are practice tests. Early scores are not an indication of eventual performance. At this stage, the purpose of the Warm-Up Series is to build familiarity, develop confidence, and introduce children gradually to the range of skills and question types they will meet later in the Transfer Test journey.

Permission to use this paper is granted for one child only. No photocopying or sharing of the test is permitted. A separate series of The Catapult Papers is available exclusively for schools.

English

In this exercise there are some mistakes with **punctuation** or use of **capital letters**. On each numbered line there is either **one** mistake or **no** mistake. Find the group of words with the mistake in it and **mark its letter on your answer sheet**. If there is **no** mistake, mark **N**.

Punctuation Exercise

1 Beaming with pride, the artist told his students 'This painting is the story of my life!'
A B C D

2 'I think this ones mine. Yours is brand new, but this one looks a little older.'
A B C D

3 All he'd have to do was glance quickly at them in order to get them to behave.
A B C D

4 During the easter break, Elsie's family would stay at her grandparents' house.
A B C D

5 They knocked on his door, rang his doorbell and called his phone, but he still
heard nothing over the sound of his' own drumming.
A B C D

In this exercise you have to choose the **best** word, or **group of words**, to complete each numbered line so that the sentences make sense and are written in correct English. Choose the best answer and **mark its letter on your answer sheet**.

Grammar Exercise

6 Dad had become became becoming becomes came tired of Tom's
A B C D E
behaviour so decided to do something about it.

7 If Though However Whether So much you try to persuade me, my
A B C D E
decision won't change.

8 Above Upon Behind Around Beside the hill stood an ancient castle,
A B C D E
overlooking the valley below.

9 While And For Because Then the children played noisily in the
A B C D E
garden, their grandfather quietly read a book on the porch.

10 She has much lots handful couple few friends who truly understand
A B C D E
her.

In this exercise there are some **spelling** mistakes. On each numbered line there is either **one** mistake or **no** mistake. Find the group of words with the mistake in it and mark its letter on your answer sheet. If there is no mistake, mark N.

Spelling Exercise

- 11** The motorists had to be careful; hedghogs had been sighted on the road.
A B C D
- 12** 'Tying your shoelaces should be a straitforward task!' Mum scolded.
A B C D
- 13** A sequence of serious whether events caused severe damage everywhere.
A B C D
- 14** 'Lara, we are proud of your behaviour. Our visitors were really impressed!'
A B C D
- 15** Shannon was buisily raising awareness about all the endangered species
of bears around the world.
A B C D

Read the whole passage carefully, then answer the questions that follow.

Roberta

1. I hope you don't mind my telling you a good deal about Roberta. The fact is I am
2. growing very fond of her. The more I observe her the more I love her. And I notice
3. all sorts of things about her that I like.
4. For instance, she was quite oddly anxious to make other people happy. And she
5. could keep a secret, a tolerably rare accomplishment. Also she had the power of
6. silent sympathy. That sounds rather dull, I know, but it's not so dull as it sounds. It
7. just means that a person is able to know that you are unhappy, and to love you extra
8. on that account, without bothering you by telling you all the time how sorry she is for
9. you. That was what Bobbie was like. She knew that Mother was unhappy – and that
10. Mother had not told her the reason. So she just loved Mother more and never said a
11. single word that could let Mother know how seriously her little girl wondered what
12. Mother was unhappy about. This needs practice. It is not as easy as you might think.
13. Whatever happened – and all sorts of nice, pleasant ordinary things happened –
14. such as picnics, games, and buns for tea, Bobbie always had these thoughts at the
15. back of her mind. 'Mother's unhappy. Why? I don't know. She doesn't want me to
16. know. I won't try to find out. But she is unhappy. Why? I don't know. She doesn't...'
17. and so on, repeating and repeating like a tune that you don't know the stopping part
18. of.
19. The Russian gentleman still took up a good deal of everybody's thoughts. All the
20. editors and secretaries of Societies and Members of Parliament had answered
21. Mother's letters as politely as they knew how; but none of them could tell where the
22. wife and children of Mr Szezcpansky would be likely to be. (Did I tell you that the
23. Russian's very Russian name was that?)
24. Bobbie had another quality which you will hear differently described by different
25. people. Some of them call it interfering in other people's business – and some call it
26. 'helping lame dogs over stiles', and some call it 'loving-kindness'. It just means
27. trying to help people.
28. She racked her brains to think of some way of helping the Russian gentleman to
29. find his wife and children. He had learned a few words of English now. He could say
30. 'Good morning' and 'Good night' and 'Please' and 'Thank you' and 'Pretty' when the
31. children brought him flowers, and 'Ver' good' when they asked him how he had

32. slept.

33. The way he smiled when he 'said his English' was, Bobbie felt, 'just too sweet for
34. anything'. She used to think of his face because she fancied it would help her to
35. some way of helping him. But it did not. Yet his being there cheered her because
36. she saw that it made Mother happier.

37. 'She likes to have someone to be good to, even beside us,' said Bobbie. 'And I
38. know she hated to let him have Father's clothes. But I suppose it 'hurt nice', or she
39. wouldn't have done it.'

Please answer these questions. (Look at the passage again if you need to.)
You should choose the **best** answer and mark its letter on your answer sheet.

16

Look at lines 5 - 9. What does the narrator mean by the words 'silent sympathy'?

- A** 'Silent sympathy' means to show love to someone who is suffering, without having to talk to them about their problems.
- B** 'Silent sympathy' means to feel sorry for someone in another part of the world, but you are not able to help them.
- C** 'Silent sympathy' means to pretend you care about someone who is suffering, but not really mean it.
- D** 'Silent sympathy' means to understand perfectly the problems that someone is facing.
- E** 'Silent sympathy' means to let someone talk to you about their problems without interrupting them.

17

Why was Mother writing letters to ‘all the editors and secretaries of Societies and Members of Parliament’?

- A She needed help to learn Russian.
- B She needed clothes donations to help the Russian gentleman.
- C She was thanking them for sending the Russian gentleman to her.
- D She was trying to locate someone’s missing family members.
- E She needed help with arranging picnics and games for her children.

18

Look at lines 15 - 18. With whom is Bobbie speaking?

- A Mother
- B herself
- C the narrator
- D Mr Szezcpansky
- E We are not told.

19

What is the meaning of the expression ‘helping lame dogs over stiles’?

- A rescuing hurt animals
- B making scruffy animals look beautiful again
- C trying to help others
- D interfering in other people’s business
- E making a bad situation even worse for other people

20

Based on lines 28 - 32, which of the following things were the children able to do for the Russian gentleman?

- A They learned some Russian.
- B They taught him some English.
- C They gave him their father’s clothes.
- D They searched nearby streets for his wife and children.
- E They brought him flowers.

21 Look at lines 37 - 39. How did Mother feel about the Russian gentleman wearing Father's clothes?

- A It was painful for her but she knew it was the right thing to do.
- B She was angry about it but kept her feelings to herself.
- C It didn't bother her at all.
- D She was thrilled because of how they looked on him.
- E She fought hard to stop him from having them.

22 In which line of the passage is there a phrase that is similar in meaning to 'unique achievement'?

- A line 5
- B line 13
- C line 25
- D line 28
- E line 38

For these questions you have to **write your answers**, neatly, in the boxes provided on your answer sheet.

23 Look at lines 4 - 12. Which adverb means 'in a bearable way'?

24 Which three-word phrase, in lines 4 - 12, means 'for that reason'?

25 Look at lines 28 - 32. Which three-word phrase tells us that Bobbie 'wrestled with her thoughts' over something?

26 Which noun, in lines 24 - 27, is closest in meaning to 'characteristic'?

27

What was the Russian gentleman's response when the children asked him how he had slept?

28

Which one part of speech are the following as they appear in the passage?

I (line 1), **you** (line 1), **she** (line 4), **them** (line 21)

Maths

29

Chloe has saved £48. Polly has saved 50% of this amount.

How much money have Chloe and Poppy saved altogether?

A £24

B £60

C £72

D £96

E £98

30

The points (1,1), (3,8), (9,8) and (7,1) are to be plotted onto this graph.

When the points are connected, what shape would they create?

A rectangle

B rhombus

C kite

D trapezium

E parallelogram

31

This picture shows the net for which of the following 3D shapes?

- A triangular-based pyramid
- B triangular prism
- C cone
- D square-based pyramid
- E hexagonal prism

32

Kirsten has £40 to spend at the fairground.

During her first hour at the fairground, she spends $\frac{3}{8}$ of her money.

During the second hour, she spends $\frac{3}{5}$ of her remaining money.

How much money does Kirsten have left after her second hour at the fairground?

- A £1 B £10 C £21 D £30 E £34

33**Which of these combinations of coins makes £5?**

- A** fourteen 10p coins and fifteen 20p coins
 - B** twenty 20p coins and twenty 10p coins
 - C** fifteen 10p coins and seventeen 20p coins
 - D** eighteen 20p coins and fourteen 10p coins
 - E** four 10p coins and twenty 20p coins
-

34**365.82****What is the value of the digit 2 in this number?**

- A** 2 thousandths
 - B** 2 hundredths
 - C** 2 tenths
 - D** 2 units
 - E** 2 thousands
-

35

A bar of 'Nutty Orangey Choc Delight' weighs 60 grams.

What is the weight, in kilograms, of 50 of these bars?

- A** 0.3 kg
- B** 0.03 kg
- C** 3 kg
- D** 1.1 kg
- E** 30 kg

36

Mr Lamont wants to buy a particular Christmas tree for his living room. The height of the tree is 235 centimetres.

Before buying the tree, Mr Lamont returns home to measure the height of his living room. It measures 2.18 metres high.

What is the difference between the height of the Christmas tree and the height of Mr Lamont's living room?

- A** 1.7 m **B** 1.8 m **C** 18 cm **D** 1.7 cm **E** 17 cm
-

37

At which decimal number is the arrow pointing?

- A** 0.10 **B** 0.64 **C** 8.8 **D** 0.04 **E** 4.6
-

38

$$860 \times 18 = 15480$$

What is the answer to 86×1.8 ?

- A** 1.548 **B** 15.48 **C** 154.8 **D** 1548 **E** 15480
-

39

Which of the rectangles has the greatest perimeter?

- A Rectangle A
 - B Rectangle B
 - C Rectangle C
 - D Rectangle D
 - E Rectangle E
-

40

The product of two numbers is 738. One of the numbers is 9.

What is the other number?

- A 72
 - B 82
 - C 729
 - D 747
 - E 6642
-

41

Four drivers took part in a 250 km race. The line graph shows how each driver performed.

Which driver won the race?

- A Driver 1
- B Driver 2
- C Driver 3
- D Driver 4
- E It was a tie between Drivers 1, 3 and 4.

42

How many edges does a cube have?

- A 4 edges
 - B 6 edges
 - C 8 edges
 - D 12 edges
 - E 24 edges
-

43

A hand-carved marble chess set costs £145.

A hand-carved wooden chess set costs £65 less than the marble chess set.

A collector buys two marble chess sets and two wooden chess sets on the same day.

How much did the collector spend in total on all of these chess sets?

- A £225
 - B £320
 - C £420
 - D £450
 - E £515
-

44

What is the size of the reflex angle created by the clock hands at 5 o'clock?

- A 150° B 170° C 210° D 240° E 250°
-

45

Six equilateral triangles can be combined to create a regular hexagon.

How many degrees are there in total in the six angles of a regular hexagon?

- A 180° B 360° C 540° D 720° E 1080°
-

46

5 10 30 120 600 _____ 25200

What is the missing number in this sequence?

- A** 1080
 - B** 1200
 - C** 1800
 - D** 3000
 - E** 3600
-

47**Which of the following decimal numbers is equal to $\frac{7}{14}$?**

- A** 0.7
 - B** 0.14
 - C** 0.2
 - D** 0.5
 - E** 0.714
-

48**Oliver gets out of bed at 7.25 am. He had gone to bed at 10.50 pm.****For how long was Oliver in bed?**

- A** 8 hours 35 minutes
 - B** 8 hours 25 minutes
 - C** 7 hours 35 minutes
 - D** 9 hours 25 minutes
 - E** 3 hours 25 minutes
-

49

These are the weights of three different sacks of rice.

46 kg

52 kg

61 kg

What is the mean weight of the three sacks of rice?

- A 15 kg B 52 kg C 53 kg D 53.5 kg E 159 kg
-

50

A teacher has made cut-outs of a range of 2D shapes, and puts them into a plastic container.

These are the numbers of each shape she has prepared.

- 3 equilateral triangles
- 4 isosceles triangles
- 2 scalene triangles
- 5 squares
- 3 rectangles
- 1 kite
- 2 rhombuses
- 4 parallelograms

One day, during a Maths lesson, the teacher opens the box and removes a cut-out shape at random.

What is the probability that the teacher will remove a triangle?

- A $\frac{3}{8}$ B $\frac{1}{8}$ C $\frac{1}{6}$ D $\frac{2}{25}$ E $\frac{1}{9}$

For questions 51 - 56, you have to **write your answers** in the boxes provided on your answer sheet. The units of measurement have been given.

51

How many times greater is the area of Square B than the area of Square A?

.....

52

Two angles are sitting on a straight line.

What is the size of Angle A?

.....

53

Mia's birthday is 14th June. Her best friend Lily's birthday is 10th July.
In 2023, Mia's birthday fell on a Wednesday.

On which day of the week that year did Lily's birthday fall?

54

29	31	33
35	37	39
41	43	45

How many prime numbers are in this number grid?

55

IN	→ -2.75 → × 6 →	OUT
?	→	528

What number was entered into this function machine?

56

How many cubes are there altogether in this arrangement?
