

SEAG-style practice tests

the catapult papers

A stylized illustration of a person with dark hair and sunglasses, wearing a black shirt, sitting in the basket of a large, grey, mechanical catapult. The catapult has two long, curved arms that are raised, and the person is holding onto the sides of the basket. The catapult is mounted on a thick, grey, cylindrical base. The person's legs are extended outwards, and their feet are visible, wearing black shoes with white soles. The entire illustration is in a grey and black color scheme, with the person's face and sunglasses in white and black. A red diagonal banner with the text 'the main series' in white is overlaid across the middle of the illustration.

the main series

Name: _____

Score: _____

Test 6

2026 edition

Notes for parents

The Main Series of The Catapult Papers provides a full set of SEAG-style practice assessments suitable for P7 pupils (or confident pupils at the end of P6). These papers offer a more challenging level of practice than the Warm-Up Series, reflecting the balance and pace of the official assessments more closely. As with all Transfer Test preparation, children will meet a wide range of English and Maths concepts, including some that require recall of earlier learning.

The questions in this series have been written to give children a realistic sense of the difficulty and variety they will encounter in the actual SEAG papers. The progression across the series helps pupils build accuracy, fluency, and familiarity with the demands of the assessment. Many families use these tests after completing the Warm-Up Series, though the order of use is entirely flexible.

The official time limit for the Transfer Test is 60 minutes. However, because this is a practice paper, no time limit is printed. Parents may decide how long to allow for completion, depending on confidence, focus, and stage of preparation.

This test paper may be written on, but answers must be recorded on the separate answer sheet provided. Guidance on how to do this is included at the top of that page. An answers page is also included for marking. Each correct answer is worth one mark, and no question carries more than one mark. Half-marks should not be awarded. In the English section, misspelled answers should only be accepted when spelling is not part of the skill being tested. When spelling accuracy is required (e.g. plurals, verb endings, homophones), an incorrectly spelled answer should not be counted as correct.

Spaces for recording the final score are provided on both the cover page and the answer sheet. Parents may record the result as a percentage or as a score out of 56.

Finally, please remember that these are practice tests. It is normal for children to make mistakes as they adjust to the level of challenge. The purpose of the Main Series is to develop confidence, build stamina, and strengthen the range of skills needed for the SEAG assessment. Consistent practice and calm encouragement are the most effective supports during this stage of preparation.

Permission to use this paper is granted for one child only. No photocopying or sharing of the test is permitted. A separate set of The Catapult Papers is available exclusively for schools.

English

In this exercise there are some mistakes with **punctuation** or use of **capital letters**. On each numbered line there is either **one** mistake or **no** mistake. Find the group of words with the mistake in it and **mark its letter on your answer sheet**. If there is no mistake, mark N.

Punctuation Exercise

1 The trip – originally planned for thursday – was postponed due to bad weather.
A B C D

2 The forests lake was glistening in the moonlight's fluorescent glow.
A B C D

3 'When I call out your name, Sam', growled Mr Dunn, 'I expect a reply.'
A B C D

4 'You're here now, aren't you, Peter? Why won't you give it a rest.' he sighed.
A B C D

5 Ever since we heard the news, we've been trying to contact Sean's teacher.
A B C D

In this exercise you have to choose the **best** word, or **group of words**, to complete each numbered line so that the sentences make sense and are written in correct English. Choose the best answer and **mark its letter on your answer sheet**.

Grammar Exercise

- 6** As soon as Gemma had entered her living room, the surprise guests
[sprung] [sprang] [spring] [were springing] [had been springing] out.
A B C D E
- 7** 'I've already [was telling] [to tell] [had told] [have told] [said] this a
A B C D E
thousand times before and won't tell you again!'
- 8** It is considered to be [a] [an] [the] [this] [some] honour to meet members
A B C D E
of the royal family.
- 9** Those going through tough times should never have to suffer in [silence]
A
[silent] [silently] [more silent] [most silent] .
B C D E
- 10** Without warning, the crowd spilled [between] [under] [onto] [into]
A B C D
[above] the streets, cheering loudly for their team.
E

In this exercise there are some **spelling** mistakes. On each numbered line there is either **one** mistake or **no** mistake. Find the group of words with the mistake in it and **mark its letter on your answer sheet**. If there is no mistake, mark **N**.

Spelling Exercise

11 Katie's fear of hights was a good enough reason for not climbing the ladder.

14 'This gadget was undoubtably a bargain,' boasted Francis to his friends.
A B C D

15 Mrs Jones became very concerned when she put down the phone. Had the
A B C
the salesman decieved her?
D

Read the whole poem carefully, then answer the questions that follow.

The Sea

1. The sea! the sea! the open sea!
2. The blue, the fresh, the ever free!
3. Without an edge, without a bound,
4. It circles Earth's wide regions round;
5. It plays with clouds, it mocks the skies,
6. Or like a sleeping baby lies.

7. I'm on the sea! I'm on the sea!
8. I am where I would ever be;
9. With the blue above and the blue below,
10. And silence everywhere I go;
11. If storms should rise and wake the deep,
12. What matter? I shall ride and sleep.

13. I love – oh, how I love – to ride
14. On fierce and foaming, bursting tides,
15. When every wild wave hides the moon
16. And whistles aloft its stormy tune,
17. And tells how fares the world below,
18. And why the southern tempests blow.

19. I never took to dull, still shores
20. But loved the great sea more and more,
21. And daily sought her heaving breast,
22. Like birds returning to their nest;
23. A mother she was, and is, to me;
24. For I was born on open sea!

25. The waves were white, the morning red,
26. When loud the seas around me spread;
27. The whale then whistled, the porpoise rolled,
28. The dolphins flashed their backs of gold;
29. And never was heard such an outcry wild
30. To welcome to life the ocean's child!

31. I've lived since then in calm and strife,
32. Full fifty summers – a sailor's life –
33. With wealth to spend and power to range,
34. But never have wished nor sighed for change;
35. And Death, whenever he comes to me,
36. Shall come on the wild, unbounded sea!
-

Please answer these questions. (Look at the poem again if you need to.)
You should choose the **best** answer and mark its letter on your answer sheet.

16

Which of the following statements best summarises the poet's feelings about the sea?

- A He is intimidated by the size and power of the sea.
- B He is never happier than when sleeping on the sea's surface.
- C He considers himself to be 'at one' with the sea.
- D He loves the sea because of his mother's influence.
- E He loves the sea because it is where he was born.

17

What do we learn about the sea in the first verse?

- A The sea is without boundary, and can be both wild and calm.
- B The sea has a boundary but is constantly wild.
- C The sea has a boundary and is constantly calm.
- D The sea is constantly wild, and can reach as high as the clouds.
- E The sea constantly lies cradled between the lands.

18

'It plays with the clouds, it mocks the skies' (line 5). This line of the poem contains an example of which of the following?

- A simile
- B onomatopoeia
- C rhyme
- D past tense verb
- E personification

19

**‘And daily sought her heaving breast,
Like birds returning to their nest’**
(lines 21 - 22)

What do these lines tell us?

- A The poet could see nesting birds floating upon the sea.
- B The poet enjoyed flying above the sea.
- C The poet enjoyed birdwatching at the seashore.
- D The poet felt that that going back out to sea was like returning to his family.
- E The poet kept searching for the sea every day.

20

**‘A mother she was, and is, to me;
For I was born on the open sea!’**
(lines 23 - 24)

These lines of the poem contain which of the following?

- A simile
- B direct speech
- C metaphor
- D alliteration
- E sarcasm

21

Look at lines 25 - 30. What is the poet’s main purpose in writing this verse?

- A The whales, porpoises and dolphins were all giving birth.
- B A child was being born on the sea’s surface.
- C He is describing a morning at the beach.
- D He is describing a dream he had of the sea.
- E He is comparing his first day at sea to the birth of a child.

22 Which of these words in the poem is closest in meaning to 'struggle'?

- A aloft (line 16)
- B tempests (line 18)
- C whistled (line 27)
- D porpoise (line 27)
- E strife (line 31)

For these questions you have to **write your answers**, neatly, in the boxes provided on your answer sheet.

23 Look at lines 25 - 36. How many words in these lines use a possessive apostrophe?

24 Which word in lines 31 - 36 has been written as a proper noun?

25 Which thing mentioned in the poem is whistling a 'stormy tune'?

26 Find and copy the line in the poem that tells us that the poet has enough money and freedom to explore the vast, open waters.

27 Look at lines 7 - 12. Which three-word phrase is used instead of the words 'the sky'?

28 Which one part of speech are the following as they appear in the poem?

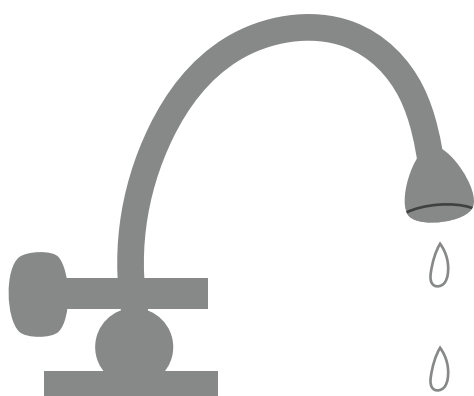

bound (line 3), **blue** (line 9), **world** (line 17), **calm** (line 31)

Maths

29

A tap starts dripping slowly into an empty bathtub. Water drips from the tap at the same rate from 8.30 am on Monday to 8.30 am on Tuesday.

The plug has been placed in the bath, so none of the water escapes down the plughole.

At 8.30 am on Tuesday, the bathtub contains exactly 480 ml of water.

How much water dripped from the tap each hour?

- A** 2 ml **B** 24 ml **C** 20 ml **D** 2.4 ml **E** 200 ml
-

30

Sandra turns clockwise from east to face southeast.

Through how many degrees did she turn?

- A** 30° **B** 45° **C** 90° **D** 210° **E** 315°
-

31

$\frac{4}{5}$	75%	0.7	$\frac{2}{3}$	0.68
---------------	-----	-----	---------------	------

Which of these five values is largest?

A $\frac{4}{5}$

B 75%

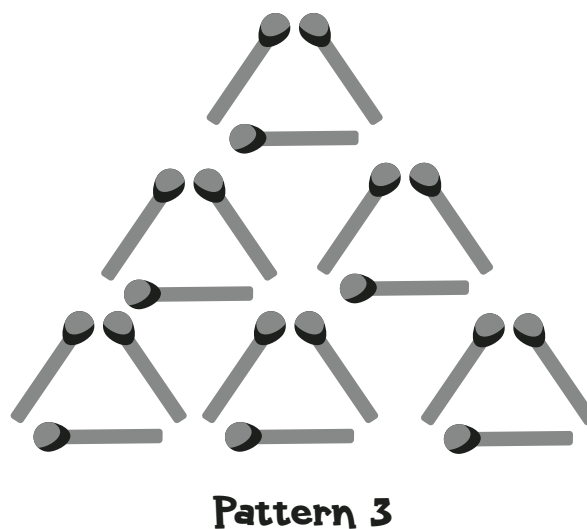

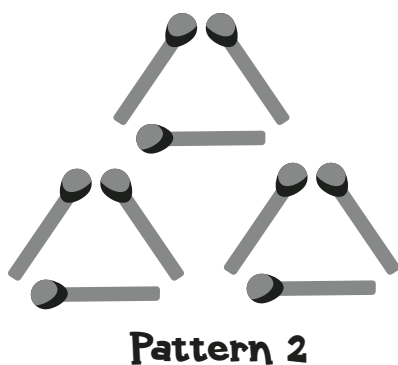

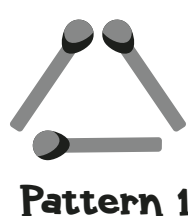

C 0.7

D $\frac{2}{3}$

E 0.68

32

Matchsticks are arranged into a series of patterns.

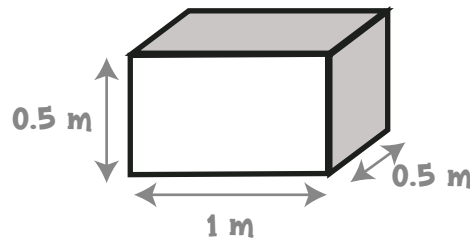

How many matchsticks will be needed to make Pattern 4?

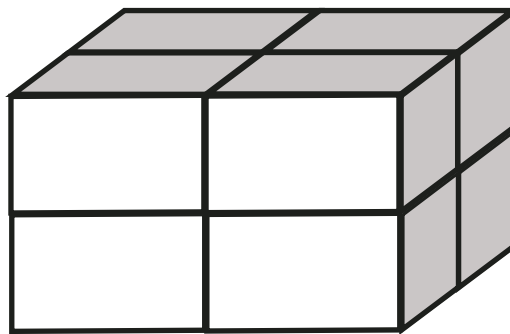

- A 10 matchsticks
- B 15 matchsticks
- C 21 matchsticks
- D 30 matchsticks
- E 45 matchsticks

33

One cuboid box measures 1 m by 0.5 m by 0.5 m.

The picture below shows eight of these boxes piled together.

What is the volume of the pile of boxes?

A 2 m^3

B 1.25 m^3

C 1 m^3

D 0.5 m^3

E 0.25 m^3

34**2156.743**

What is the value of the digit 4 in this number?

A 4 thousandths

B 4 hundredths

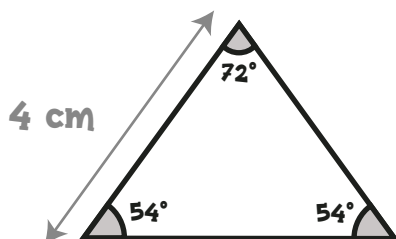

C 4 tenths

D 4 hundreds

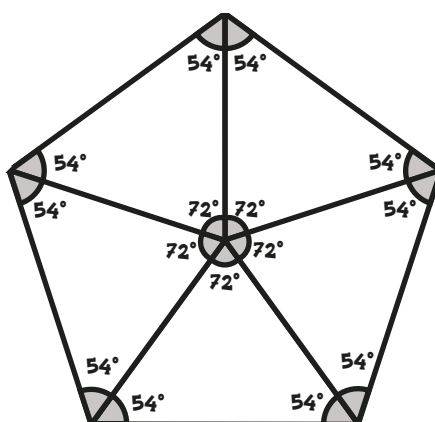

E 4 thousands

35

The perimeter of this isosceles triangle is 13 cm.

Five of these triangles can be positioned together to create this pentagon.

What is the perimeter of the pentagon?

- A 20 cm B 25 cm C 30 cm D 40 cm E 65 cm
-

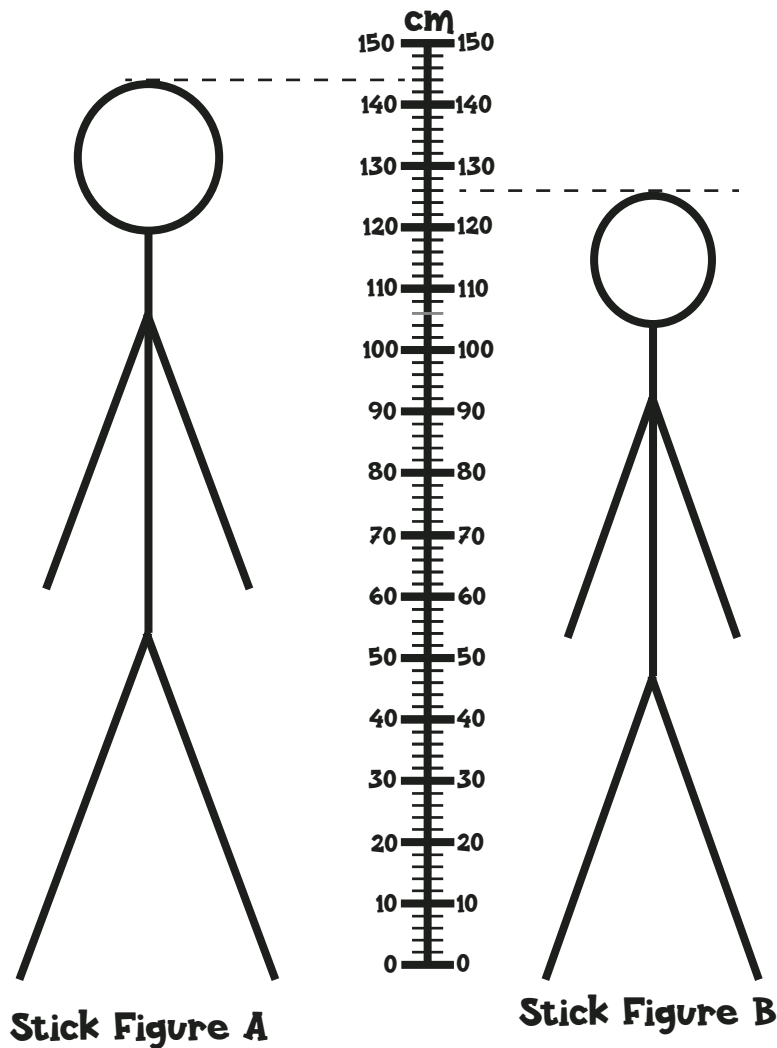

36

How many minutes are there from 22:45 to midnight?

- A 15 minutes
B 45 minutes
C 75 minutes
D 115 minutes
E 135 minutes

37

The heights of Stick Figure A and Stick Figure B are shown in the picture.

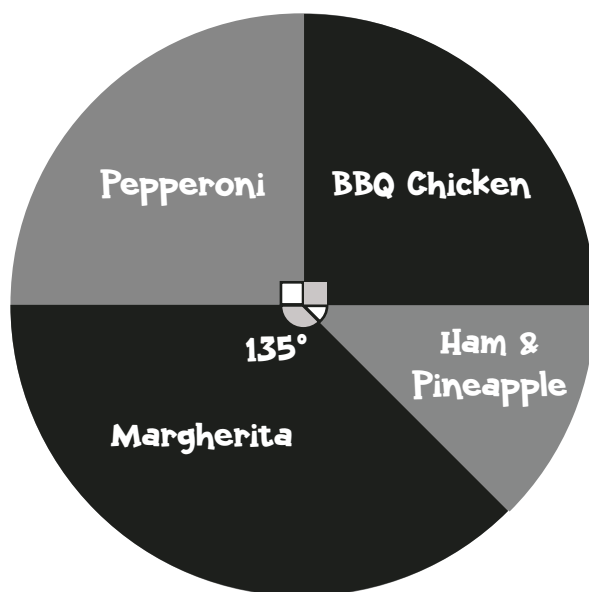

Stick Figure C then has its height measured. It is exactly halfway between the heights of Stick Figure A and Stick Figure B.

What is the height of Stick Figure C?

- A 126 cm
- B 134 cm
- C 135 cm
- D 137 cm
- E 144 cm

38

A class of 32 pupils was asked to choose which type of pizza it would like for Pizza Day. The results are shown in the pie chart below.

How many children chose Ham & Pineapple?

- A 4 children
- B 8 children
- C 12 children
- D 16 children
- E 45 children

39

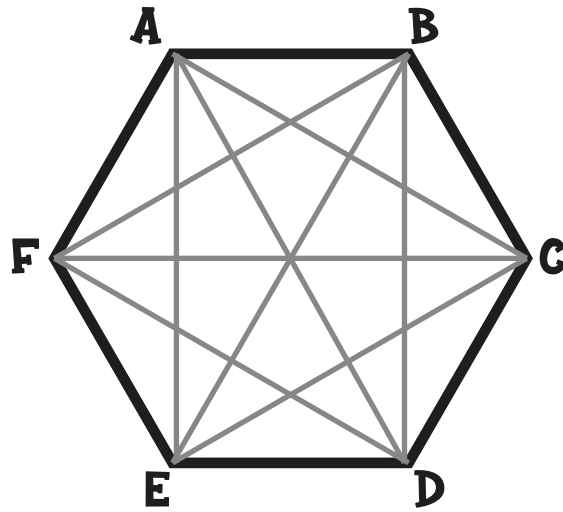

$$8.9 \times 201$$

Which of the numbers below is the best estimated answer to this calculation?

- A 160 B 1800 C 180 D 1600 E 1500

40

The picture shows all of the diagonal lines inside a regular hexagon. Each corner of the hexagon has been given a letter.

Which of the diagonal lines in the hexagon is perpendicular to Line BD?

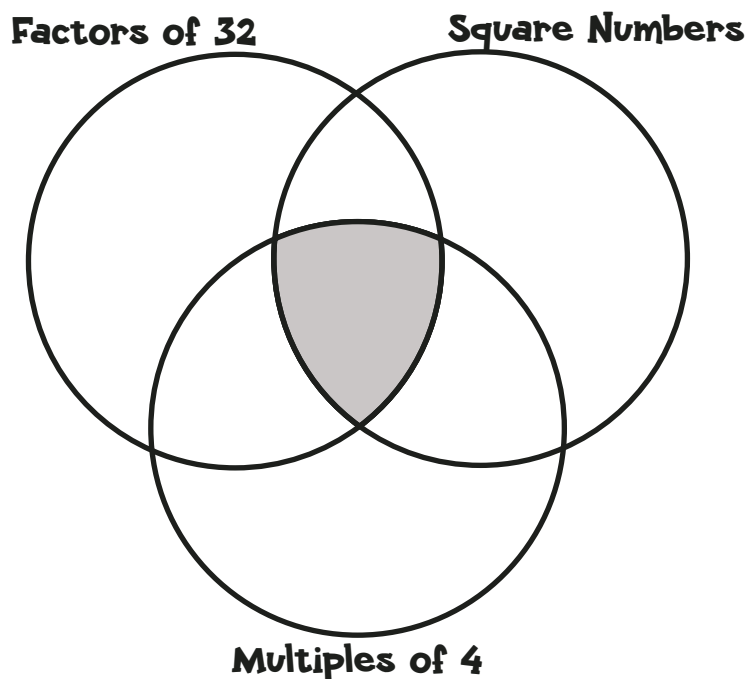

- A Line AE
- B Line BF
- C Line BE
- D Line CF
- E Line DF

41

What is 40% of 250?

- A 62.5
- B 100
- C 50
- D 210
- E 120

42

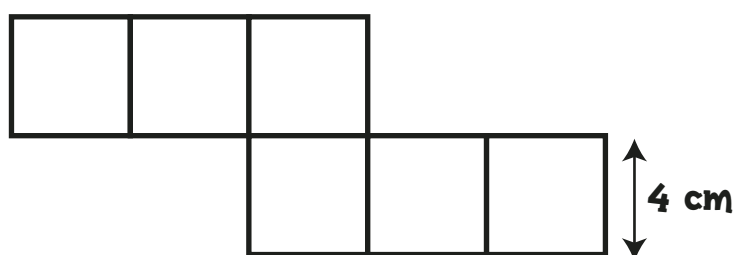

What is the smallest number that can be placed into the shaded part of this Venn Diagram?

- A 1 B 2 C 4 D 16 E 36

43

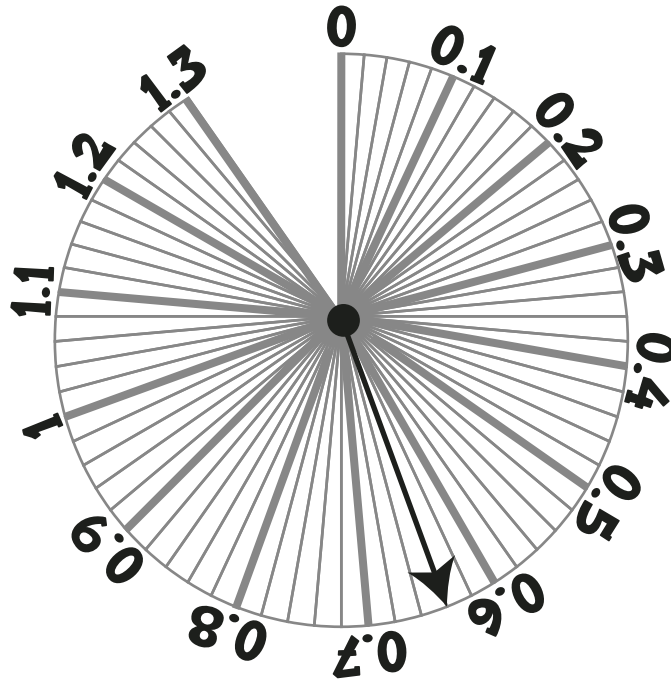

The net in this picture can be folded to make a cube.
The edge of each square measures 4 cm.

What will the volume of the cube be?

- A 24 cm^3 B 32 cm^3 C 56 cm^3 D 64 cm^3 E 96 cm^3

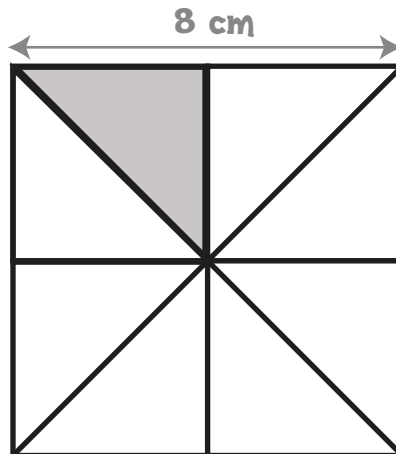

44

At which decimal number is the arrow pointing?

- A 0.2 B 0.4 C 0.6 D 0.62 E 0.64

45

What is the area of the shaded part of this square?

- A 4 cm^2 B 8 cm^2 C 16 cm^2 D 32 cm^2 E 56 cm^2

46

What is the mean of the first five cube numbers?

A 20

B 41

C 44.6

D 45

E 45.4

47

Which of the following statements about 3D shapes is NOT true?

A A cuboid has an even number of edges.

B A triangular-based pyramid has an even number of edges.

C A triangular prism has an even number of edges.

D A hexagonal prism has an even number of edges.

E A square-based pyramid has an even number of edges.

48

Which of the following numbers is divisible by 3?

A 161

B 184

C 193

D 206

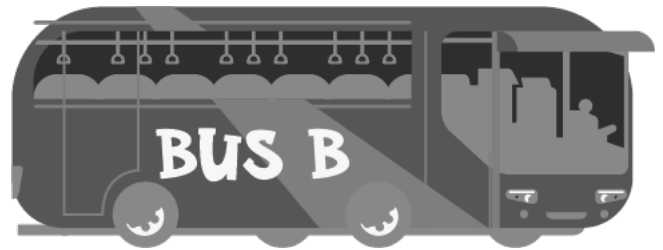

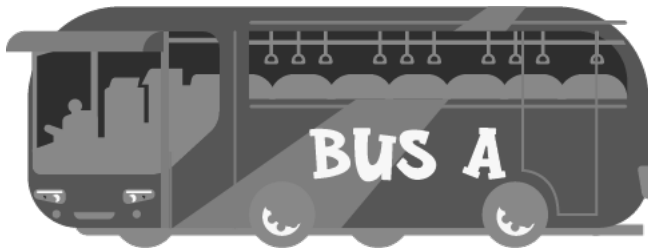

E 222

49

Which of the following fractions is equal to $\frac{18}{60}$?A $\frac{9}{20}$ B $\frac{3}{5}$ C $\frac{6}{30}$ D $\frac{3}{10}$ E $\frac{1}{3}$

50

Bus A and Bus B have 77 passengers altogether at the beginning of their journeys.

5 passengers get onto Bus B during the journey, and 12 passengers get off the bus.

There are 30 passengers on Bus B when it reaches its destination.

How many passengers were on Bus A at the beginning of the journey?

- A 37 passengers
 - B 40 passengers
 - C 57 passengers
 - D 67 passengers
 - E 95 passengers
-

For questions 51 - 56, you have to **write your answers** in the boxes provided on your answer sheet. The units of measurement have been given.

51

How many curved faces are there on a cylinder?

.....

52

Francesca works out the answer to the following multiplication.

$$62 \times 84 = 5208$$

She believes that she can use this calculation to help her solve a trickier one.

$$5208 \div 8.4 = ?$$

What is the answer to this division?

.....

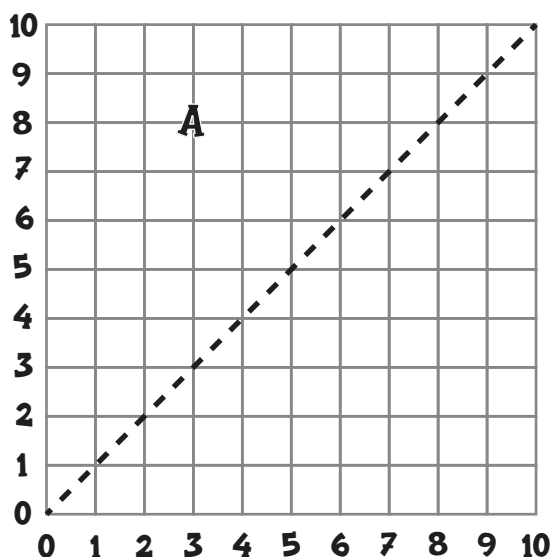

53

How many minutes are there altogether in 5.25 hours?

.....

54

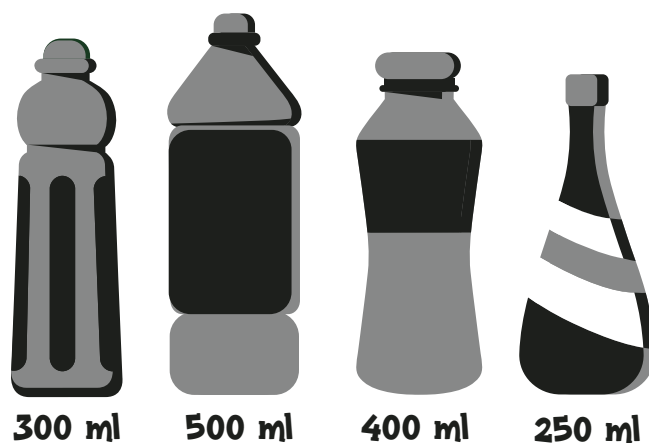

Point A is reflected through a diagonal mirror line.

What will be the coordinates for its reflection?

55

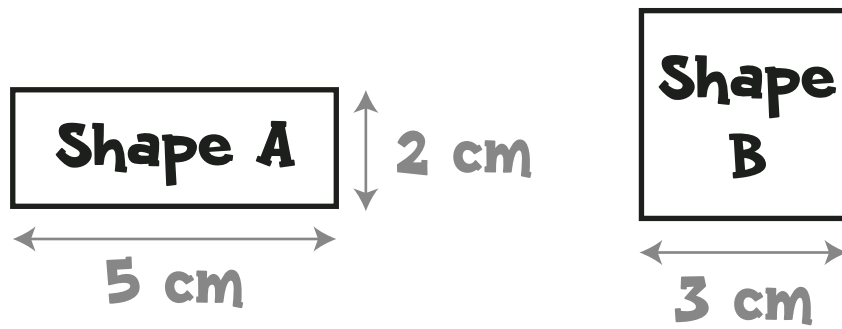

A supermarket sells sparkling water in four different sizes of bottle.

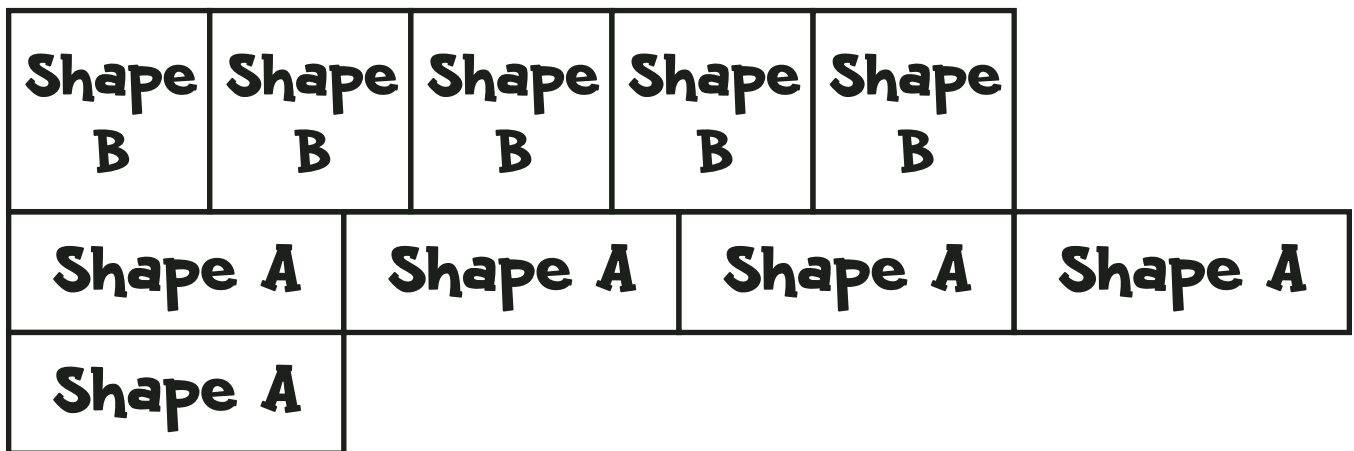

Mr Crawford buys six bottles of sparkling water. He buys at least one of each of these four bottles.

What is the greatest volume of water, in litres, that Mr Crawford could have bought?

56

Several of each of these rectangles and squares are combined to make the larger shape below.

What is the perimeter of this larger shape?
