

SEAG-style practice tests

the catapult papers

the warm-up series

Name: _____

Score: _____

Warm-Up 8

2026 edition

Notes for parents

The Warm-Up Series of The Catapult Papers introduces children to the Transfer Test process in a gentle and accessible way. These papers are intended for P6 pupils and reflect the stage at which schools typically begin early preparation, around eight months before the official exams. At this point in the school year, some relevant English and Maths skills will not yet have been covered in class. Although a small number of these concepts may appear within the Warm-Up papers, the overall difficulty level has been moderated to provide a first, confidence-building look at SEAG-style questions.

As children progress through the Warm-Up Series, they will gradually become familiar with the structure, pacing, and style of SEAG assessments. Completion of this series should help prepare them for the more challenging papers within the main Catapult Papers series (20 papers), which continue the progression toward full P7 readiness.

The official time limit for the Transfer Test is 60 minutes. However, because this is a practice paper, no time limit is printed. Parents may decide how long to allow for completion, depending on their child's needs and stage of learning.

This test paper may be written on, but answers must be recorded on the separate answer sheet provided. Guidance on how to do this is included at the top of that page. An answers page has also been provided for marking. Each correct answer is awarded one mark, and no question is worth more than one mark. Half-marks are not recommended. In the English section, misspelled answers should only be accepted when spelling is not part of the skill being tested. When spelling accuracy is central to the question (e.g. plurals, verb endings), the response should be marked incorrect if spelled wrongly.

Spaces for recording the final score are provided on both the cover page and the answer sheet. Parents may record the result either as a percentage or as a score out of 56.

Finally, please remember that these are practice tests. Early scores are not an indication of eventual performance. At this stage, the purpose of the Warm-Up Series is to build familiarity, develop confidence, and introduce children gradually to the range of skills and question types they will meet later in the Transfer Test journey.

Permission to use this paper is granted for one child only. No photocopying or sharing of the test is permitted. A separate series of The Catapult Papers is available exclusively for schools.

English

In this exercise there are some mistakes with **punctuation** or use of **capital letters**. On each numbered line there is either **one** mistake or **no** mistake. Find the group of words with the mistake in it and **mark its letter on your answer sheet**. If there is no mistake, mark **N**.

Punctuation Exercise

1 Katie's test score was much, higher than she'd expected; she was thrilled.
A B C D

2 'I don't get it. It's a school holiday today, so why is the traffic so heavy,' asked Jim.
A B C D

3 'So good to see you!' remarked Gemma. 'Its been ten years since we last met up.'
A B C D

4 Raindrop's danced on the window pane, creating a melody of liquid lullabies.
A B C D

5 'The thing that's impressed me most,' commented Nadia, 'is how she's focusing
so much better on her work.'
A B C D

In this exercise you have to choose the **best** word, or **group of words**, to complete each numbered line so that the sentences make sense and are written in correct English. Choose the best answer and **mark its letter on your answer sheet**.

Grammar Exercise

- 6 By next month, we will have moved will move have moved are moving
A B C D
had moved into our new house.
E
- 7 A letter was sent off of from towards to here to Kenya one month ago
A B C D E
but, as yet, we have received no reply.
- 8 There were greater than under lower than higher than at least
A B C D E
two hundred guests at the wedding.
- 9 Weather If As Whether Either you agree with the decision or not,
A B C D E
it has already been made.
- 10 Ruth brang brought bringed brung bought her dog along with her
A B C D E
to the school playground. Everyone was delighted.

In this exercise there are some **spelling** mistakes. On each numbered line there is either **one** mistake or **no** mistake. Find the group of words with the mistake in it and mark its letter on your answer sheet. If there is no mistake, mark N.

Spelling Exercise

- 11** 'If we divided the cake into quarters then each piece would be massive!'
A B C D
- 12** Harvey provided the police with a thoroughly detailed discription of the thief.
A B C D
- 13** 'I'm beginning to wonder if we should purchase a house rather than rent one.'
A B C D
- 14** The security guard was delighted to recieve a watch as his retirement gift.
A B C D
- 15** Every measurment had been recorded in Gerald's book; he took great pride
A B C
in being aware of the finest detail.
D

Read the whole passage carefully, then answer the questions that follow.

Wallace and Gromit: a Stop-Motion Odyssey

1. The whimsical world of Wallace and Gromit, created by British animator Nick Park,
2. has captured the hearts of audiences worldwide. This dynamic duo, consisting of an
3. eccentric inventor and his faithful canine companion, has become associated with
4. stop-motion animation excellence.
5. The beginnings of Wallace and Gromit date back to 1989 when Nick Park
6. introduced the world to the charming pair in the short film 'A Grand Day Out'.
7. Wallace, the cheese-loving inventor with an obsession for unusual contraptions, and
8. Gromit, his silent but clever dog, embarked on a journey to the moon in search of the
9. perfect cheese. The film was an instant success.
10. Following the success of their first adventure, Wallace and Gromit returned to
11. television screens in 'The Wrong Trousers' in 1993. This short film introduced fans to
12. the conniving penguin, Feathers McGraw, and further solidified the endearing
13. dynamic between the bumbling inventor and his resourceful sidekick. 'The Wrong
14. Trousers' not only won the Academy Award for Best Animated Short Film but also
15. elevated the duo to international acclaim.
16. The television success of 'The Wrong Trousers' paved the way for the feature-length
17. film 'Wallace & Gromit: The Curse of the Were-Rabbit' in 2005. The movie marked a
18. significant milestone for the two main characters. In this adventure, they operated a
19. pest control service, 'Anti-Pesto', as they tackled a mysterious vegetable-eating
20. beast threatening the town's giant vegetable competition.
21. 'The Curse of the Were-Rabbit' not only showcased the evolution of the characters
22. and animation techniques but also earned critical praise and won the Academy
23. Award for Best Animated Feature. The film's success demonstrated that Wallace
24. and Gromit's charm extended beyond short films, proving their adaptability and
25. enduring appeal.
26. Apart from their cinematic triumphs, Wallace and Gromit ventured into the realm of
27. television with the series 'Wallace and Gromit's Cracking Contraptions'. Airing in
28. 2002, this series consisted of ten short episodes, each highlighting Wallace's
29. inventive skills and Gromit's silent but expressive reactions.

30. Wallace and Gromit's cultural impact extended beyond the screen. The characters
31. became beloved mascots for Aardman Animations, the studio behind their creation,
32. which developed a dedicated fanbase. The endearing catchphrases, such as
33. 'Cheese, Gromit!' and 'Cracking toast, Gromit!' entered the lexicon of fans,
34. underlining the duo's influence on everyday life.

35. While there hasn't been a new feature film since 'The Curse of the Were-Rabbit',
36. the characters remained active for a while. Wallace and Gromit starred in a short
37. film titled 'A Matter of Loaf and Death' in 2008, where Wallace pursued a new
38. career as a baker, leading to hilarious and perilous situations.

39. The history of Wallace and Gromit is a tale of creativity, innovation, and enduring
40. charm. From their humble beginnings in the short film 'A Grand Day Out' to the
41. cinematic triumph of 'The Curse of the Were-Rabbit', Wallace and Gromit have
42. left a permanent mark on the world of animation. Their endearing personalities,
43. coupled with Nick Park's exceptional craftsmanship in stop-motion animation, have
44. solidified their place as cultural icons.

Please answer these questions. (Look at the passage again if you need to.)
You should choose the **best** answer and mark its letter on your answer sheet.

16

What is the purpose of the passage you have just read?

- A It gives us an insight into how the character of Wallace became an inventor.
- B It teaches us how stop-motion animation works.
- C It gives us an overview of how Nick Park became an animator.
- D It gives us an overview of the success of Nick Park's most famous creation.
- E It gives us an overview of the history of stop-motion animation.

17

'The whimsical world of Wallace and Gromit...' (line 1)

This phrase is an example of which style of writing?

- A alliteration
- B onomatopoeia
- C rhyme
- D metaphor
- E simile

18

In which year did 'The Wrong Trousers' first appear on television?

- A 1989
- B 1993
- C 2002
- D 2005
- E 2008

19

Look at lines 5 - 9. Which of the following statements about 'A Grand Day Out' is true?

- A It was a feature-length film.
- B Nick Park starred in the leading role.
- C Feathers McGraw was the villain of the movie.
- D The film reveals that Gromit loves cheese.
- E The film was an immediate success.

20

Which of the following words from the passage means the same as 'development'?

- A milestone (line 18)
- B evolution (line 21)
- C impact (line 30)
- D influence (line 34)
- E icons (line 44)

21

Look at the five options below. Only one of them shows the correct time order – from earliest to latest – in which the Wallace and Gromit television shows and films were released. Choose the correct option.

Option A:

1. A Grand Day Out
2. The Curse of the Were-Rabbit
3. The Wrong Trousers
4. A Matter of Loaf and Death
5. Wallace & Gromit's Cracking Contraptions

Option C:

1. A Grand Day Out
2. The Wrong Trousers
3. Wallace & Gromit's Cracking Contraptions
4. The Curse of the Were-Rabbit
5. A Matter of Loaf and Death

Option E:

1. The Wrong Trousers
2. A Grand Day Out
3. Wallace & Gromit's Cracking Contraptions
4. The Curse of the Were-Rabbit
5. A Matter of Loaf and Death

Option B:

1. The Wrong Trousers
2. A Grand Day Out
3. The Curse of the Were-Rabbit
4. Wallace & Gromit's Cracking Contraptions
5. A Matter of Loaf and Death

Option D:

1. A Grand Day Out
2. The Wrong Trousers
3. The Curse of the Were-Rabbit
4. Wallace & Gromit's Cracking Contraptions
5. A Matter of Loaf and Death

- A** Option A
B Option B
C Option C
D Option D
E Option E

22

What one part of speech is 'personalities' (line 42)?

- A noun
- B verb
- C conjunction
- D adverb
- E adjective

For these questions you have to **write your answers**, neatly, in the boxes provided on your answer sheet.

23

Which word in the first paragraph tells us that Gromit is a dog?

24

Which two-word phrase, in lines 10 - 15, means the same as 'worldwide praise'?

25

Which word, in lines 30 - 34, means the same as 'vocabulary'?

26

Only one of the Wallace and Gromit television show and film titles contains a hyphenated word. Write this hyphenated word.

27

The noun 'charm' appears on line 40. How many adjectives have been used in the sentence to describe this noun?

28

Which one part of speech are the following as they appear in the passage?

embarked (line 8), **tackled** (line 19), **ventured** (line 26), **remained** (line 36)

Maths

29

Which of the following fractions is NOT equal to $\frac{3}{5}$?

A $\frac{30}{50}$

B $\frac{21}{35}$

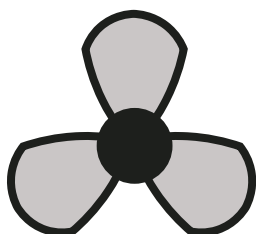

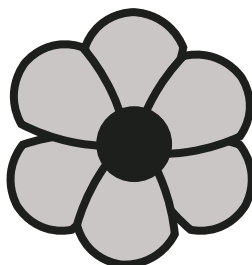

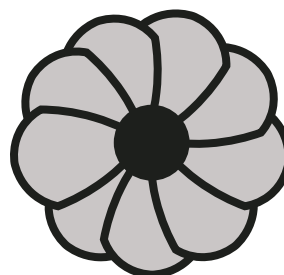

C $\frac{12}{20}$

D $\frac{6}{10}$

E $\frac{12}{30}$

30

This sequence of pictures shows the increasing number of petals on a flower.

**Flower 1****Flower 2****Flower 3**

If this sequence were continued, how many more petals would there be on Flower 10 than on Flower 6?

A 12 petals

B 18 petals

C 24 petals

D 30 petals

E 48 petals

31

How many degrees are there in $3\frac{1}{4}$ turns?

A 135°

B 270°

C 325°

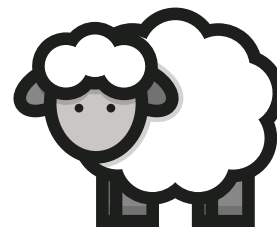

D 1080.25°

E 1170°

32

The Department for Agriculture has counted the number of sheep in 24 different farms. This table shows the number of sheep in each of the 24 farms.

35	27	41	18	48	22
31	46	40	38	19	15
8	36	47	12	6	50
29	27	30	46	15	7

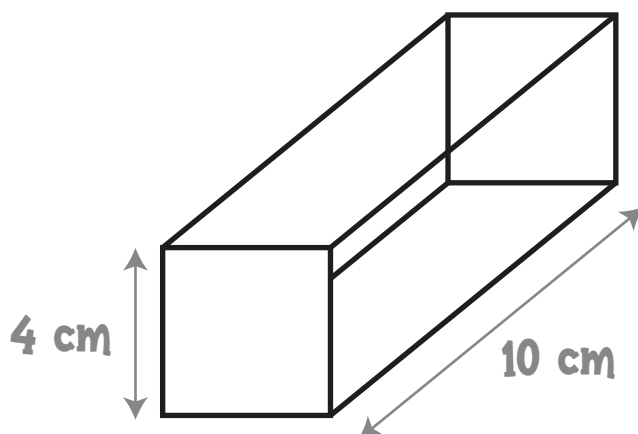

A frequency table is then created to record this information. Only one row has been completed.

1-10 sheep	3 farms
11-20 sheep	
21-30 sheep	
31-40 sheep	
41-50 sheep	

Which row in the frequency table would have the greatest number of farms?

- A** 1-10 sheep
- B** 11-20 sheep
- C** 21-30 sheep
- D** 31-40 sheep
- E** 41-50 sheep

33

The front and back faces of this cuboid are squares.

What is the cuboid's volume?

- A 40 cm³ B 72 cm³ C 160 cm³ D 192 cm³ E 400 cm³
-

34

A number is the sum of 8 tens, 3 ten-thousands and 8 tenths.

What is the number?

- A 3080.08 B 3080.8 C 30008.8 D 30080.8 E 30160
-

35

$$448 \div 8 = 56$$

What is the answer to $448 \div 16$?

- A 12 B 28 C 29 D 112 E 209
-

36

Which of the following measurements would be the approximate weight of a microwave oven?

- A 20 g B 200 g C 2 kg D 20 kg E 200 kg
-

37

What is the product of the eighth square number and the third prime number?

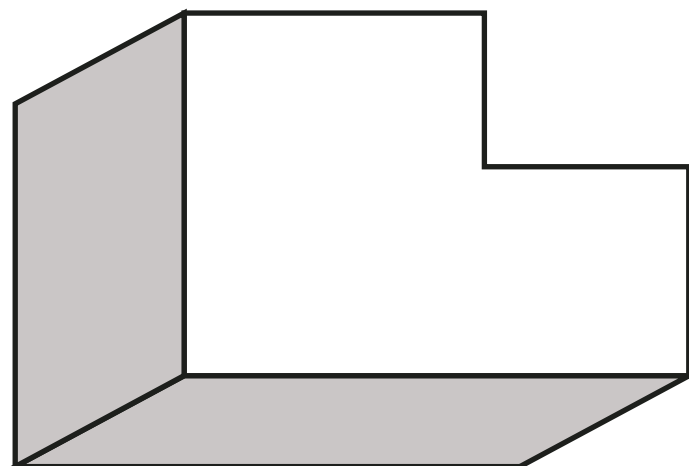

- A 67 B 69 C 192 D 320 E 448
-

38

Which of the five following statements about angles is NOT true?

- A Two obtuse angles can be added together to make another obtuse angle.
 - B Two acute angles can be added together to make an obtuse angle.
 - C Two acute angles can be added together to make another acute angle.
 - D Two obtuse angles can be added together to make a reflex angle.
 - E A reflex angle and an acute angle can be added together to make a full turn.
-

39

How many faces does this 3D shape have?

A 3

B 6

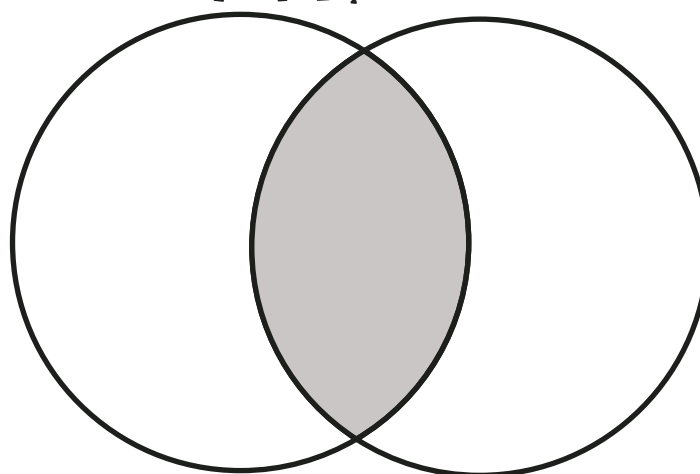

C 8

D 10

E 12

40

greater than $1\frac{1}{4}$

less than 1.5

Which of the following decimal numbers should be placed inside the shaded area of the Venn Diagram?

A 1.2

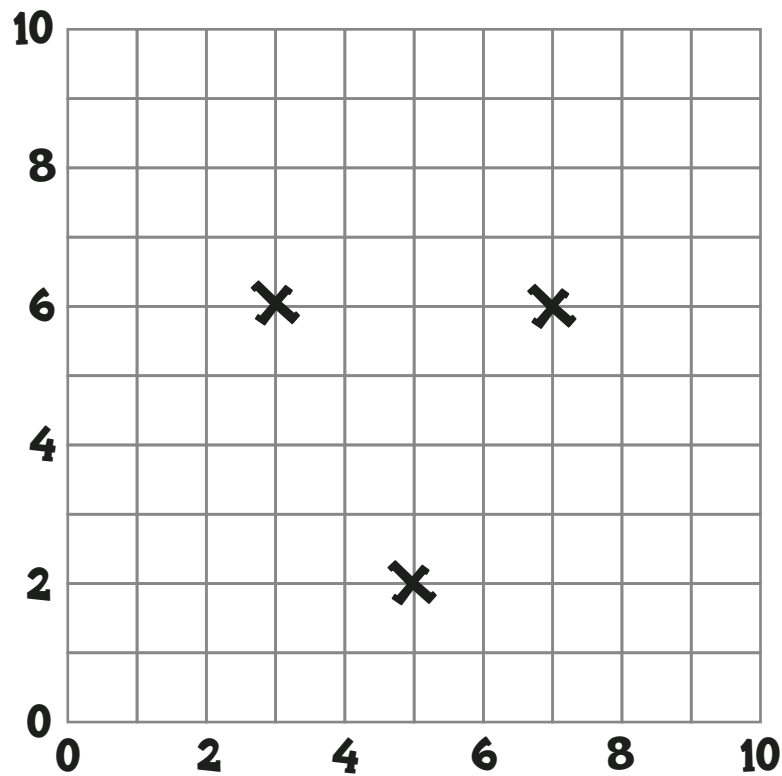

B 1.35

C 0.75

D 2.1

E 2.4

41

Three points have been plotted onto this graph. A fourth point has to be added so as to make the fourth corner of a quadrilateral.

Which of the following coordinates would make the fourth corner of a kite?

- A (2,0) B (0,4) C (5,7) D (5,10) E (8,10)
-

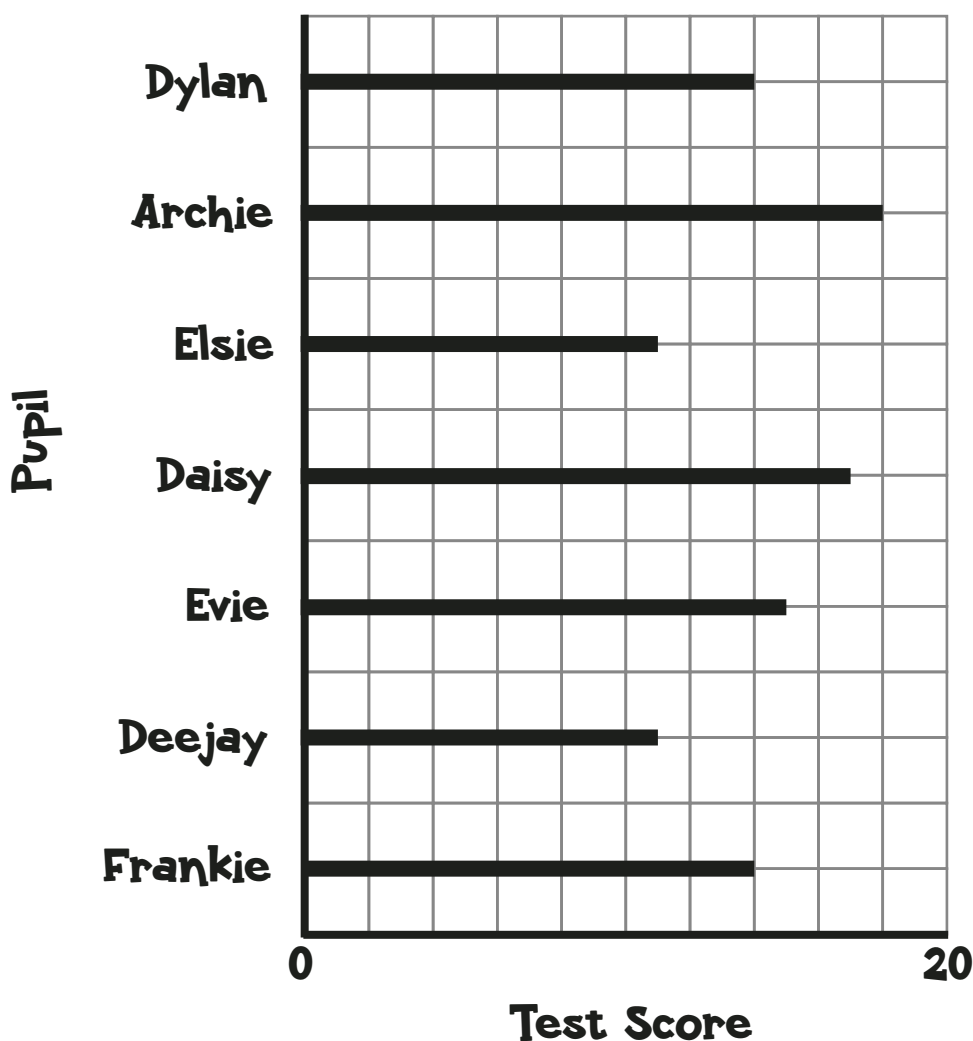

42

Which of the following times is 200 minutes before midnight?

- A 08:40 B 09:40 C 20:40 D 21:40 E 22:00
-

43

The bar chart shows the Mental Maths Challenge results for seven pupils. They were each asked 20 questions.

Which of the pupils got a score that is equal to 70%?

- A Frankie & Dylan
- B Elsie & Deejay
- C Archie
- D Evie
- E Daisy

44

How many days are there altogether in the months of April, May and June?

A 89

B 90

C 91

D 92

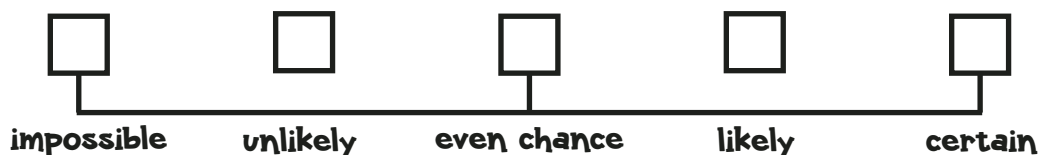

E 93

45

The first ten multiples of 6 are written on separate pieces of paper and placed in a hat. One of the numbers is chosen from the hat at random.

The five outcomes below must be placed on the probability line.

A	An odd number is chosen.
B	A multiple of 12 is chosen.
C	A multiple of 10 is chosen.
D	A number less than 40 is chosen.
E	An even number is chosen.

Going from left to right, what will the order of letters be on the probability line?

A A, B, C, D, E

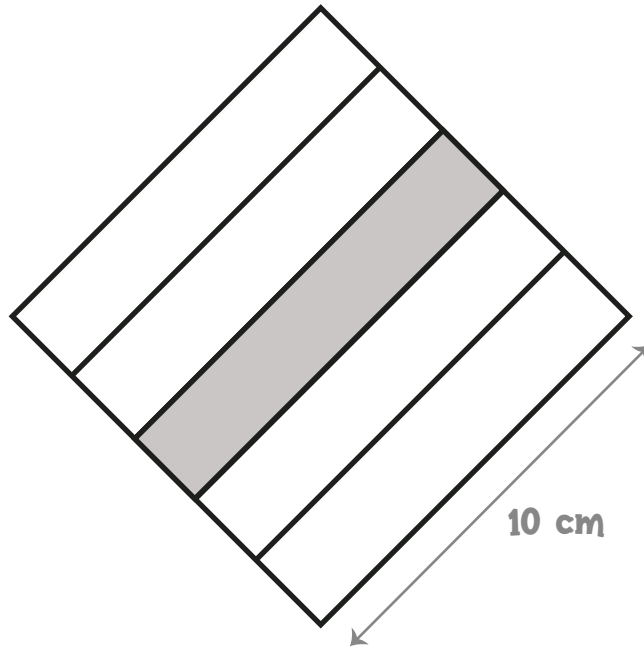

B A, C, B, E, D

C A, B, D, C, E

D C, A, B, D, E

E A, C, B, D, E

46

A square has been divided into five equal-sized rectangles.

What is the perimeter of the shaded rectangle?

- A 12 cm B 14 cm C 20 cm D 24 cm E 40 cm
-

47

How many millilitres are in $\frac{3}{8}$ of one litre?

- A 125 ml B 250 ml C 300 ml D 365 ml E 375 ml
-

48

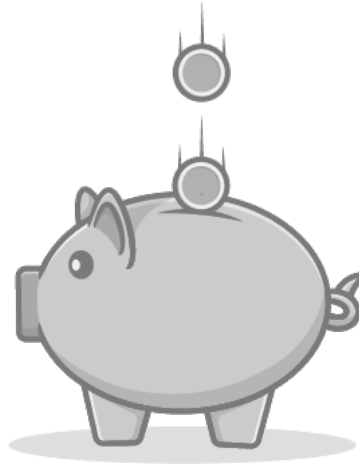

What number is exactly halfway between 84 and 120?

- A 99 B 100 C 101 D 102 E 103
-

49

Joseph's piggy bank weighs 0.5 kilograms when empty.

A single £1 coin weighs 9 grams.

Joseph's piggy bank has £40 inside it, made entirely from £1 coins.

What is the weight of Joseph's piggy bank when his money is inside it?

- A** 360.5 g **B** 500 g **C** 536 g **D** 540 g **E** 860 g
-

50

How many factors in total does the number 17 have?

- A** 0 **B** 1 **C** 2 **D** 3 **E** 5
-

For questions 51 - 56, you have to **write your answers** in the boxes provided on your answer sheet. The units of measurement have been given.

51

What number was entered into this function machine?

IN	 $\times 3$	 $- 35$		OUT
?				52

52

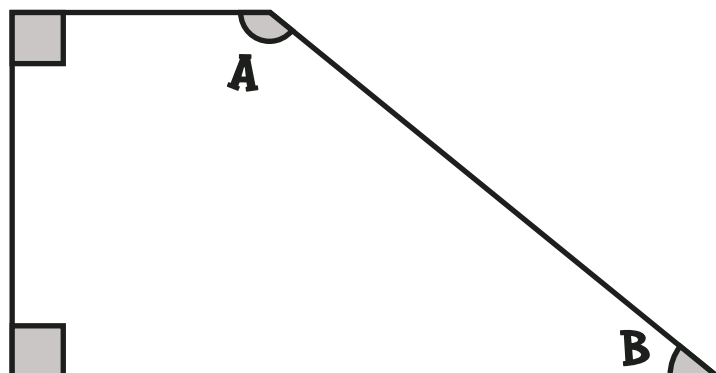

Here are the temperatures of five cities across the world at the beginning of December 2023.

Beijing	-7°C
Cairo	19°C
Paris	1°C
Buenos Aires	21°C
Stockholm	-4°C

What is the range of this list of temperatures?

53

This trapezium has two right angles, as well as two other angles that are different from each other. They are labelled as Angle A and Angle B.

Angle A measures 138° .

What is the size of Angle A?

.....

54

A four-digit passcode will allow Emmie to open a jewellery box that her mother has given to her.

Her mother has left her the following clues to the passcode:

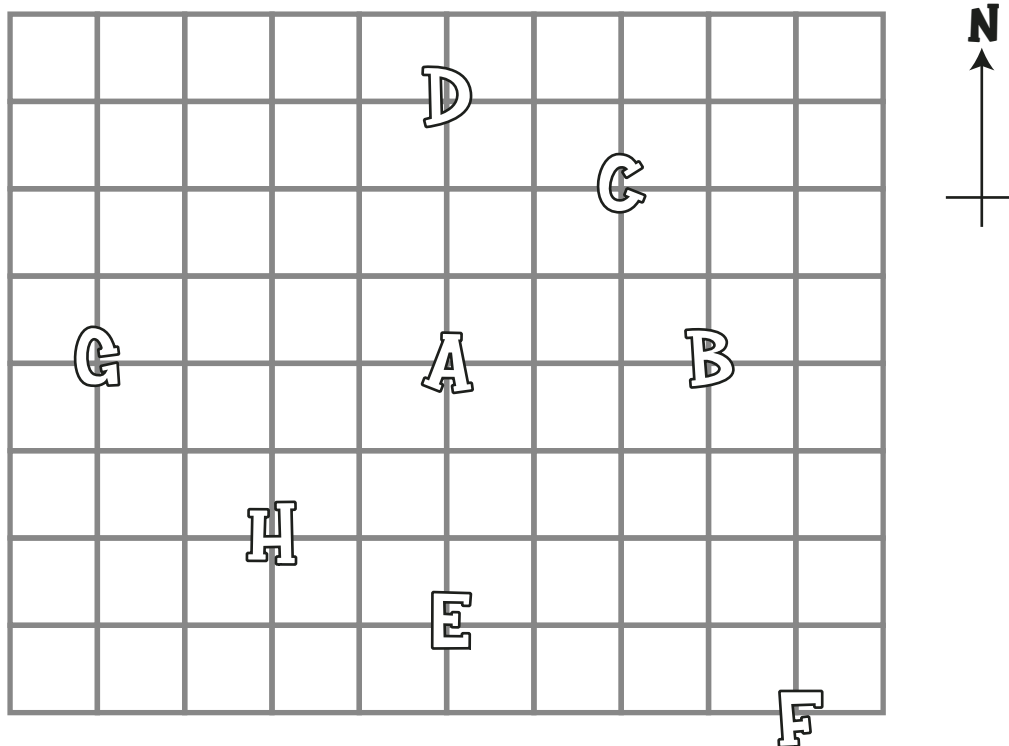

- It is a four-digit number.
- Each digit is different.
- All the digits are odd.
- The final digit is the largest, and is a multiple of 3.
- The first digit is two less than the final digit.
- The third digit is not a prime number.
- The digit 5 is not in the passcode.

What is the passcode to Emmie's jewellery box?

.....

55

Each of these letters have been plotted on a chart.

Which letter lies southeast of the letter A?

.....

56

One small tin holds 175 grams of ground coffee.

How many kilograms of ground coffee can eight of these small tins hold?
