

SEAG-style practice tests

the catapult papers

the main series

Name: _____

Score: _____

Test 4

2026 edition

Notes for parents

The Main Series of The Catapult Papers provides a full set of SEAG-style practice assessments suitable for P7 pupils (or confident pupils at the end of P6). These papers offer a more challenging level of practice than the Warm-Up Series, reflecting the balance and pace of the official assessments more closely. As with all Transfer Test preparation, children will meet a wide range of English and Maths concepts, including some that require recall of earlier learning.

The questions in this series have been written to give children a realistic sense of the difficulty and variety they will encounter in the actual SEAG papers. The progression across the series helps pupils build accuracy, fluency, and familiarity with the demands of the assessment. Many families use these tests after completing the Warm-Up Series, though the order of use is entirely flexible.

The official time limit for the Transfer Test is 60 minutes. However, because this is a practice paper, no time limit is printed. Parents may decide how long to allow for completion, depending on confidence, focus, and stage of preparation.

This test paper may be written on, but answers must be recorded on the separate answer sheet provided. Guidance on how to do this is included at the top of that page. An answers page is also included for marking. Each correct answer is worth one mark, and no question carries more than one mark. Half-marks should not be awarded. In the English section, misspelled answers should only be accepted when spelling is not part of the skill being tested. When spelling accuracy is required (e.g. plurals, verb endings, homophones), an incorrectly spelled answer should not be counted as correct.

Spaces for recording the final score are provided on both the cover page and the answer sheet. Parents may record the result as a percentage or as a score out of 56.

Finally, please remember that these are practice tests. It is normal for children to make mistakes as they adjust to the level of challenge. The purpose of the Main Series is to develop confidence, build stamina, and strengthen the range of skills needed for the SEAG assessment. Consistent practice and calm encouragement are the most effective supports during this stage of preparation.

Permission to use this paper is granted for one child only. No photocopying or sharing of the test is permitted. A separate set of The Catapult Papers is available exclusively for schools.

English

In this exercise there are some mistakes with **punctuation** or use of **capital letters**. On each numbered line there is either **one** mistake or **no** mistake. Find the group of words with the mistake in it and **mark its letter on your answer sheet**. If there is no mistake, mark **N**.

Punctuation Exercise

1 'Your sentence needs an exclamation mark at the end of it,' Mr Foster told Jake.
A B C D

2 The buildings of Ancient Greece will be Octobers topic for Year 5 students.
A B C D

3 'Your father and I met many, many moon's ago,' Mum said with a chuckle.
A B C D

4 'If you finish your homework' Dad informed Jess, 'you can go to Abby's.'
A B C D

5 Tom's four favourite things to eat were blueberries, raisins; bananas
A B
and his grandfather's chocolate and vanilla cheesecake.
C D

In this exercise you have to choose the **best** word, or **group of words**, to complete each numbered line so that the sentences make sense and are written in correct English. Choose the best answer and **mark its letter on your answer sheet**.

Grammar Exercise

6

'Ask myself yourself himself herself themselves if there are
A B C D E
any other ways to solve the problem.'

7

While cleaning the attic, I came down up around at across
A B C D E
a box of old photographs from my childhood.

8

The elephants passed by the lake and drank drink will be drinking
A B C
drinks drunk from it.
D E

9

However Whatever Whenever Whoever Whichever you arrive,
A B C D E
just ring the doorbell, and I'll let you in.

10

'I remember it clear when sure probably clearly,' said Mum,
A B C D E
'as if it were yesterday.'

In this exercise there are some **spelling** mistakes. On each numbered line there is either **one** mistake or **no** mistake. Find the group of words with the mistake in it and **mark its letter on your answer sheet**. If there is no mistake, mark **N**.

Spelling Exercise

11 Interestingly, the nursery rhyme does not say that Humpty Dumpty was an egg!

A B C D

12 February is the only month in the calender that has fewer than thirty days.

A B C D

13 Fred's results would improve greatly if he had just a little bit of guidance.

A B C D

14 Without disipline, even the most talented pupils won't achieve their goals.

A B C D

15 By planning intelligently, the team avoided mistakes and completed their project early.

A B C D

Read the whole passage carefully, then answer the questions that follow.

Sheer Gossip

1. 'Where are the other children?' asked Miss Cornelia, once the first greetings were
2. over – warm on her side, cheerful on Anne's, and calm on Susan's.

3. 'Shirley is in bed, and Jem, Walter, and the twins are down in their beloved
4. Rainbow Valley,' said Anne. 'They only came home this afternoon, and they could
5. hardly wait for supper to end before rushing there. They love that valley more than
6. any place on earth. Even the maple grove doesn't compare.'

7. 'I'm afraid they love it too much,' said Susan gloomily. 'Little Jem once said he
8. would rather go to Rainbow Valley than to heaven when he died, and that was not
9. a proper remark.'

10. 'I suppose they had a wonderful time in Avonlea?' asked Miss Cornelia.

11. 'Enormous,' said Anne, smiling. 'Marilla does spoil them terribly. Jem, especially,
12. can do no wrong in her eyes.'

13. 'Miss Cuthbert must be an old lady now,' said Miss Cornelia, taking out her knitting
14. so she could keep up with Susan. Miss Cornelia always believed that a woman with
15. busy hands had the advantage over one who sat idle.

16. 'Marilla is eighty-five,' said Anne with a sigh. 'Her hair is snow-white, but her
17. eyesight is somehow better than when she was sixty.'

18. 'Well, dearie, I'm truly glad you're back. I've been dreadfully lonely. But we haven't
19. been dull in the Glen, believe me. It's been the most exciting spring I can
20. remember for church matters. We've finally got a new minister!'

21. 'The Reverend John Knox Meredith,' said Susan quickly, determined not to let Miss
22. Cornelia tell all the news.

23. 'Is he handsome?' asked Anne, her eyes bright with interest.

24. Miss Cornelia sighed, and Susan gave a little groan.

25. 'Yes, he's nice enough, if that were all,' said Miss Cornelia. 'He's very pleasant,

26. very clever, and very spiritual – but, oh, Anne dearie, he has no common sense!’
27. ‘How did you end up choosing him, then?’ asked Anne.
28. ‘There’s no doubt he’s the best preacher we’ve ever had at Glen St Mary Church,’
29. said Miss Cornelia, softening her tone. ‘I suppose it’s because he’s so moony and
30. absent-minded that he never got offered a position in town. His trial sermon was
31. simply wonderful. Everyone was thrilled by it – and by his looks.’
32. ‘He is very handsome,’ added Susan quickly. ‘And when all is said and done, I do
33. like to see a fine-looking man in the pulpit.’
34. ‘Besides,’ continued Miss Cornelia, ‘we were eager to settle things. Mr Meredith
35. was the first candidate everyone agreed on. Someone had a complaint about each
36. of the others. There was even talk of calling Mr Folsom. He was a good preacher,
37. but people didn’t take to his appearance.’
38. ‘Then Mr Rogers came,’ said Miss Cornelia, ‘but he was like a chip in porridge –
39. neither harm nor good. Not that it mattered, for that was the Sunday old Caleb
40. Ramsay’s sheep wandered into church and bleated loudly just as Mr Rogers began
41. his sermon! Everyone laughed, and the poor man never had a chance after that.
42. Some people thought we should call Mr Stewart instead because he was so well
43. educated. He could read the New Testament in five languages!’
-

Please answer these questions. (Look at the passage again if you need to.)
You should choose the **best** answer and mark its letter on your answer sheet.

16

Which of the following characters is in Rainbow Valley?

- A Shirley
- B Walter
- C Anne
- D Mr. Meredith
- E Susan

17

The passage is called 'Sheer Gossip'. Which of the following subjects do the characters gossip about most?

- A church matters
- B the children
- C knitting
- D the weather
- E Rainbow Valley

18

Look at lines 18 - 20. Which character is most likely saying these words?

- A Susan
- B Marilla
- C Anne
- D Jem
- E Miss Cornelia

19

'There's no doubt he's the best preacher we've ever had at Glen St Mary church,' said Miss Cornelia, softening her tone. (lines 28 - 29)

Why did Miss Cornelia 'soften her tone'?

- A She had been praising the new minister so much that she needed to calm herself down.
- B She had just said something negative about the new minister so wanted to balance things out by saying something positive.
- C She didn't want the neighbours to hear her.
- D The materials that she had been knitting were so tough so she needed to soften them a little.
- E She was making an effort to sound dramatic.

20

Miss Cornelia sighed, and Susan gave a little groan. (line 24)

Why does Miss Cornelia sigh and Susan groan?

- A They are annoyed that Anne hasn't started knitting yet.
- B They are not impressed by what Jem said about Rainbow Valley.
- C They are feeling lonely.
- D They are not impressed that Anne is interested in how good-looking the new minister is.
- E They are not impressed by the new minister's preaching.

21

For what reason do the women think that Reverend Meredith did not get a job in a town church?

- A He was not a good enough preacher.
- B He preferred to be in a place where he could see the moon more clearly.
- C He was too absent-minded.
- D He was too spiritual.
- E He was not good-looking enough.

22

In which of the following lines does the author use a simile?

- A line 6
- B line 14
- C line 23
- D line 38
- E line 43

For these questions you have to **write your answers**, neatly, in the boxes provided on your answer sheet.

23

What age is Marilla?

- 24** What is Marilla's surname?
- 25** Which four-word phrase in lines 7 - 12 tells us that a character is considered to be 'perfect'?
- 26** Which two words on line 15 are opposite in meaning to each other?
- 27** Look at lines 34 - 43. How many different candidates for the job of minister are named?
- 28** Which one part of speech are the following as they appear in the passage?
hardly (line 5), **terribly** (line 11), **simply** (line 31), **loudly** (line 40)

Maths

29

IN	→ calculation 1 → calculation 2 →	OUT
8	→	50
12	→	78

Which of the following sets of calculations would work for BOTH pairs of numbers in this function machine?

- A +17 then $\times 2$
- B $\div 2$ then $\times 13$
- C -3 then $\times 10$
- D $\times 7$ then -6
- E $\times 6$ then +6

30

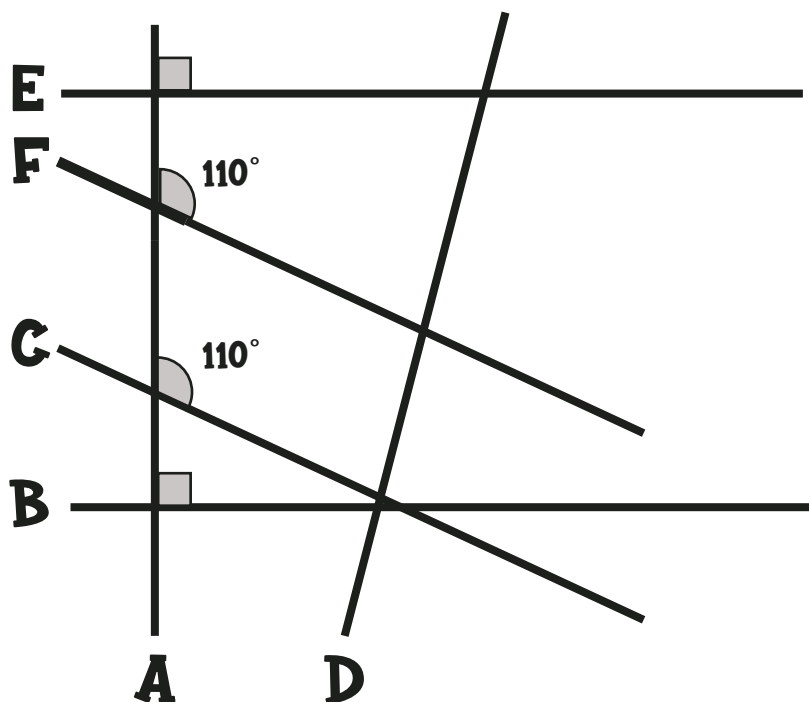

A digital clock displays the following time.

19:20

What was the time 100 minutes before this?

- A 6.20 pm B 7.40 pm C 5.50 pm D 5.40 pm E 6.40 pm

31

Which of the lines in the picture above is parallel to line F?

- A Line A
- B Line B
- C Line C
- D Line D
- E Line E

32

A businessman goes on a car journey that is 80 km long.

In the first hour, he travels $\frac{3}{8}$ of this distance and then, in the second hour, he travels $\frac{3}{5}$ of the REMAINING distance.

What distance has the businessman travelled after two hours?

- A 20 km
- B 30 km
- C 40 km
- D 60 km
- E 78 km

33

This table shows the prices of four items in a shop. The price of the fifth item is missing.

The mean price of ALL FIVE items is £20.

Item 1	£14
Item 2	£30
Item 3	£10
Item 4	£18
Item 5	?

What is the price of the fifth item?

- A £18.00 B £14.40 C £25.00 D £20.00 E £28.00
-

34

How many lines of symmetry are there in this parallelogram?

- A 0 B 1 C 2 D 3 E 4
-

35

Which fraction is NOT equal to 20%?

A $\frac{8}{40}$ B $\frac{3}{15}$ C $\frac{2}{10}$ D $\frac{6}{30}$ E $\frac{2}{5}$ **36**

What is the fewest number of coins that can be used to make £3.97?

A 6 coins

B 7 coins

C 8 coins

D 9 coins

E 10 coins

37

Which of the following shapes has the greatest number of edges?

A square-based pyramid

B sphere

C triangular prism

D cuboid

E hexagonal prism

38

83 74 66 _____ 53 _____

What are the two missing numbers in this sequence?

A 59 & 47

B 59 & 48

C 58 & 49

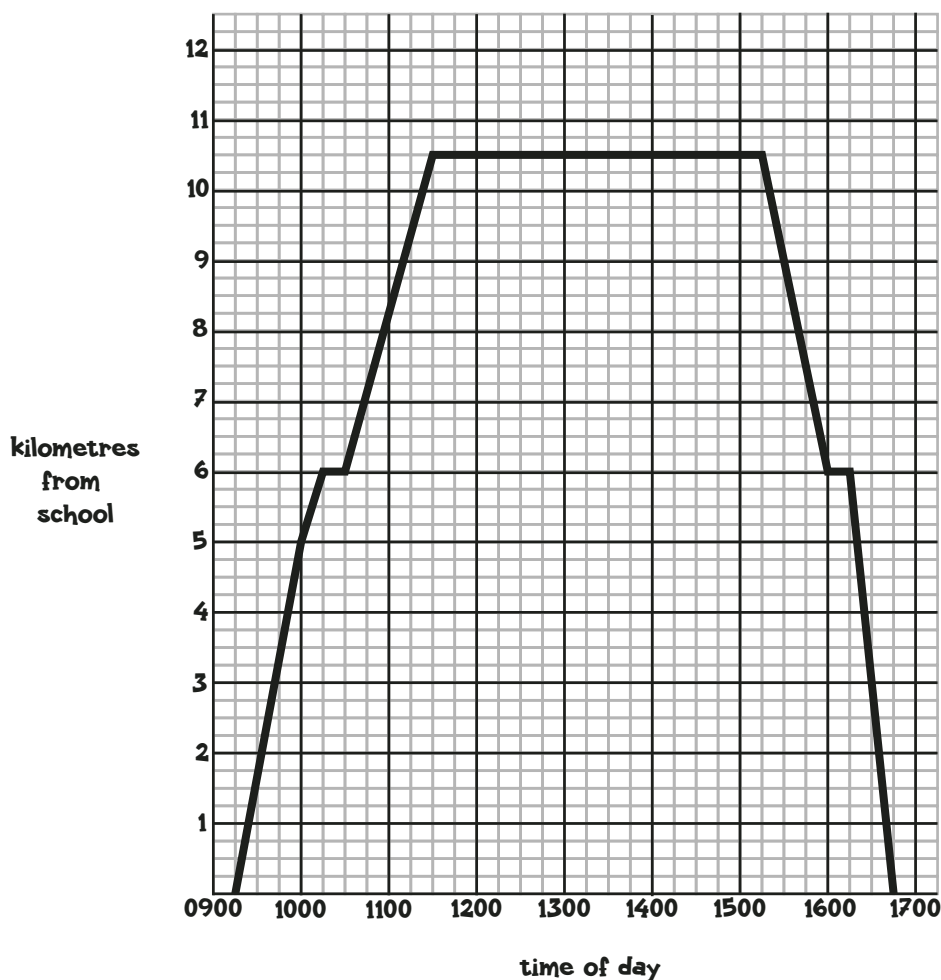

D 58 & 47

E 59 & 49

39

A Year 3 class went on a field trip to Carrickfergus by school bus. The line graph records the distance that the bus was from school throughout the day.

There was a short break on the journey to Carrickfergus so that the children could have snacks, and another short break on the journey back to school so that the bus could refuel.

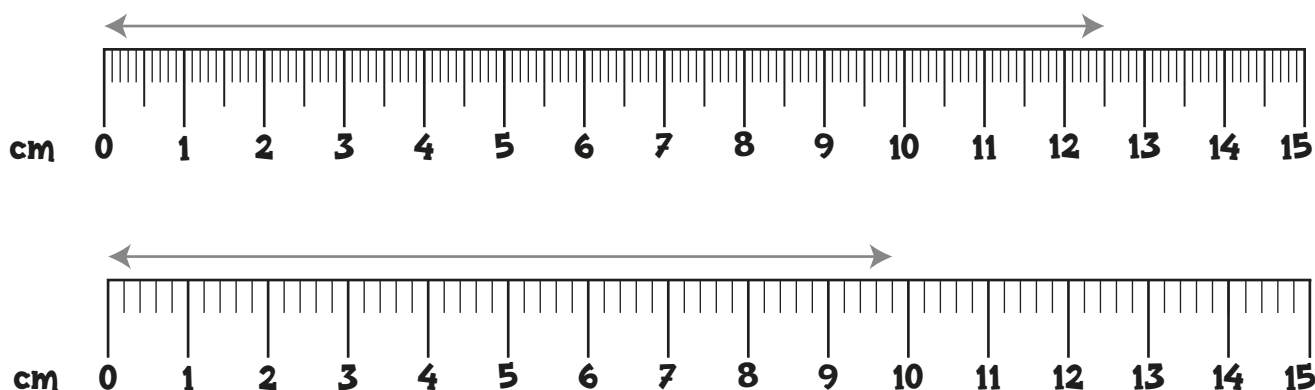

How long did the Year 3 class spend in Carrickfergus?

- A 3 hours 30 minutes
- B 3 hours 45 minutes
- C 4 hours
- D 5 hours 30 minutes
- E 7 hours 30 minutes

40

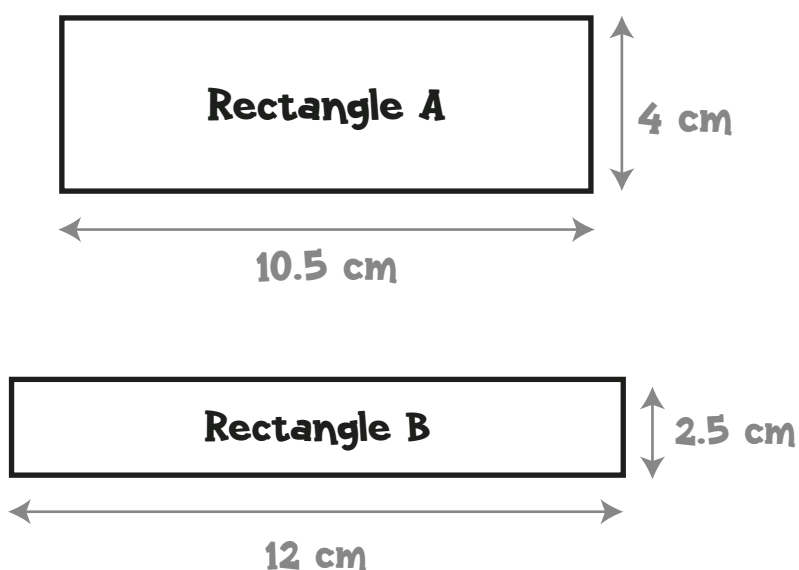

What is the combined length of the arrows?

- A 22.3 mm B 22.5 mm C 199 mm D 223 mm E 225 mm

41

The measurements for two different rectangles are shown below.

What is the difference in area between Rectangle A and Rectangle B?

- A 10 cm² B 12 cm² C 15 cm² D 20 cm² E 25 cm²

42

Lorelai is trying to complete a 1000-piece jigsaw.

After three days, she has pieced together exactly 580 of the jigsaw pieces. The remaining pieces are still in the box.

What percentage of the jigsaw pieces are still in the box?

- A** 42%
 - B** 40%
 - C** 60%
 - D** 58%
 - E** 52%
-

43

These are the ingredients for making ten pancakes.

200 g flour
3.5 teaspoons of baking powder
1 teaspoon of salt
1 tablespoon of white sugar
300 ml milk
1 egg
3 tablespoons of melted butter

How much milk would you need to make six pancakes?

- A** 75 ml
- B** 150 ml
- C** 180 ml
- D** 296 ml
- E** 240 ml

44

4.39	4.375	4.4
------	-------	-----

Multiply the smallest of these three numbers by 100 then subtract 4. What is the answer?

A 39.75

B 40

C 433.5

D 435

E 436

45

This table shows the number of children who attended the different after-school sports clubs at Carndale Primary School.

table-tennis	6
badminton	10
volleyball	10
cricket	11
football	12
rugby	11

If this information were shown on a pie chart, what would be the size of the angle representing the children who chose table-tennis?

A 6° B 45° C 60° D 20° E 36°

46

How many two-digit square numbers are there?

A 6

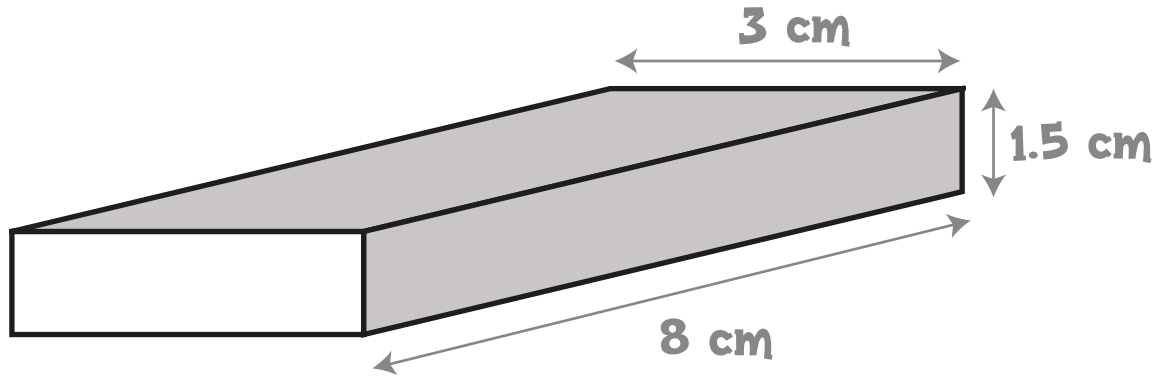

B 7

C 8

D 9

E 10

47

What is the volume of this cuboid?

A 24 cm^3 B 27 cm^3 C 30 cm^3 D 33 cm^3 E 36 cm^3

48

Jessica thinks of a number, adds 300 then doubles the answer.
Her final number is 1408.

What number was Jessica thinking of at the beginning?

A 404

B 554

C 1004

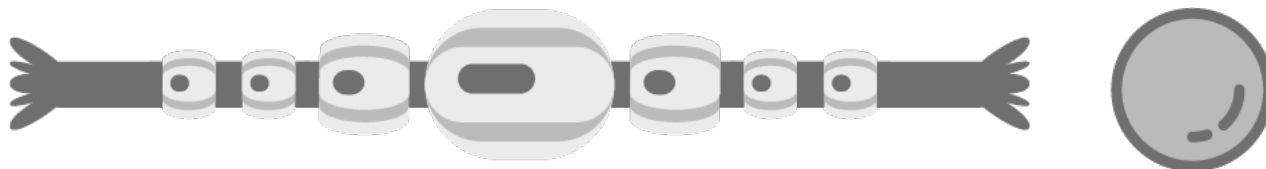

D 2516

E 3116

49

Wristbands and rubber balls are sold individually at a school shop.

Jasmine buys four wristbands for £3.60 and four rubber balls for £2.80.

Andrea buys six wristbands and three rubber balls.

How much money did Andrea have to pay altogether?

A £7.30

B £7.50

C £7.20

D £7.40

E £7.60

50

The distance from Dundonald to Newtownards is 6.9 km.

Keith is training for the marathon. He parks his car then runs 400 metres to Dundonald. After this, he runs from Dundonald to Newtownards and back again, before finally running back to his car.

How far did Keith run in total?

A 7.3 km

B 13.8 km

C 14.2 km

D 14.6 km

E 21.8 km

For questions 51 - 56, you have to **write your answers** in the boxes provided on your answer sheet. The units of measurement have been given.

51

Leo weighs himself on a set of scales. The display below shows his weight in kilograms.

35.2

Leo then packs his rucksack for a camping trip and stands on the same scales. This time he is carrying the rucksack. The display on the scales now shows the following number.

53.2

What is the weight, in kilograms, of Leo's rucksack?

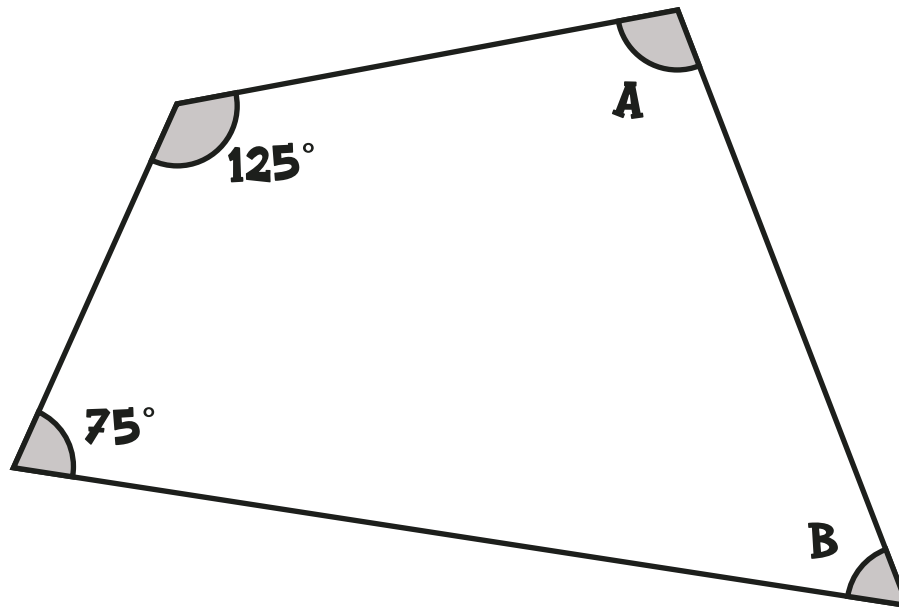

.....

52

Jacob writes down the first five cube numbers.

What is the range of these numbers?

.....

53

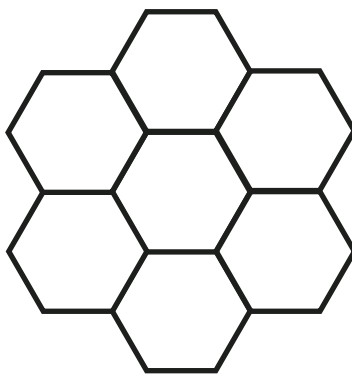

There are four different angles in this quadrilateral.
Angle A is 40° larger than Angle B.

What is the size of Angle B?

.....

54

Seven identical regular hexagons are used to create the pattern below.
The perimeter of a single hexagon is 42 cm.

What is the perimeter of the pattern?

.....

55

The table below shows the average temperature for six cities in the month of January.

Helsinki	-4°C
Cairo	17°C
Berlin	1°C
Sydney	25°C
Mexico City	15°C
Montreal	-7°C

What is the difference in temperature between Sydney and Montreal?

56

These are the times, in seconds, that it took four children to each run 100 metres.

Josh	14.5
Leah	16.2
Tori	15
Archie	13.9
Grace	?

Grace's time was 10% faster than Tori's time.

How long did it take Grace to run 100 metres?
