

SEAG-style practice tests

the catapult papers

the main series

Name: _____

Score: _____

Test 1

2026 edition

Notes for parents

The Main Series of The Catapult Papers provides a full set of SEAG-style practice assessments suitable for P7 pupils (or confident pupils at the end of P6). These papers offer a more challenging level of practice than the Warm-Up Series, reflecting the balance and pace of the official assessments more closely. As with all Transfer Test preparation, children will meet a wide range of English and Maths concepts, including some that require recall of earlier learning.

The questions in this series have been written to give children a realistic sense of the difficulty and variety they will encounter in the actual SEAG papers. The progression across the series helps pupils build accuracy, fluency, and familiarity with the demands of the assessment. Many families use these tests after completing the Warm-Up Series, though the order of use is entirely flexible.

The official time limit for the Transfer Test is 60 minutes. However, because this is a practice paper, no time limit is printed. Parents may decide how long to allow for completion, depending on confidence, focus, and stage of preparation.

This test paper may be written on, but answers must be recorded on the separate answer sheet provided. Guidance on how to do this is included at the top of that page. An answers page is also included for marking. Each correct answer is worth one mark, and no question carries more than one mark. Half-marks should not be awarded. In the English section, misspelled answers should only be accepted when spelling is not part of the skill being tested. When spelling accuracy is required (e.g. plurals, verb endings, homophones), an incorrectly spelled answer should not be counted as correct.

Spaces for recording the final score are provided on both the cover page and the answer sheet. Parents may record the result as a percentage or as a score out of 56.

Finally, please remember that these are practice tests. It is normal for children to make mistakes as they adjust to the level of challenge. The purpose of the Main Series is to develop confidence, build stamina, and strengthen the range of skills needed for the SEAG assessment. Consistent practice and calm encouragement are the most effective supports during this stage of preparation.

Permission to use this paper is granted for one child only. No photocopying or sharing of the test is permitted. A separate set of The Catapult Papers is available exclusively for schools.

English

In this exercise there are some mistakes with **punctuation** or use of **capital letters**. On each numbered line there is either **one** mistake or **no** mistake. Find the group of words with the mistake in it and **mark its letter on your answer sheet**. If there is **no** mistake, mark **N**.

Punctuation Exercise

1 It's all in a days work for firefighters to face danger and protect others' lives.
A B C D

2 Frank was often warned by his Mum, dad and brother to not cycle near the road.
A B C D

3 It wasn't long before Gabriel discovered that his friends weren't there.
A B C D

4 'If I could make any day illegal', fumed Brody, 'I'd ban Mondays!'
A B C D

5 Christmas trees some people say, shouldn't be put up until the beginning of
A B C
December at the very earliest.
D

In this exercise you have to choose the **best** word, or **group of words**, to complete each numbered line so that the sentences make sense and are written in correct English. Choose the best answer and **mark its letter on your answer sheet**.

Grammar Exercise

6 Whenever Lauren and Jane loose loosed lose lost had lost,
A B C D E
they become difficult people to be around!

7 A huge meteor came plummeting around above beneath towards
A B C D
beside
E the planet at a phenomenal speed.

8 Janet had never sing singing song sang sung with this particular
A B C D E
choir before.

9 During Despite After Because Due my protests, Mum made me
A B C D E
tidy my room.

10 Except Although Since Until As it wasn't our fault, we all had to
A B C D E
take the blame for what someone in the other class did.

In this exercise there are some **spelling** mistakes. On each numbered line there is either **one** mistake or **no** mistake. Find the group of words with the mistake in it and mark its letter on your answer sheet. If there is no mistake, mark N.

Spelling Exercise

11

Sam would occassionally take a trip to the forest to observe the wildlife.

A B C D

12

My least favourite types of punctuation are commas and apostrophies.

A B C D

13

We agreed that it was unusual to hear such a racket come from the library.

A B C D

14

Today's attendance is an enormous improvement upon last week's number.

A B C D

15

Waiting patiently by the side of the road, they had no idea that the weather

A B C

would suddenly change for the worse.

D

Read the whole passage carefully, then answer the questions that follow.

The Watcher

1. It had started innocently enough. A rustle in the bushes, a glimpse of something
2. moving in the shadows. But as the days passed, Charlotte had become increasingly
3. convinced that she was being watched.

4. At first, she had dismissed it as her imagination. But then she had found the trail of
5. crumbs leading up to her bedroom door one afternoon. The day after this, she was
6. certain she could hear the faint sound of steps following at a distance behind her
7. while walking through the gardens. She dared not turn to look.

8. Charlotte had tried to brush it off, but the feeling of unease had persisted. And then,
9. one night, she had awoken to the sound of the same steps outside her door.
10.

Heart pounding, Charlotte had leapt out of bed and rushed to the door, flinging it
11. open. But there was no one there, only a child's toy made of cloth and torn at the
12. seams. She left it alone and returned to the safety of her bed.
13.

It was then that she knew for certain that something was amiss at Thornfield. She
14. had shared her fears with Mrs Fairfax, the kind and motherly housekeeper, but even
15. she seemed hesitant to believe her.
16.

And so, Charlotte had taken it upon herself to investigate. She had spent long hours
17. wandering through the halls of Thornfield, listening for any sounds that seemed out
18. of place, and peeking around corners for any sign of the mysterious watcher.
19.

20. But so far, her efforts had been in vain. The watcher remained out of reach, and
Charlotte remained haunted by the fear that she was in danger. She knew she had
21. to be careful, for if the watcher discovered her investigation, the consequences could
22. be dreadful.
23.

24. As she walked through the halls of Thornfield, Charlotte decided to redouble her
efforts. She would not rest until she had uncovered the truth behind the mysterious
25. watcher, and put an end to whatever nefarious plot they were hatching. For the sake
26. of Thornfield and all its inhabitants, she would not give up.
27.

28. Days turned into weeks, and still, Charlotte's search for the watcher continued.
29. The weight of her secret pressed down on her like a lead blanket, and she found

29. herself constantly looking over her shoulder, waiting for the watcher to pounce.

30. Mrs Fairfax had grown increasingly concerned about Charlotte's behaviour, but
31. Charlotte could not bring herself to confide in her further. She could not bear the
32. thought of burdening the kind housekeeper with her concerns, for fear of bringing
33. her into danger.

34. And then, one fateful night, Charlotte's worst fears were realised. As she lay in bed,
35. unable to sleep, she heard the unmistakable sound of those steps outside her door.
36. She lay frozen in terror as a shadow appeared below it.

37. With a strength she did not know she possessed, Charlotte sprang out of bed and
38. hurled herself against the door. The figure on the other side darted away, then
39. Charlotte bolted down the hallway.

40. She did not stop until she reached the safety of Mrs Fairfax's room, where she
41. burst in, gasping for breath. Mrs Fairfax listened to Charlotte's story with a look of
42. grave concern on her face, and together, they hatched a plan to catch the watcher
43. once and for all.

44. The plan was simple but risky. Charlotte would draw the watcher out into the
45. gardens, pretending to be oblivious to their presence. Meanwhile, Mrs Fairfax and
46. the rest of the staff would be lying in wait, ready to apprehend the watcher as soon
47. as they made their move.

48. Charlotte felt a thrill of fear and excitement as she slipped out into the gardens that
49. night. She wandered slowly through the winding paths, her heart racing, pretending
50. to admire the moonlit flowers. And then, just as she had hoped, she heard a rustling
51. in the bushes.

52. She turned to face the watcher. She was stunned. And amused. She had not
53. looked into their eyes for more than a few seconds before noticing that same
54. tattered toy, which she now knew she could confidently remove from the watcher's
55. mouth. It was only then that Charlotte was startled again: her name was stitched on
56. the toy's back...

Please answer these questions. (Look at the passage again if you need to.)
You should choose the **best** answer and mark its letter on your answer sheet.

16

How does the watcher's behaviour affect the mood of the passage?

- A** It adds a romantic and mysterious element to the story.
- B** It adds a humorous and light-hearted element to the story.
- C** It adds a tense and mysterious element to the story.
- D** It adds an adventurous and playful element to the story.
- E** It adds a colourful and spectacular element to the story.

17

Look at lines 13 - 15. What was Mrs Fairfax's reaction when Charlotte first shared her fears with her?

- A** She believed Charlotte immediately.
- B** She didn't believe Charlotte at all.
- C** She was reluctant to believe Charlotte.
- D** She was angry at Charlotte for investigating.
- E** She felt guilty because she knew who the watcher was.

18

What part of speech is the word 'motherly' (line 14)?

- A** adjective
- B** noun
- C** verb
- D** adverb
- E** preposition

19 'Charlotte would draw the watcher out into the gardens, pretending to be oblivious to their presence.' (lines 44 - 45)

What does this tell us about the plan?

- A Charlotte would write an invitation to the watcher to meet her.
- B Charlotte would catch the watcher and drag them to the gardens.
- C Charlotte would watch the watcher from a distance.
- D Charlotte would stand in the gardens and challenge the watcher to appear.
- E Charlotte would act as if she wasn't concerned about the watcher.

20 Which of these words from the passage is closest in meaning to 'wicked'?

- A amiss (line 13)
- B vain (line 19)
- C nefarious (line 25)
- D confide (line 31)
- E grave (line 42)

21 Why does Charlotte feel 'a thrill of fear and excitement' (line 48) towards the end of the passage?

- A She knows the identity of the watcher and can't wait to meet them.
- B The plan, although risky, is adventurous.
- C She loves acting.
- D She gets to admire the flowers.
- E She feels completely confident because the staff are nearby.

22 What does Charlotte discover about the watcher in lines 52 - 56?

- A The watcher is a harmless toy-maker.
- B The watcher is a member of the staff.
- C The watcher is a harmless animal.
- D The watcher is Mrs Fairfax.
- E There was no watcher.

For these questions you have to **write your answers**, neatly, in the boxes provided on your answer sheet.

23 Look at lines 4 - 9. What thing did Charlotte find to convince her that the watcher was not part of her imagination?

24 What was the name of the house at which Charlotte was staying?

25 Which one word in lines 8 - 12 means the same as 'continued' or 'lasted'?

26 Which line from lines 27 - 33 contains a simile? Write the number of the line.

27 Line 31 contains the word 'further'. The word is used as an adverb in the sentence. Which other adverb is used in the same paragraph?

28 Which one part of speech are the following as they appear in the passage?

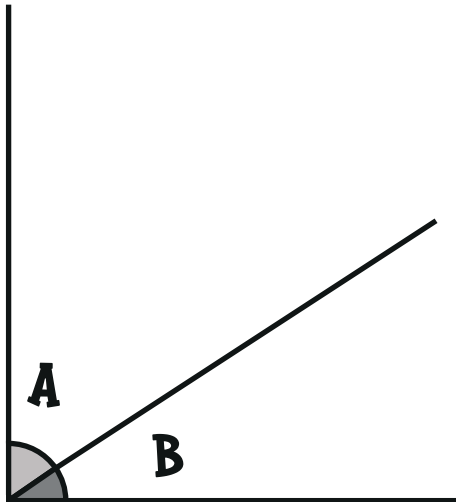

glimpse (line 1), **unease** (line 8), **shoulder** (line 29), **behaviour** (line 30)

Maths

29

At a school assembly there are 117 girls. There are 19 fewer boys than girls at the assembly.

How many children are at the assembly altogether?

A 98**B** 136**C** 205**D** 209**E** 215**30**

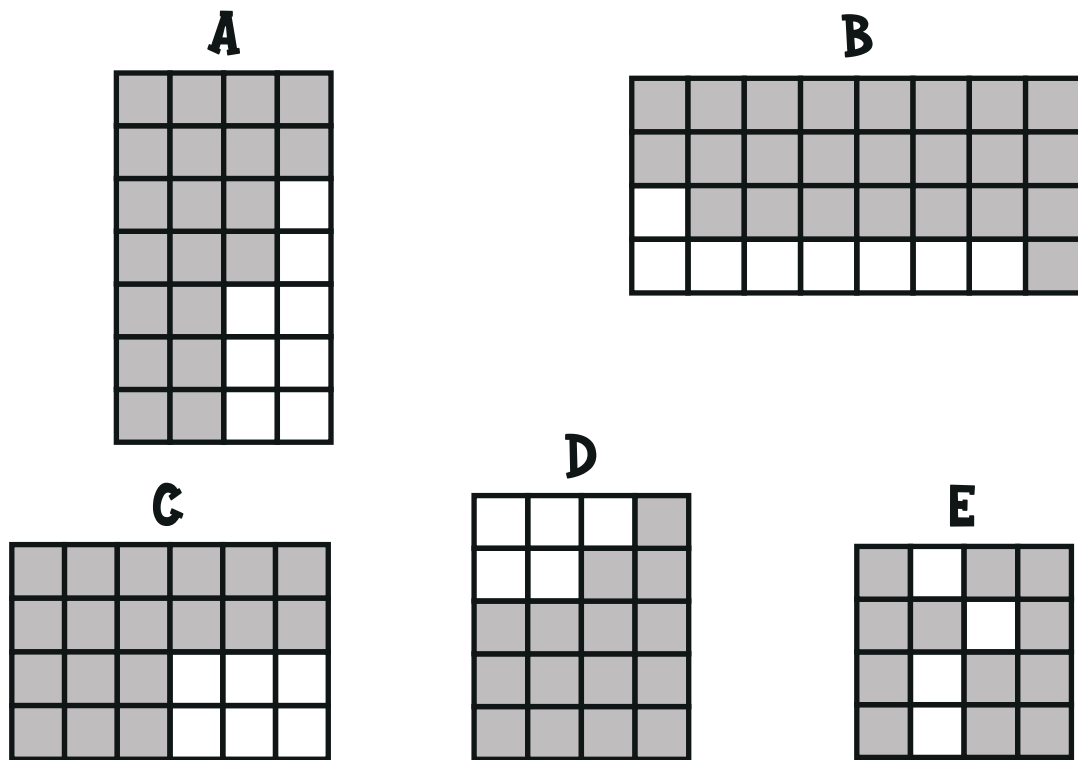

Angle A and Angle B combine to make a right angle.

Angle B measures 35° .

What is the size of Angle A?

A 45° **B** 55° **C** 65° **D** 70° **E** 90°

31

Each of these shapes has had a fraction of its parts shaded.

Which of the shapes has NOT had $\frac{3}{4}$ of its parts shaded?

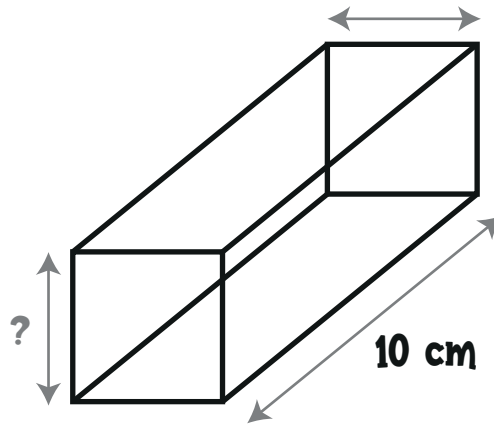

- A** Shape A
- B** Shape B
- C** Shape C
- D** Shape D
- E** Shape E

32

Shauna writes out every factor for the numbers 12 and 16.

How many factors do these two numbers share in common?

- A** 0
- B** 1
- C** 2
- D** 3
- E** 4

33

This cuboid has a volume of 90 cm^3 . The front and back faces of the cuboid are squares.

What is the measurement of the edge of the cuboid that has been labelled with a question mark?

- A 2.25 cm B 3 cm C 4.5 cm D 9 cm E 10 cm
-

34

A number is the sum of 6 tens, 3 ten thousands and 8 tenths.

What is this number?

- A 30140 B 1090 C 30006.8 D 30060.8 E 3060.8
-

35

What is 75% of 500?

- A 75 B 125 C 250 D 375 E 425
-

36

A school concert begins at 6.45 pm.

There will be four musical performances during the concert. Each performance will last for 12 minutes.

There will be a five-minute break between each performance.

At what time will the school concert finish?

A 7.33 pm **B** 7.45 pm **C** 7.48 pm **D** 7.53 pm **E** 7.38 pm

37

Jack buys two energy drinks, costing £1.65 each.

He also buys a packet of cheese strings that costs 89p.

He pays for these items with a £5 note.

What is the fewest number of coins that Jack can receive in his change?

A 2 coins **B** 3 coins **C** 4 coins **D** 5 coins **E** 6 coins

38

Leah finds the sum of three acute angles.

Which of these five outcomes is NOT possible?

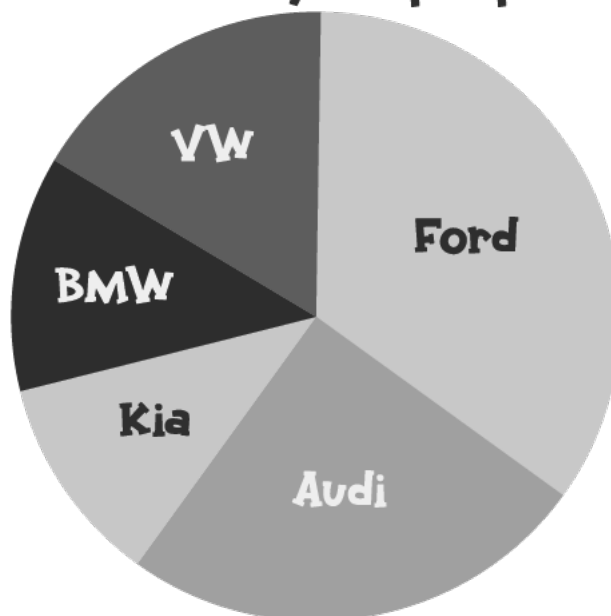

- A** The sum of the angles could make an acute angle.
- B** The sum of the angles could make a right angle.
- C** The sum of the angles could make an obtuse angle.
- D** The sum of the angles could make a reflex angle.
- E** The sum of the angles could make a full turn.

39

72 people were asked which make of car they drove. The results were recorded in a table. A pie chart was then created to present the results.

Make of car	Number of people
Audi	18
BMW	9
Ford	25
Kia	8
VW	12

Pie chart showing the makes of car driven by 72 people

Which of the five cars has an angle on the pie chart that measures 45° ?

- A Audi
- B BMW
- C Ford
- D Kia
- E VW

40

The distance to West City is $\frac{5}{7}$ of the distance to East City.

What is the distance to West City?

- A 6.2 km B 8.68 km C 31 km D 60.76 km E 217 km
-

41

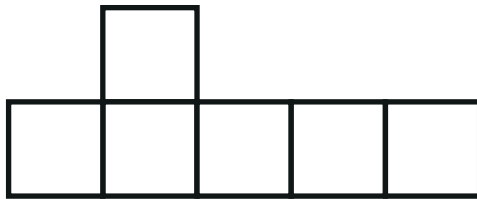

16	49	72	81	100
----	----	----	----	-----

How many of the numbers in the table above are square numbers that are ALSO divisible by 4?

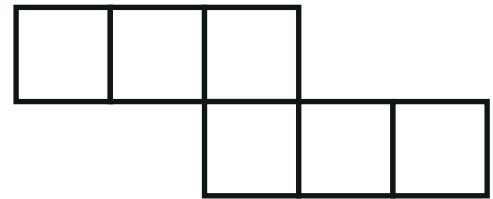

- A 1 number
B 2 numbers
C 3 numbers
D 4 numbers
E 5 numbers

42

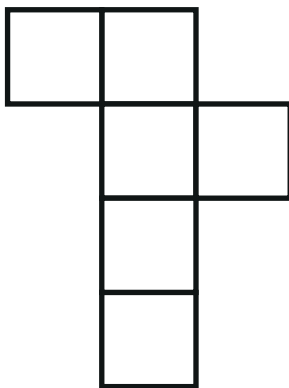

A

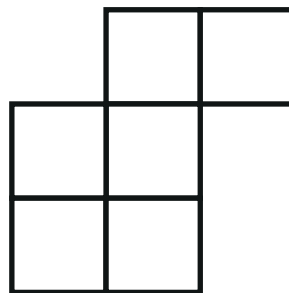

B

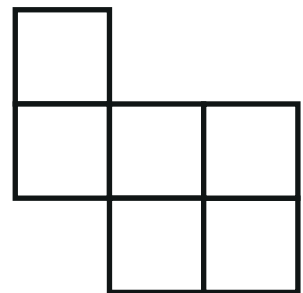

C

D

E

Which of these nets can be folded to make a cube?

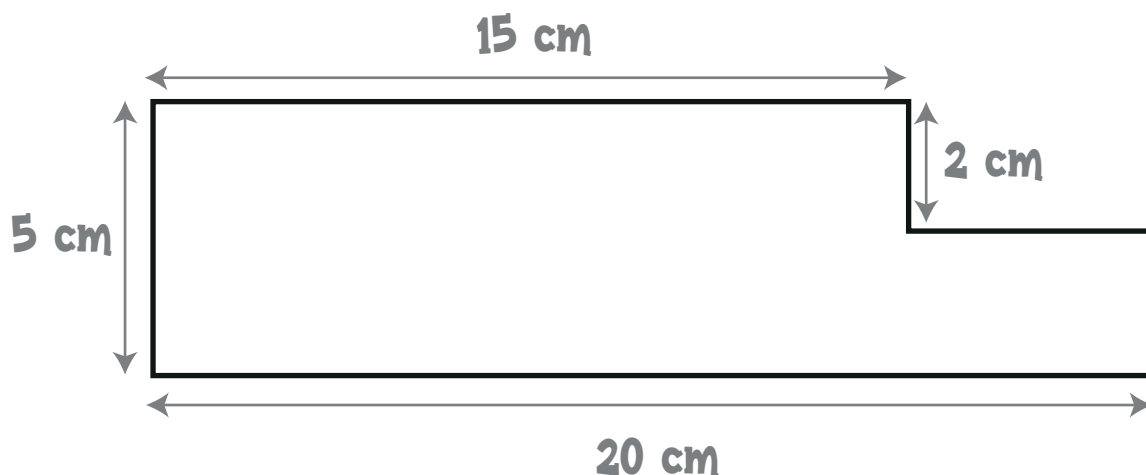

- A Net B only
- B Nets B, C and E only
- C Nets A and C only
- D Nets B and C only
- E Nets B, C and D only

43

Which of the following numbers is smallest?

- A 210.004
- B 201.04
- C 204.1
- D 204.01
- E 201.4

44

What is the area of this shape?

- A 90 cm² B 100 cm² C 115 cm² D 130 cm² E 3000 cm²
-

45

Mr. Jackson leaves his house on Monday morning at 7.45 am. He arrives at his office 45 minutes later. He remains in his office until 12.30 pm.

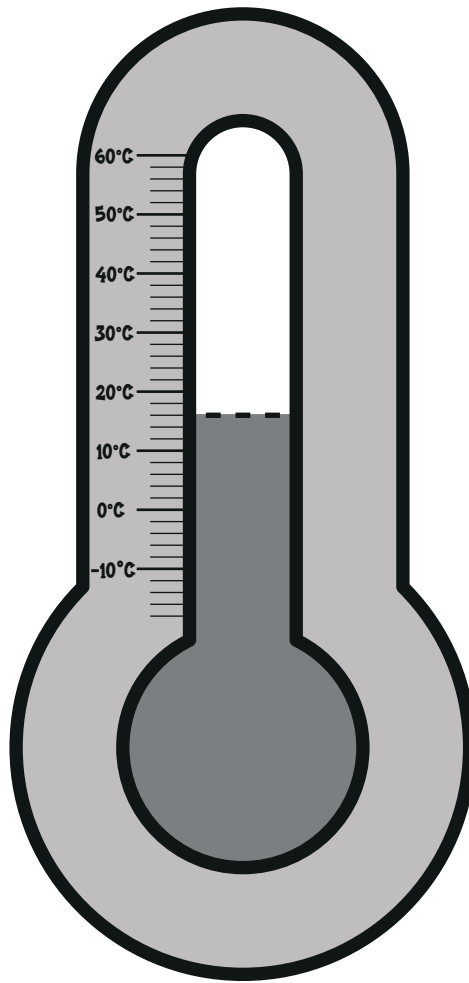

He leaves the office to have his lunch break then returns at 1.15 pm. He does not leave the office for the remainder of his day at work. His journey home takes the same length of time as his journey in the morning.

Mr. Jackson arrives home at 5.30 pm.

For how long was Mr. Jackson in his office on Monday?

- A 7 hours 15 minutes
B 7 hours 30 minutes
C 8 hours 10 minutes
D 8 hours 15 minutes
E 9 hours 45 minutes

46

The thermometer shows the temperature at 3 pm in Florida.
At the same time in Stockholm, it is 20 degrees colder.

What is the temperature in Stockholm?

- A** -2°C **B** -4°C **C** -6°C **D** -12°C **E** -14°C
-

47

What is the mean of all the prime numbers between 20 and 30?

- A** 21 **B** 23 **C** 24 **D** 26 **E** 29
-

48

Martha and her brother have saved £90 altogether but did not save the same amount of money as each other. Martha saved £12 more than her brother.

How much money did Martha's brother save?

A £12

B £33

C £39

D £51

E £78

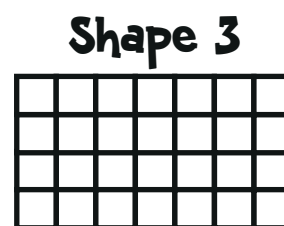

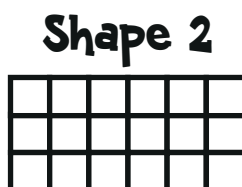

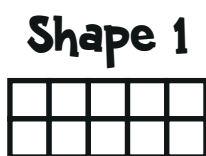

49

Which of these fractions is equal to $\frac{5}{6}$?

A $\frac{40}{48}$ B $\frac{22}{26}$ C $\frac{35}{40}$ D $\frac{30}{35}$ E $\frac{45}{50}$

50

The number of squares in each shape below is increasing each time. They are following a pattern.

How many squares will there be in Shape 4?

A 36 squares

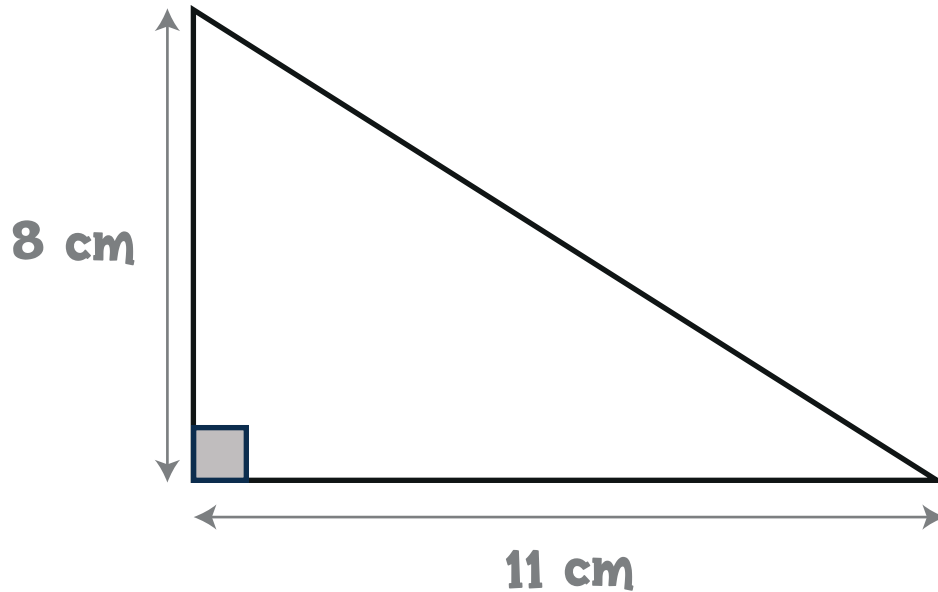

B 38 squares

C 45 squares

D 42 squares

E 40 squares

For questions 51 - 56, you have to **write your answers** in the boxes provided on your answer sheet. The units of measurement have been given.

51

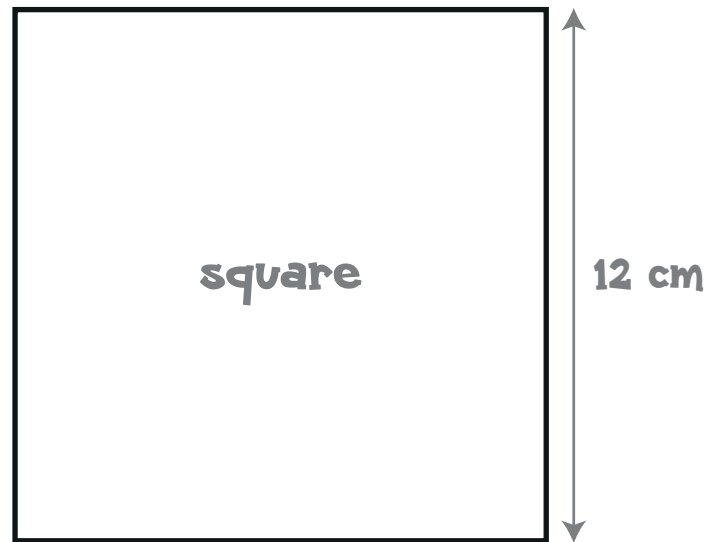

What is the area of this triangle?

52

1.031	1.3	1.013	1.31	1.301
--------------	------------	--------------	-------------	--------------

Multiply the largest of these five numbers by 1000.

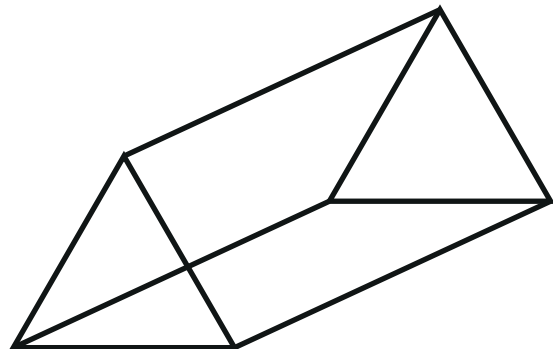

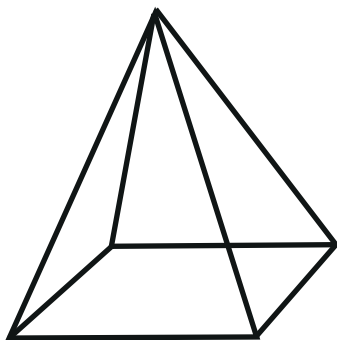

53

The area of the rectangle is $\frac{1}{3}$ of the area of the square.

What is the perimeter of the rectangle?

54

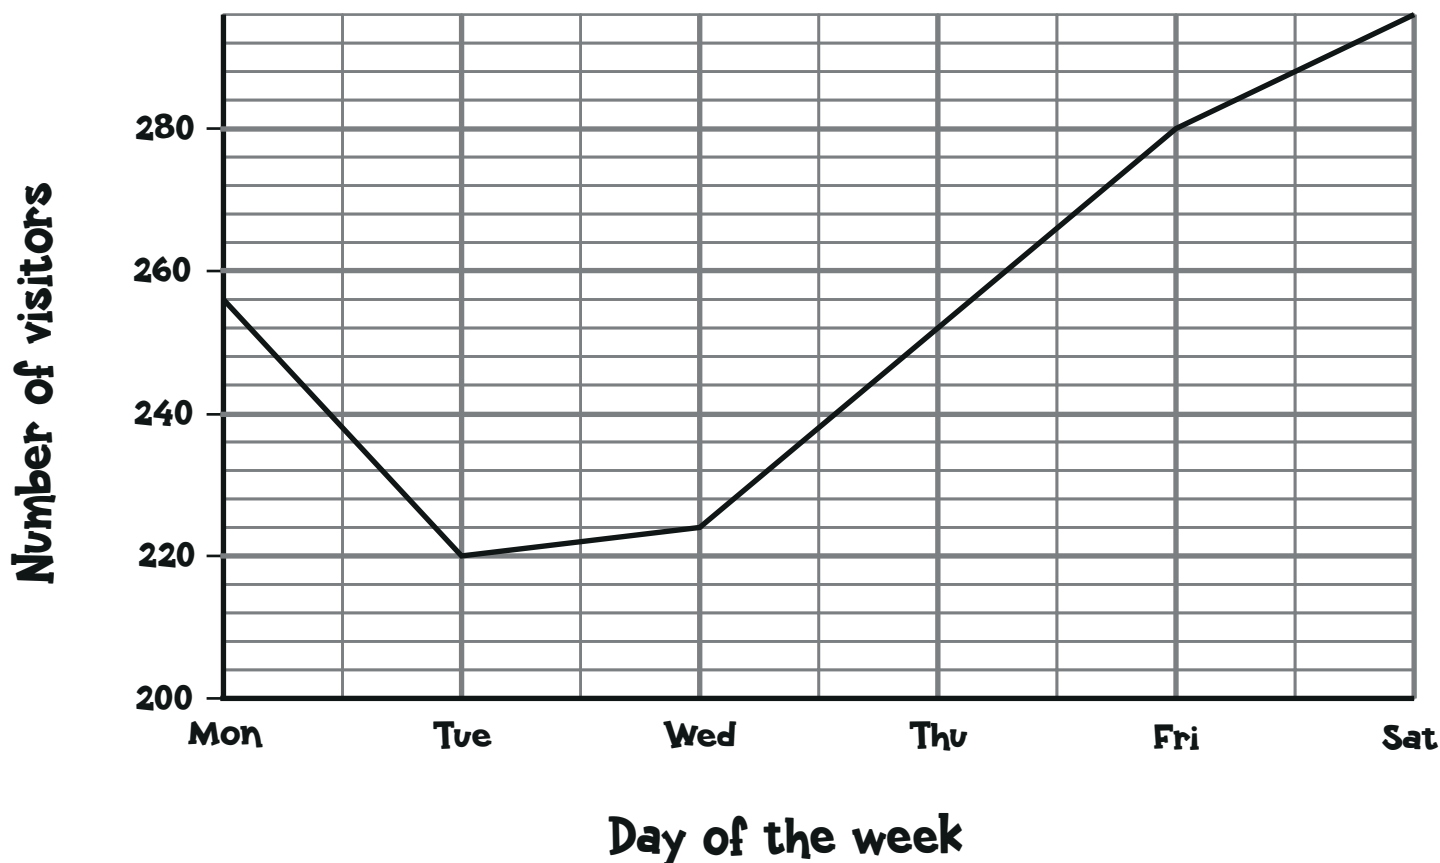

What is the combined number of edges on a square-based pyramid and a triangular prism?

55

This line graph shows the number of visitors to a leisure centre during one week.

Leisure Centre Visitors

How many more visitors were there on Thursday than on Wednesday?

56

A barrel contains 20 kg of coffee beans. These coffee beans are put into containers that can hold 1500 g each.

How many containers can be completely filled from the coffee beans that are in the barrel?
