

SEAG-style practice tests

the catapult papers

A stylized illustration of a person with dark hair and sunglasses, wearing a black shirt, sitting in the basket of a catapult. The catapult is grey and has two large, curved arms. The person's legs are extended outwards, and their feet are wearing large, black sneakers with white soles. A teal banner with the text 'the main series' is draped across the middle of the catapult. The catapult is mounted on a grey base with three legs. The background is white.

the main series

Name: _____

Score: _____

Test 8

2026 edition

Notes for parents

The Main Series of The Catapult Papers provides a full set of SEAG-style practice assessments suitable for P7 pupils (or confident pupils at the end of P6). These papers offer a more challenging level of practice than the Warm-Up Series, reflecting the balance and pace of the official assessments more closely. As with all Transfer Test preparation, children will meet a wide range of English and Maths concepts, including some that require recall of earlier learning.

The questions in this series have been written to give children a realistic sense of the difficulty and variety they will encounter in the actual SEAG papers. The progression across the series helps pupils build accuracy, fluency, and familiarity with the demands of the assessment. Many families use these tests after completing the Warm-Up Series, though the order of use is entirely flexible.

The official time limit for the Transfer Test is 60 minutes. However, because this is a practice paper, no time limit is printed. Parents may decide how long to allow for completion, depending on confidence, focus, and stage of preparation.

This test paper may be written on, but answers must be recorded on the separate answer sheet provided. Guidance on how to do this is included at the top of that page. An answers page is also included for marking. Each correct answer is worth one mark, and no question carries more than one mark. Half-marks should not be awarded. In the English section, misspelled answers should only be accepted when spelling is not part of the skill being tested. When spelling accuracy is required (e.g. plurals, verb endings, homophones), an incorrectly spelled answer should not be counted as correct.

Spaces for recording the final score are provided on both the cover page and the answer sheet. Parents may record the result as a percentage or as a score out of 56.

Finally, please remember that these are practice tests. It is normal for children to make mistakes as they adjust to the level of challenge. The purpose of the Main Series is to develop confidence, build stamina, and strengthen the range of skills needed for the SEAG assessment. Consistent practice and calm encouragement are the most effective supports during this stage of preparation.

Permission to use this paper is granted for one child only. No photocopying or sharing of the test is permitted. A separate set of The Catapult Papers is available exclusively for schools.

English

In this exercise there are some mistakes with **punctuation** or use of **capital letters**. On each numbered line there is either **one** mistake or **no** mistake. Find the group of words with the mistake in it and **mark its letter on your answer sheet**. If there is **no** mistake, mark **N**.

Punctuation Exercise

1 Sara looked directly at her sister and asked, 'What was that all about?'
A B C D

2 The african elephant, the world's largest land animal, is an endangered species.
A B C D

3 Although her best friend was Olivia Lucy chose Hannah to be her partner.
A B C D

4 That old oak tree the one by the river – has been standing there for centuries.
A B C D

5 'Chocolate, raspberry and honeycomb are just some of my kids favourite
ice-cream flavours.'
A B C D

In this exercise you have to choose the **best** word, or **group of words**, to complete each numbered line so that the sentences make sense and are written in correct English. Choose the best answer and **mark its letter on your answer sheet**.

Grammar Exercise

6 He communicated his message to the audience
A B C
 an interpreter.
D E

7 Thomas
A B C D E
all day but the postman still hasn't arrived.

8 The Titanic
A B C D E
in April, 1912.

9 'I'd rather you didn't tell me now,
A B C D E
it's really, really important.'

10 Of all the tasks today, organising the cupboard is definitely the
A B
 important.
C D E

In this exercise there are some **spelling** mistakes. On each numbered line there is either **one** mistake or **no** mistake. Find the group of words with the mistake in it and mark its letter on your answer sheet. If there is no mistake, mark N.

Spelling Exercise

11

Mum would often embarrass me by showing my baby photos to my cousens.

A B C D

12

Before climbing the ladder, fassen the safety strap securely around your waist.

A B C D

13

'After carefull examination, we are certain that there has been an intruder.'

A B C D

14

'Your story develops really well but I would change some parts of the begining.'

A B C D

15

The frightful beast had the appearence of a lion and the intelligence of a
wise magician.

A B C D

Read the whole passage carefully, then answer the questions that follow.

Turtles

1. For centuries, people of all ages have been fascinated by the charming creatures
2. known as turtles: reptiles, with cold-blooded bodies, scaly skin, and the ability to
3. reproduce by laying eggs.

4. Types of Turtles

5. With more than 300 species worldwide, there is an extensive variety of turtles.
6. While some prefer the saltwater of the ocean, others gravitate towards the
7. freshwater of ponds, lakes, or rivers. Those that dwell on land are known as
8. terrestrial turtles.

9. Anatomy of Turtles

10. The hard shells of turtles serve as defensive armour to keep them secure from
11. predators. They have two components to their shells: the upper part, known as the
12. carapace, and the lower part, known as the plastron. These shells are composed
13. of bone and have a keratin-coated layer of scaly skin on top of them.

14. Unique Characteristics of Turtles

15. The ability of turtles to live a very long time is one of their most fascinating
16. features. Green sea turtles have been known to live longer than 100 years.
17. Moreover, turtles move very slowly and are poor at pursuing their prey. Instead,
18. they catch their food using their wits and patience.
19. Turtles are crucial to the environment. By consuming algae and aquatic plants that
20. would otherwise overgrow and create issues, they contribute to the maintenance
21. of the ecosystems and rivers in our area. Turtles also provide food for fish and
22. birds, among other species.
23. **Threats to Turtles**
24. Regrettably, turtles face numerous dangers. Loss of habitat is one of the main
25. hazards. The environments where turtles reside are being destroyed as human
26. populations rise. Not only this, humans frequently capture turtles for food or to sell
27. as pets, which can further deplete turtle populations.

28. **How to Protect Turtles**

29. There are several things that we can do to protect turtles. One of the most
30. important things is to reduce our use of plastic. This means using reusable bags
31. instead of single-use plastic bags, recycling as much as possible, and not littering.
32. We can also help by not disturbing turtle nests or eggs. If you see a turtle laying
33. eggs on the beach, it is important to leave them alone and not disturb them. It is
34. also important to not touch or handle turtles in the wild.

35. **Turtles as Pets**

36. Turtles are often kept as pets by people who are fascinated by their unique
37. characteristics and personalities. However, it is important to note that turtles
38. require a lot of care and attention to thrive in captivity. One of the most important
39. things to consider before getting a pet turtle is the amount of space that they will
40. need. Depending on the species of turtle, they can grow to be quite large and will
41. need a tank or enclosure that is large enough to accommodate their size. It is also
42. important to provide a suitable substrate, heating, lighting, and filtration system to
43. maintain a healthy environment for the turtle.

44. Turtles are also sensitive to changes in their environment, so it is important to
45. maintain a consistent temperature and lighting schedule. They require a varied
46. diet that includes both plant and animal matter, and their food should be
47. supplemented with vitamins and minerals to ensure their nutritional needs are met.

48. If you are considering getting a pet turtle, it is important to do your research and
49. make sure that you can provide the necessary care and attention that they require.
50. It is also important to purchase turtles from reputable breeders or pet stores to
51. ensure that they have been properly cared for and are not taken from the wild.

Please answer these questions. (Look at the passage again if you need to.)
You should choose the **best** answer and mark its letter on your answer sheet.

16

Based on the passage, which of the following is NOT a threat to turtles?

- A the pet trade
- B predators
- C the increase of the human population
- D plastic
- E algae

17

According to the passage, which of the following is given as a reason why turtles help our ecosystem?

- A They help control the insect population.
- B They prevent algae and plants from overgrowing.
- C They help control the fish population.
- D They help air get into soil, allowing more plants to grow.
- E They help get rid of the materials that humans should be recycling.

18

Which of the following types of body of water is NOT named in the passage?

- A lake
- B pond
- C river
- D ocean
- E canal

19

Look at lines 14 - 22. On which of the following does a turtle depend most to catch its prey?

- A agility
- B speed
- C intelligence
- D strength
- E Turtles do not eat other animals.

20

Which of the following parts of speech is the word 'research' (line 48)?

- A verb
- B adverb
- C pronoun
- D noun
- E conjunction

21

Which of the following can be found on the outer layer of a turtle's shell?

- A keratin
- B carapace
- C plastron
- D eggs
- E bone

22

Which of the following lines in the passage contains a two-word phrase that is similar in meaning to 'wide range'?

- A line 5
- B line 10
- C line 24
- D line 42
- E line 50

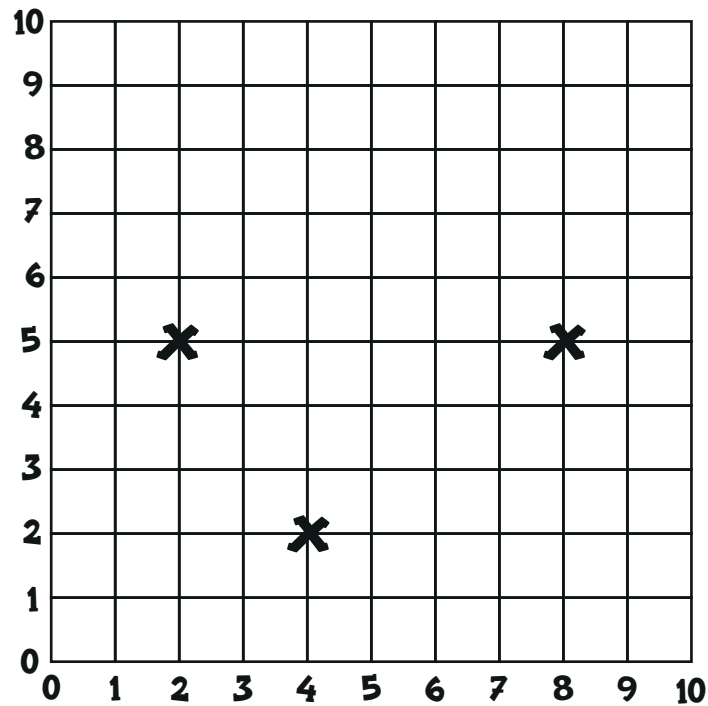

For these questions you have to **write your answers**, neatly, in the boxes provided on your answer sheet.

- 23** An adjective has been used in the first three lines to express an opinion, rather than a fact. What is that adjective?
- 24** The passage only mentions one place where turtles can lay eggs. What type of place is it?
- 25** What is the lower part of the turtle's shell known as?
- 26** Which species of turtle has been known to live for more than 100 years?
- 27** Which verb in lines 23 - 27 is closest in meaning to 'reduce'?
- 28** Look at the paragraph with the subheading 'How to Protect Turtles'. Which line in this paragraph contains a hyphenated word? Write the number of the line.

Maths

29

Three coordinates have been marked onto the grid below.

A fourth point has to be plotted so that each of the four points form the four vertices of a kite.

Which of these coordinates could be the final vertex of the kite?

A (8,0)

B (4,8)

C (8,4)

D (0,8)

E (1,3)

30

This is the list of prices in a local ice cream shop.

Small cone £1.85
Large cone £2.85
Small tub (1 scoop) £1.75
Medium tub (2 scoops) £2.95
Large tub (3 scoops) £4.25
30p per extra topping

What is the difference in price between a large cone with two extra toppings, and a medium tub with one extra topping?

- A £0.05 B £0.10 C £0.15 D £0.20 E £0.25
-

31

Which of the following statements about triangles is true?

- A An isosceles triangle can contain at least one angle measuring 60° .
B An equilateral triangle can contain an obtuse angle.
C A scalene triangle can have one line of symmetry.
D An isosceles triangle can contain a right angle.
E A scalene triangle cannot contain a right angle.
-

32

Which of these fractions is equal to 60%?

- A $\frac{3}{5}$ B $\frac{3}{6}$ C $\frac{1}{6}$ D $\frac{2}{5}$ E $\frac{3}{20}$
-

33

The rule for this number sequence is to double the previous number.

1 _____ 4 8 _____ 32 64 _____

The sequence will finish at the eighth number.

Which of the following statements about the completed sequence is FALSE?

- A The first seven numbers are all factors of the eighth number.
- B 50% of the numbers will be square numbers.
- C None of the numbers will be divisible by 3.
- D There will be three cube numbers in the sequence.
- E The sequence will only contain even numbers.

34

This table gives the properties of four different 3D shapes.
Four numbers are missing.

Name of shape	Number of faces	Number of edges	Number of vertices
cuboid	?	12	8
triangular-based pyramid	4	?	4
triangular prism	5	9	?
square-based pyramid	?	8	5

What is the sum of the four missing numbers?

- A 22
- B 23
- C 24
- D 25
- E 26

35

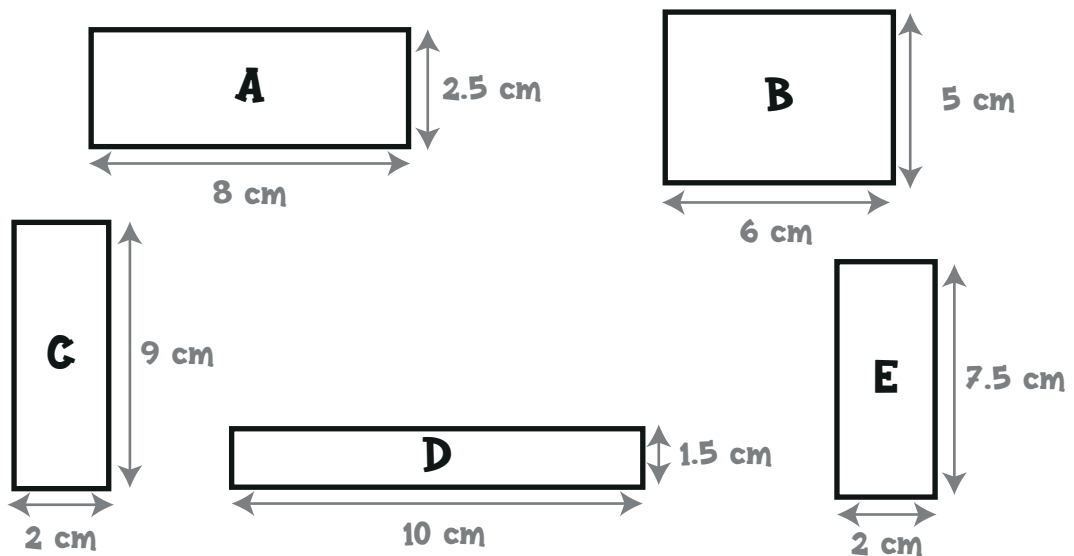

A calculator display shows this number.

572409.8

What is the value of the digit 7?

- A 7 hundred thousands
 - B 7 ten thousands
 - C 7 thousands
 - D 7 hundredths
 - E 7 thousandths
-

36

Which of these rectangles has the greatest perimeter?

- A Rectangle A
- B Rectangle B
- C Rectangle C
- D Rectangle D
- E Rectangle E

37

What fraction of $2\frac{1}{2}$ hours is 25 minutes?

A $\frac{1}{10}$

B $\frac{1}{5}$

C $\frac{5}{26}$

D $\frac{1}{6}$

E $\frac{3}{10}$

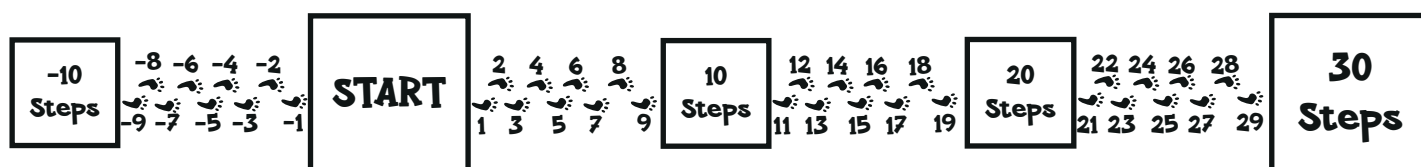

38

Zara plays the game of '30 Steps'.

She stands on the 'Start' square and then has to answer a series of difficult Maths questions.

Each time she gets an answer correct, she moves three steps closer to the '30 steps' square. Each time she gives a wrong answer, she moves one step back (further away from the '30 steps' square).

Each step has been marked with a number.

Zara has answered 8 questions so far. Using the scoring system of the game, which of the following statements could NOT be correct?

- A Zara is on step number 24.
- B Zara is on step number 22.
- C Zara is on step number 12.
- D Zara is on the Start square.
- E Zara is on step number -4.

39

These five measurements must be arranged from shortest to longest.

47.5 cm	0.05 km	480 mm	0.5 m	47.25 cm
----------------	----------------	---------------	--------------	-----------------

Which of the measurements would be third in the list?

- A** 47.5 cm **B** 0.05 km **C** 480 mm **D** 0.5 m **E** 47.25 cm
-

40

What is the sum of the first two prime numbers?

- A** 5 **B** 4 **C** 3 **D** 2 **E** 1
-

41

$$28 \times a = 336$$

What is the value of the letter a in this calculation?

- A** 2.1 **B** 8 **C** 12 **D** 21 **E** 22
-

42

A parallelogram and a right-angled triangle are joined together. Both shapes are sitting on the same straight line.

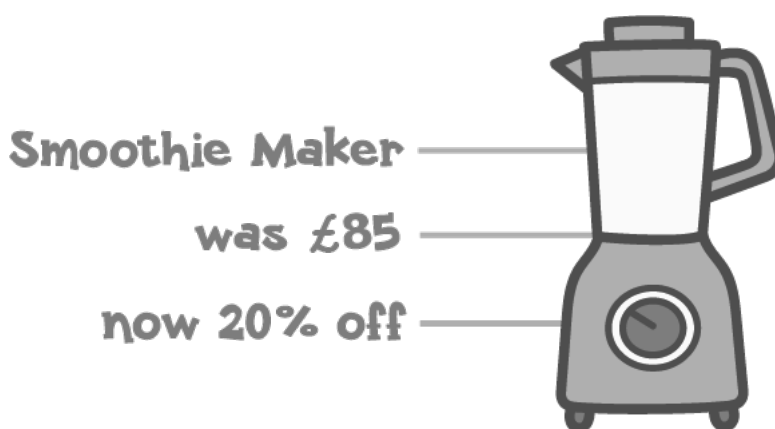

What is the size of Angle A in the triangle?

- A 45° B 55° C 60° D 90° E 135°

43

A smoothie maker was priced at £85 but is then reduced by 20% in a summer sale.

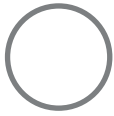

What is the new price of the smoothie maker?

- A £17 B £21.25 C £42.50 D £63.75 E £68

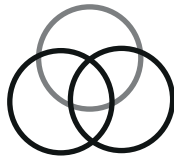

44

Circles are used to create the following sequence of patterns.

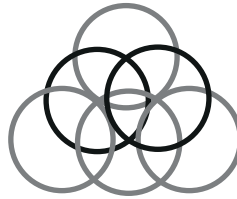

Pattern 1

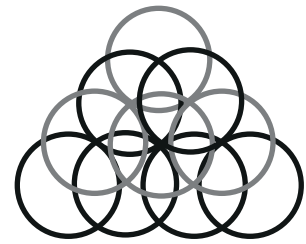

Pattern 2

Pattern 3

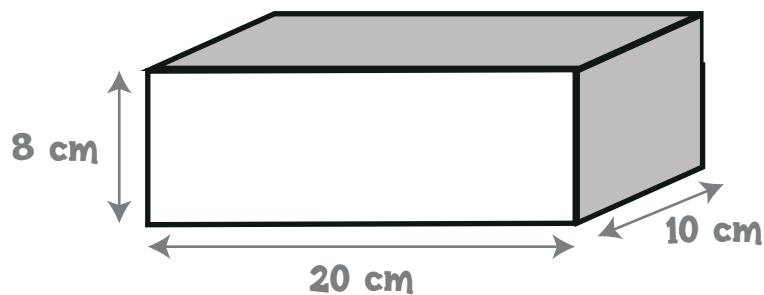

Pattern 4

How many circles would be needed to make Pattern 5?

- A 15 circles
- B 16 circles
- C 17 circles
- D 18 circles
- E 19 circles

45

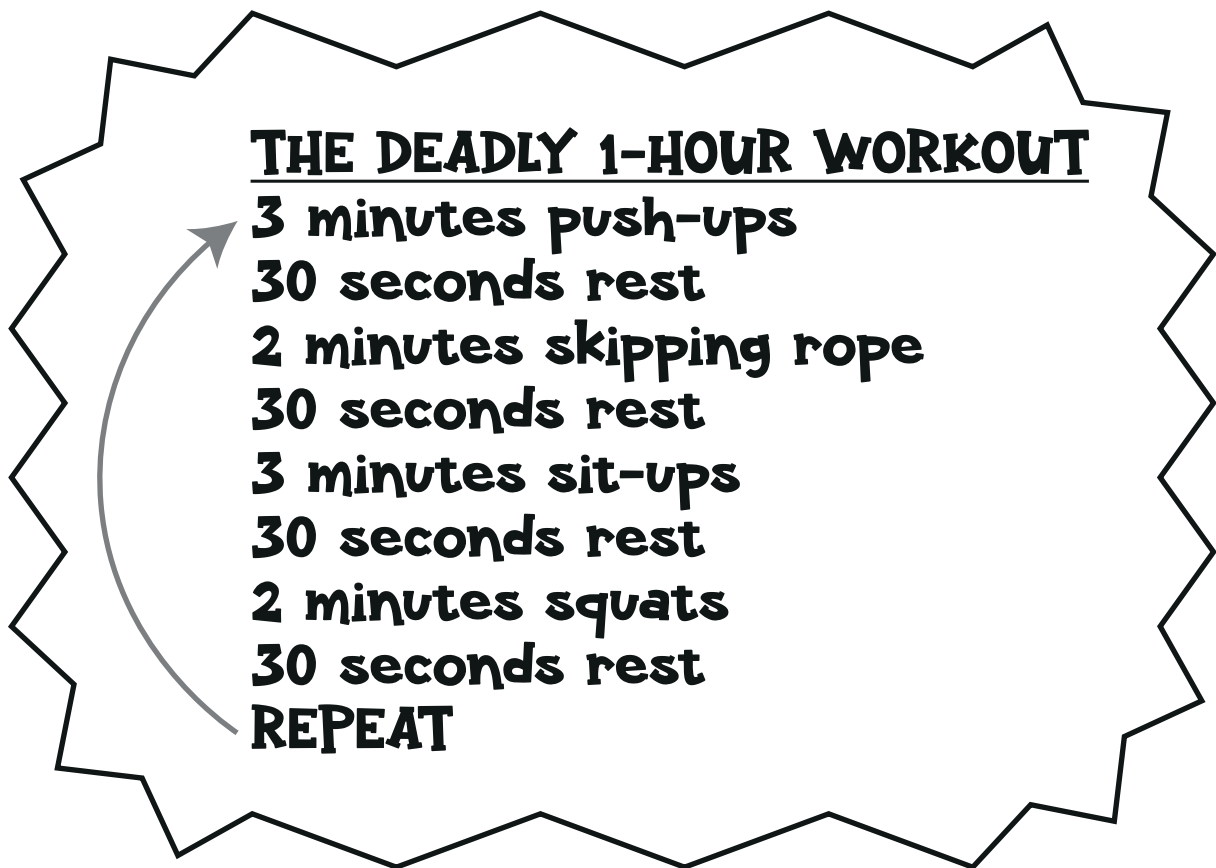

What is $\frac{3}{4}$ of the volume of this cuboid?

- A 285 cm^3
- B 380 cm^3
- C 400 cm^3
- D 1200 cm^3
- E 1600 cm^3

46

Lucy agrees to take part in a challenge known as 'The Deadly 1-Hour Workout'. The details of the workout are in the picture below.

Each participant must follow the order of the workout, starting with 3 minutes of push-ups, then a 30-second rest, 2 minutes of skipping, and so on.

Lucy successfully completes the workout. Which activity was she doing when exactly 20 minutes of the challenge had passed?

- A push-ups
- B skipping rope
- C sit-ups
- D squats
- E 30 seconds rest

47

One giant Pop It toy costs £6.99. Mrs Freeman buys seven of these toys for her classroom. She pays with a £50 note.

What is the fewest number of coins that Mrs Freeman can receive in her change?

- A** 3 coins
 - B** 4 coins
 - C** 5 coins
 - D** 6 coins
 - E** 7 coins
-

48

$$802 \times 7.5 = 6015$$

What is the answer to 80.2×75 ?

- A** 6.015
 - B** 60.15
 - C** 601.5
 - D** 6015
 - E** 60150
-

49

What is the perimeter of a square that has an area of 100 cm^2 ?

- A** 25 cm
 - B** 40 cm
 - C** 50 cm
 - D** 75 cm
 - E** 100 cm
-

50

Which of the following times is 115 minutes after 11.45 am?

- A** 1.40 am
 - B** 14:00
 - C** 1.00 pm
 - D** 01:40
 - E** 13:40
-

For questions 51 - 56, you have to **write your answers** in the boxes provided on your answer sheet. The units of measurement have been given.

51

What is the smallest number that is both a square **AND** a cube number?

52

The weight of a barrel of peanuts is 90 kg.

All of the peanuts in the barrel are placed into small containers that can each hold 1500 grams of peanuts.

How many containers of peanuts can be filled from one barrel?

53

Four football teams took part in a tournament. The pictures in the pictogram represent the total number of goals that each team scored.

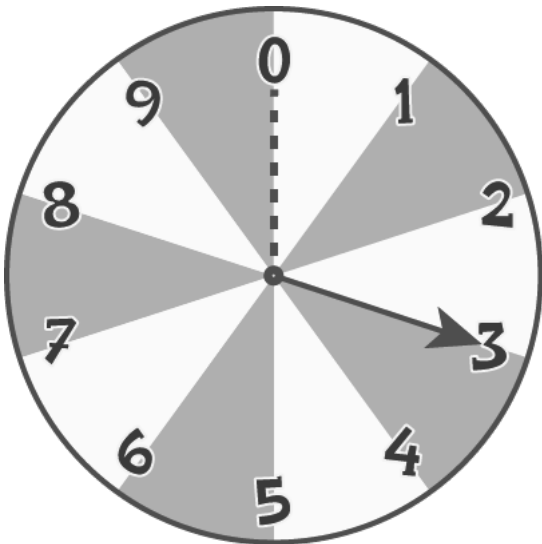

The combined number of goals for all four teams was 48.

Team	Goals scored
Gladstone United	
Muddybrick Wells	
Halfway Town	
Blake City	

How many goals did Gladstone United score in the tournament?

54

The arrow on the dial turns clockwise from zero to point directly at 3.

Through how many degrees did the arrow turn?

55

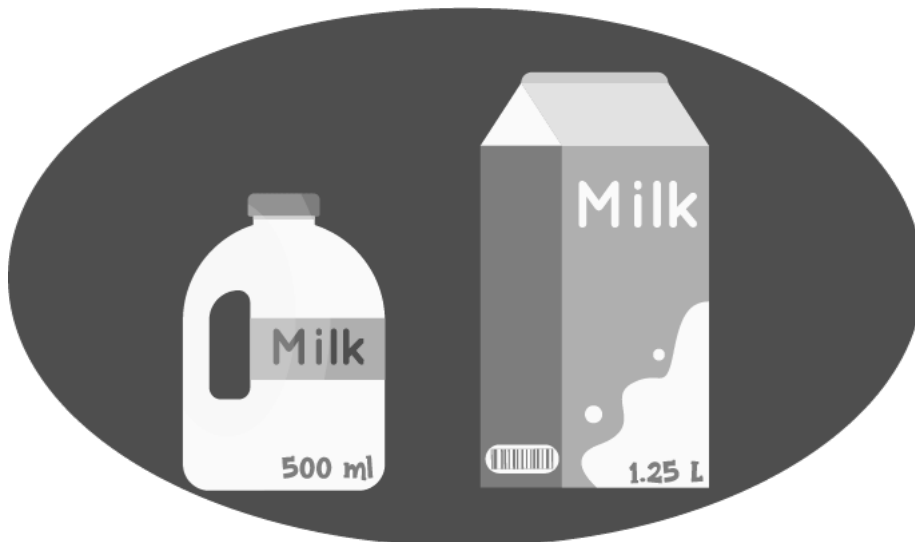

A negative number is entered into this function machine.

IN	→ + 60 → ÷ 7 →	OUT
-18	→	?

What number comes out of the function machine?

56

A small bottle of milk contains 500 ml. It costs 90p.

Based on the price of the small bottle, what would be the price of a carton that contains 1.25 litres of milk?

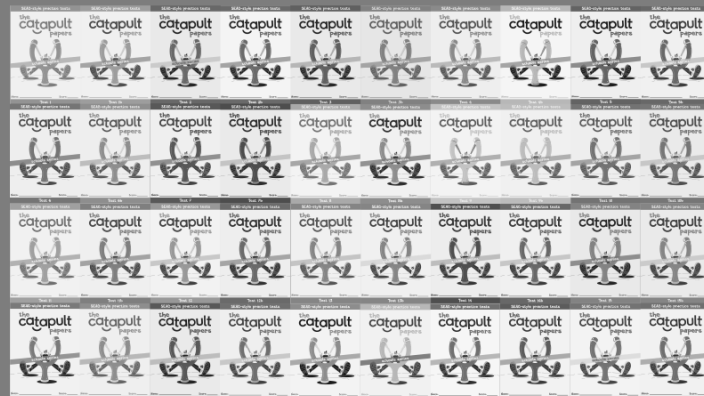

The Catapultalogue
