

SEAG-style practice tests

the catapult papers

A stylized illustration of a person wearing sunglasses and a black shirt, sitting in a catapault. The catapault is a grey, Y-shaped structure with two long arms extending upwards and outwards, each ending in a large, rounded projectile. The person is holding onto the arms. The catapault is mounted on a base with four legs, each ending in a large, rounded foot. The entire illustration is in a grey and black color scheme.

the warm-up series

Name: _____

Score: _____

Warm-Up 4

2026 edition

Notes for parents

The Warm-Up Series of The Catapult Papers introduces children to the Transfer Test process in a gentle and accessible way. These papers are intended for P6 pupils and reflect the stage at which schools typically begin early preparation, around eight months before the official exams. At this point in the school year, some relevant English and Maths skills will not yet have been covered in class. Although a small number of these concepts may appear within the Warm-Up papers, the overall difficulty level has been moderated to provide a first, confidence-building look at SEAG-style questions.

As children progress through the Warm-Up Series, they will gradually become familiar with the structure, pacing, and style of SEAG assessments. Completion of this series should help prepare them for the more challenging papers within the main Catapult Papers series (20 papers), which continue the progression toward full P7 readiness.

The official time limit for the Transfer Test is 60 minutes. However, because this is a practice paper, no time limit is printed. Parents may decide how long to allow for completion, depending on their child's needs and stage of learning.

This test paper may be written on, but answers must be recorded on the separate answer sheet provided. Guidance on how to do this is included at the top of that page. An answers page has also been provided for marking. Each correct answer is awarded one mark, and no question is worth more than one mark. Half-marks are not recommended. In the English section, misspelled answers should only be accepted when spelling is not part of the skill being tested. When spelling accuracy is central to the question (e.g. plurals, verb endings), the response should be marked incorrect if spelled wrongly.

Spaces for recording the final score are provided on both the cover page and the answer sheet. Parents may record the result either as a percentage or as a score out of 56.

Finally, please remember that these are practice tests. Early scores are not an indication of eventual performance. At this stage, the purpose of the Warm-Up Series is to build familiarity, develop confidence, and introduce children gradually to the range of skills and question types they will meet later in the Transfer Test journey.

Permission to use this paper is granted for one child only. No photocopying or sharing of the test is permitted. A separate series of The Catapult Papers is available exclusively for schools.

English

In this exercise there are some mistakes with **punctuation** or use of **capital letters**. On each numbered line there is either **one** mistake or **no** mistake. Find the group of words with the mistake in it and **mark its letter on your answer sheet**. If there is **no** mistake, mark **N**.

Punctuation Exercise

1 Earth behaves like a giant magnet, making compasses point in specific directions
A B C D

2 Did you know that pizza is technically a sandwich. A cheesy, delightful sandwich!
A B C D

3 The Great wall of China, visible from space, impresses with its astonishing length.
A B C D

4 'Why me?' he asked himself, staring at the unexpected challenge before him.
A B C D

5 She admitted, in a worried tone of voice 'We're lost,' and proceeded to scan the
A B C
unfamiliar surroundings of the valley.
D

In this exercise you have to choose the **best** word, or **group of words**, to complete each numbered line so that the sentences make sense and are written in correct English. Choose the best answer and **mark its letter on your answer sheet**.

Grammar Exercise

6 Your fingerprints are unique: it's like having a secret code beneath
A
throughout on around beside your hands!
B C D E

7 He Him His Her Us and his friends didn't think that it was a good
A B C D E
idea to go to the club.

8 Maggie had choose chose chosen chosed choosed to remain
A B C D E
at home while the others went to the park.

9 After While But And So everyone else was still in bed, Josh had
A B C D E
lit the fire, made breakfast and done some shopping.

10 'Unless you change that negative attitude, you'd you're you've your
A B C D
you'll not be invited to the party at all!
E

In this exercise there are some **spelling** mistakes. On each numbered line there is either **one** mistake or **no** mistake. Find the group of words with the mistake in it and mark its letter on your answer sheet. If there is no mistake, mark N.

Spelling Exercise

- 11** The symbol for infinity is like the digit eight lying horizontally on its side.
A B C D
- 12** In our household alone there are six musicians, but none can play guitar.
A B C D
- 13** 'I won't be reminding you from tommorow; you're old enough to do it yourself!'
A B C D
- 14** Tokyo, one of the world's largest cities, has a poppulation of over 14 million.
A B C D
- 15** Aunt Margaret frequently travels to Dublin for business reasons. After all, she's
conductor on the train!
A B C D

Read the whole passage carefully, then answer the questions that follow.

The Scarecrow

1. Dorothy bade her friends goodbye, and again started along the road of yellow brick.
2. When she had gone several miles she thought she would stop to rest, and so
3. climbed to the top of the fence beside the road and sat down. There was a great
4. cornfield beyond the fence, and not far away she saw a Scarecrow, placed high on
5. a pole to keep the birds from the ripe corn.
6. Dorothy leaned her chin upon her hand and gazed thoughtfully at the Scarecrow.
7. Its head was a small sack stuffed with straw, with eyes, nose, and mouth painted
8. on it to represent a face. An old, pointed blue hat, that had belonged to some
9. Munchkin, was perched on his head, and the rest of the figure was a blue suit of
10. clothes, worn and faded, which had also been stuffed with straw. On the feet were
11. some old boots with blue tops, such as every man wore in this country, and the
12. figure was raised above the stalks of corn by means of the pole stuck up its back.
13. While Dorothy was looking earnestly into the queer, painted face of the Scarecrow,
14. she was surprised to see one of the eyes slowly wink at her. She thought she must
15. have been mistaken at first, for none of the scarecrows in Kansas ever wink; but
16. presently the figure nodded its head to her in a friendly way. Then she climbed
17. down from the fence and walked up to it, while Toto ran around the pole and barked.
18. 'Good day,' said the Scarecrow, in a rather husky voice.
19. 'Did you speak?' asked the girl, in wonder.
20. 'Certainly,' answered the Scarecrow. 'How do you do?'
21. 'I'm pretty well, thank you,' replied Dorothy politely. 'How do you do?'
22. 'I'm not feeling well,' said the Scarecrow, with a smile, 'for it is very tedious being
23. perched up here night and day to scare away crows.'
24. 'Can't you get down?' asked Dorothy.
25. 'No, for this pole is stuck up my back. If you will please take away the pole I shall be
26. greatly obliged to you.'

27. Dorothy reached up both arms and lifted the figure off the pole, for, being stuffed
28. with straw, it was quite light.
29. 'Thank you very much,' said the Scarecrow, when he had been set down on the
30. ground. 'I feel like a new man.'
31. Dorothy was puzzled at this, for it sounded queer to hear a stuffed man speak,
32. and to see him bow and walk along beside her.
33. 'Who are you?' asked the Scarecrow when he had stretched himself and yawned.
34. 'And where are you going?'
35. 'My name is Dorothy,' said the girl, 'and I am going to the Emerald City, to ask the
36. Great Oz to send me back to Kansas.'
37. 'Where is the Emerald City?' he inquired. 'And who is Oz?'
38. 'Why, don't you know?' she returned, in surprise.
39. 'No, indeed. I don't know anything. You see, I am stuffed, so I have no brains at all,'
40. he answered sadly.
41. 'Oh,' said Dorothy, 'I'm awfully sorry for you.'
42. 'Do you think,' he asked, 'if I go to the Emerald City with you, that Oz would give
43. me some brains?'
44. 'I cannot tell,' she returned, 'but you may come with me, if you like. If Oz will not
45. give you any brains you will be no worse off than you are now.'
46. 'That is true,' said the Scarecrow. 'You see,' he continued confidentially, 'I don't
47. mind my legs and arms and body being stuffed, because I cannot get hurt.
48. If anyone treads on my toes or sticks a pin into me, it doesn't matter, for I can't feel
49. it. But I do not want people to call me a fool, and if my head stays stuffed with straw
50. instead of with brains, as yours is, how am I ever to know anything?'

Please answer these questions. (Look at the passage again if you need to.)
You should choose the **best** answer and mark its letter on your answer sheet.

16

Look at lines 1 - 12. What caused Dorothy to stop on her journey?

- A A fence was in her way.
- B She was startled to discover that the Scarecrow in the field could talk.
- C She was fascinated by the field.
- D She needed a rest.
- E She was fascinated by the Scarecrow's clothing.

17

Which of the following descriptions of the Scarecrow is most accurate?

- A painted face, blue clothing, stuffed with sacks
- B stiched face, blue clothing, stuffed with straw
- C stitched face, elegant clothing, stuffed with sacks
- D painted face, elegant clothing, stuffed with straw
- E painted face, shabby clothing, stuffed with straw

18

Which word in the passage means 'deep and raspy'?

- A pointed (line 8)
- B earnestly (line 13)
- C presently (line 16)
- D husky (line 18)
- E tedious (line 22)

19 Which of the following statements best summarises the passage you have just read?

- A Dorothy brings hope to the Scarecrow.
- B The Scarecrow's dream of visiting Oz is about to be realised.
- C Dorothy overcomes her fear of scarecrows.
- D The Scarecrow shows Dorothy the way to the Emerald City.
- E The Scarecrow brings hope to Dorothy.

20 Lines 18 - 50 are an example of which style of writing?

- A descriptive writing
- B instructional writing
- C direct speech
- D indirect speech
- E poetic writing

21 What is the Scarecrow's greatest wish in this passage?

- A He no longer wants to feel physical pain.
- B He no longer wants to be called a fool.
- C He wants to visit the Emerald City.
- D He wants to be placed in another field.
- E He wants a friend.

22 Which one part of speech is 'sadly' (line 40)?

- A noun
- B adjective
- C verb
- D adverb
- E pronoun

For these questions you have to **write your answers**, neatly, in the boxes provided on your answer sheet.

- 23** What type of food was growing in the Scarecrow's field?
- 24** Which word in lines 1 - 5 means the same as 'farewell'?
- 25** Aside from Dorothy and the Scarecrow, which other character was present during this passage?
- 26** Which seven-word phrase, in lines 21 - 26, is an expression of gratitude or thankfulness?
- 27** Which adverb, in lines 39 - 50, tells us that the Scarecrow did not want everyone to know his secret feelings?
- 28** Which one part of speech are the following as they appear in the passage?
- ripe** (line 5), **faded** (line 10), **friendly** (line 16), **light** (line 28)

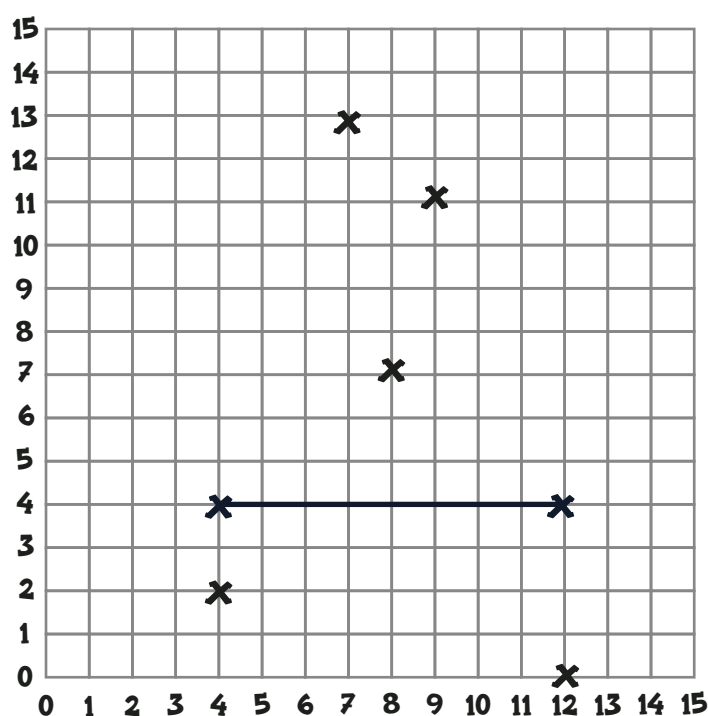

Maths

29

Which of the following fractions is equal to 0.75?

A $\frac{3}{4}$ **B** $\frac{7}{5}$ **C** $\frac{5}{7}$ **D** $\frac{3}{5}$ **E** $\frac{1}{4}$ **30**

The points (4,4) and (12,4) are connected on a grid.

A third point must be added to complete the three corners of an isosceles triangle.

Which of the five new points marked on the grid would be the third point of an isosceles triangle?

A (4,2)**B** (7,13)**C** (8,7)**D** (9,11)**E** (12,0)

31

The picture shows five different toys that are sold at the Retro Toy Store.

Buy three toys... Get the
cheapest of the three at half-price!

Rabbit
Drummer
£6.68

Number
Slider
£3.88

Toy
Car
£5.20

Rocket
Ship

Aaron buys a Rabbit Drummer, a Number Slider and a Space Gun.

How much does Aaron spend altogether on these three toys?

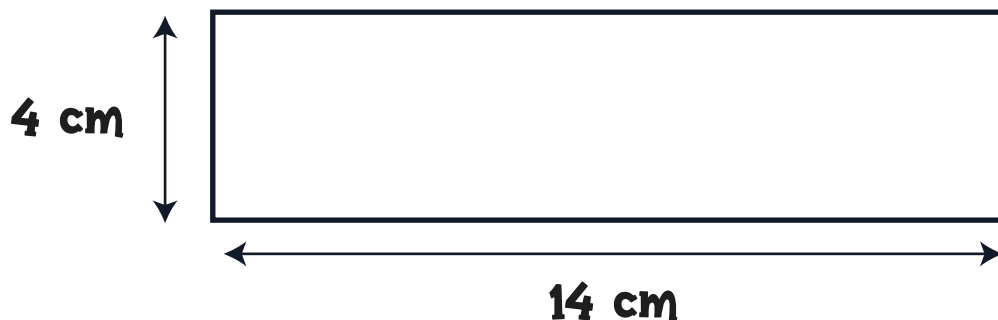

- A £18.32 B £30.68 C £16.38 D £16.42 E £9.16

32

How many millilitres are there in 4.05 litres?

- A 40.5 ml B 405 ml C 450 ml D 4050 ml E 4500 ml

33

What is the area of this rectangle?

- A 18 cm² B 36 cm² C 28 cm² D 48 cm² E 56 cm²

34

A train takes exactly 135 minutes to travel from Mountainview Station to Lakeside Station.

A train travelling between these stations arrives at Lakeside Station at 5.55 pm.

At what time did this train depart Mountainview Station?

- A 15:40 B 13:40 C 14:20 D 16:20 E 16:00

35

IN	→	÷ 6	→	+ 29	→	OUT
?	→					35

What is the missing number that was entered into this function machine?

- A 1 B 10.66 C 11 D 36 E 384

36

Which of the following shapes has the fewest number of vertices?

- A cylinder
 - B cube
 - C hexagonal prism
 - D square-based pyramid
 - E triangular prism
-

37

$$7^2 - 3.5$$

What is the answer to this calculation?

- A 3.5 B 10.5 C 11.5 D 38.5 E 45.5
-

38

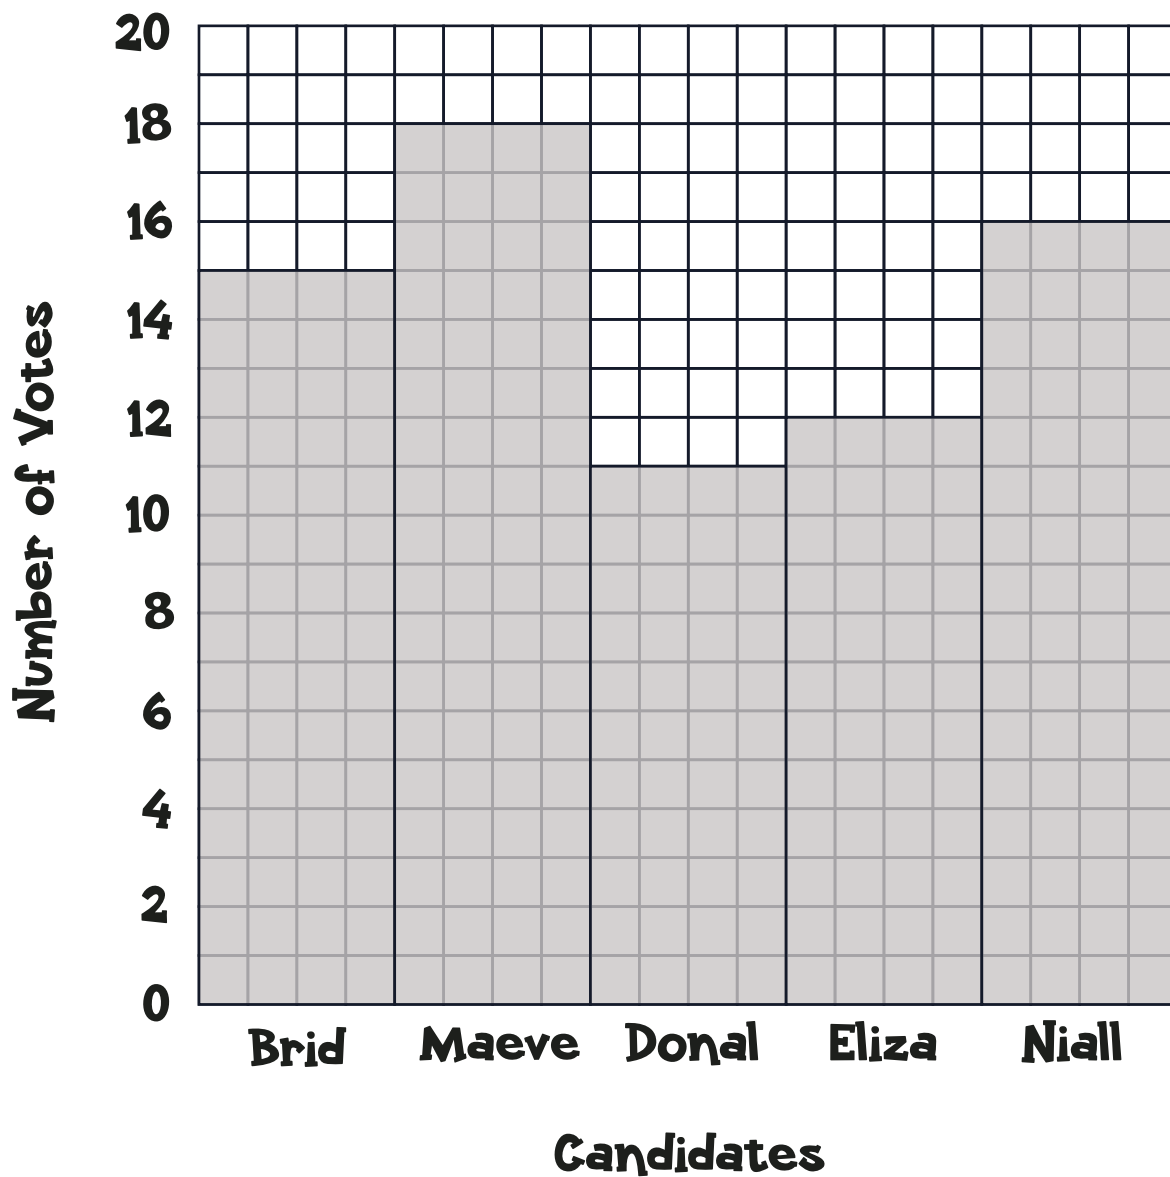

Mr Richardson prints out 24 workbooks for his class. Nine sheets of paper are needed to print out one workbook. He opens a new pack of printer paper, which contains 500 sheets of paper.

How many sheets of printer paper will be left in the pack after Mr Richardson has printed all the workbooks?

- A 216 B 234 C 284 D 288 E 294
-

39

The bar chart shows the results of the vote for a new school councillor. There were five candidates.

Which candidate received exactly one-quarter of the total votes?

- A Brid
- B Maeve
- C Donal
- D Eliza
- E Niall

40

A family of two adults and three children each measure and record their heights. The results are shown in the table below.

	Height
Dad	187 cm
Mum	156 cm
Charlie	151 cm
Erin	143 cm
Lydia	130 cm

What is the combined height of the five family members?

- A 7.57 m B 7.67 m C 7.77 m D 75.7 m E 76.7 m
-

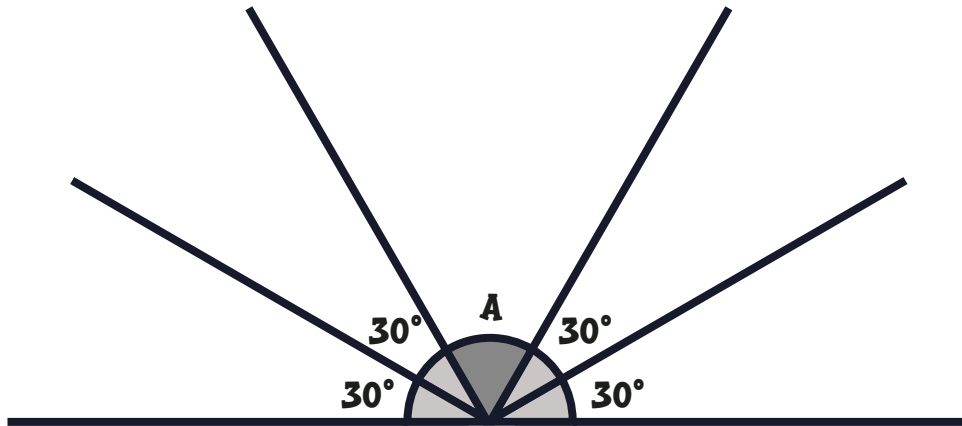

41

Bobby is saving only 20p coins. His plan is to save enough of these coins in order to buy a book that costs £6.80. So far, Bobby has saved eleven 20p coins.

How many more 20p coins does Bobby need to save before he can afford the book?

- A 23 coins
B 26 coins
C 34 coins
D 45 coins
E 136 coins

42

Five angles sit together on a straight line.

What is the size of Angle A?

A 30°

B 45°

C 60°

D 90°

E 180°

43

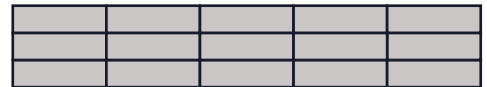

Rectangles have been used to create the series of patterns below.

Pattern 1

Pattern 2

Pattern 3

How many rectangles will there be in Pattern 4?

A 22 rectangles

B 23 rectangles

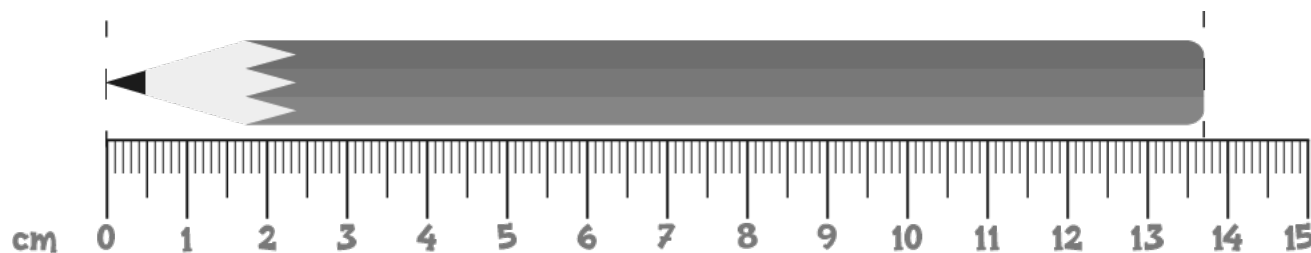

C 24 rectangles

D 25 rectangles

E 26 rectangles

44

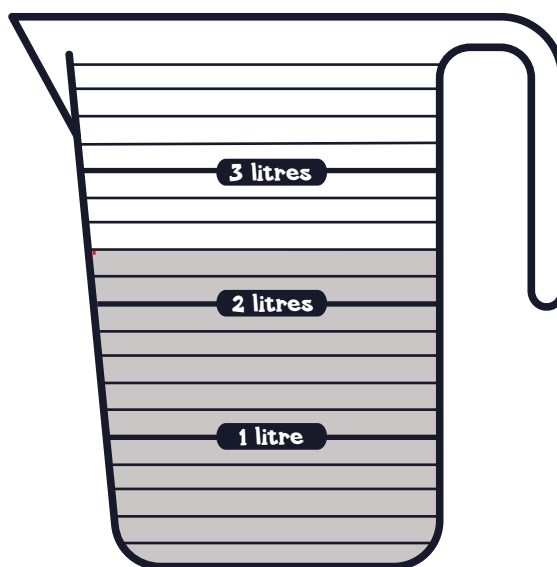

When James first used his pencil, it was 17 cm long. After using it for one month, he measured its length to see if it had become shorter.

By how many millimetres had James' pencil become shorter?

- A 1.3 mm B 33 mm C 13 mm D 43 mm E 3.3 mm
-

45

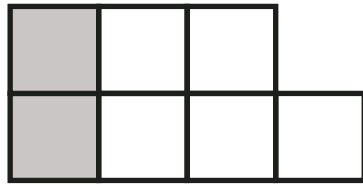

How many litres of juice are in this container?

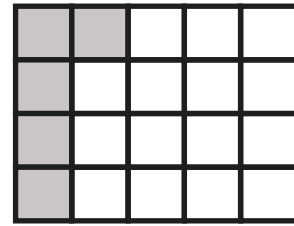

- A 2.2 litres B 2.4 litres C 2.5 litres D 2.6 litres E 2.75 litres
-

46

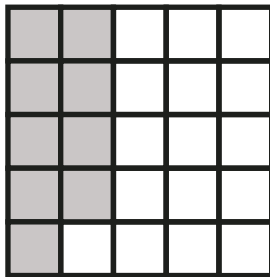

A

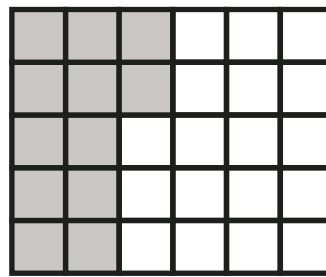

B

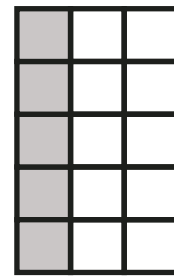

C

D

E

Each of these shapes has had a fraction of its parts shaded.

Which of the shapes has had $\frac{2}{5}$ of its parts shaded?

- A Shape A
- B Shape B
- C Shape C
- D Shape D
- E Shape E

47

Which compass point is three quarter-turns anticlockwise from southwest?

- A northeast
- B north
- C northwest
- D south
- E southeast

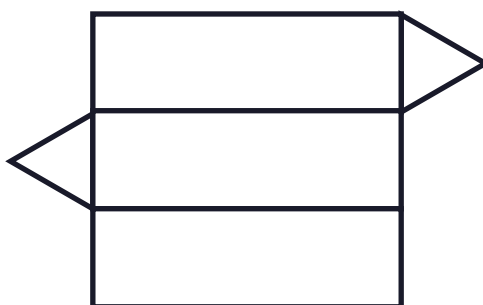

48

The difference between 4381 and another number is 3777.

Which of the following could the other number be?

A 606**B** 616**C** 1404**D** 1416**E** 8158**49**

Which of the following numbers is one tenth less than 1000?

A 990**B** 999.1**C** 999.09**D** 990.09**E** 999.9**50**

Which of the following 3D shapes can be made from this net?

A triangular-based pyramid**B** rectangular-based pyramid**C** square-based pyramid**D** cuboid**E** triangular prism

For questions 51 - 56, you have to **write your answers** in the boxes provided on your answer sheet. The units of measurement have been given.

51

A barrel contains 4.5 kg of olives.

These olives are put into jars that can hold 250 g each.

How many jars can be filled from the olives that are in the barrel?

.....

52

What is the size of Angle A in this parallelogram?
