

SEAG-style practice tests

the catapult papers

the main series

Name: _____

Score: _____

Test 9

2026 edition

Notes for parents

The Main Series of The Catapult Papers provides a full set of SEAG-style practice assessments suitable for P7 pupils (or confident pupils at the end of P6). These papers offer a more challenging level of practice than the Warm-Up Series, reflecting the balance and pace of the official assessments more closely. As with all Transfer Test preparation, children will meet a wide range of English and Maths concepts, including some that require recall of earlier learning.

The questions in this series have been written to give children a realistic sense of the difficulty and variety they will encounter in the actual SEAG papers. The progression across the series helps pupils build accuracy, fluency, and familiarity with the demands of the assessment. Many families use these tests after completing the Warm-Up Series, though the order of use is entirely flexible.

The official time limit for the Transfer Test is 60 minutes. However, because this is a practice paper, no time limit is printed. Parents may decide how long to allow for completion, depending on confidence, focus, and stage of preparation.

This test paper may be written on, but answers must be recorded on the separate answer sheet provided. Guidance on how to do this is included at the top of that page. An answers page is also included for marking. Each correct answer is worth one mark, and no question carries more than one mark. Half-marks should not be awarded. In the English section, misspelled answers should only be accepted when spelling is not part of the skill being tested. When spelling accuracy is required (e.g. plurals, verb endings, homophones), an incorrectly spelled answer should not be counted as correct.

Spaces for recording the final score are provided on both the cover page and the answer sheet. Parents may record the result as a percentage or as a score out of 56.

Finally, please remember that these are practice tests. It is normal for children to make mistakes as they adjust to the level of challenge. The purpose of the Main Series is to develop confidence, build stamina, and strengthen the range of skills needed for the SEAG assessment. Consistent practice and calm encouragement are the most effective supports during this stage of preparation.

Permission to use this paper is granted for one child only. No photocopying or sharing of the test is permitted. A separate set of The Catapult Papers is available exclusively for schools.

English

In this exercise there are some mistakes with **punctuation** or use of **capital letters**. On each numbered line there is either **one** mistake or **no** mistake. Find the group of words with the mistake in it and **mark its letter on your answer sheet**. If there is no mistake, mark N.

Punctuation Exercise

1 Every time her friends came around, something would end up getting broken.
A B C D

2 'There's no time like the present', came the reply from Mrs Oliver.
A B C D

3 Caleb didn't like finding the perimeters' of squares and rectangles very much.
A B C D

4 Under the microscope the ant's tiny features became fully visible.
A B C D

5 'I warned you,' said Clara, lowering her voice, 'that the storm – if it reached us tonight – could flood the entire valley?'
A B C D

In this exercise you have to choose the **best** word, or **group of words**, to complete each numbered line so that the sentences make sense and are written in correct English. Choose the best answer and **mark its letter on your answer sheet**.

Grammar Exercise

6 The film was

very
A

too
B

so
C

more
D

quite
E

 exciting that we watched it again the next day.

7 She couldn't decide

whether
A

either
B

neither
C

if
D

upon
E

 to go to the party or stay home and rest.

8

Most
A

Many
B

Mostly
C

More
D

Much
E

 people are choosing to work from home than those who prefer to come to the office.

9 The winners

are announced
A

announce
B

will be announced

Around
C

Beneath
D

Upon
E

 her confident appearance, Katy was feeling extremely nervous.

In this exercise there are some **spelling** mistakes. On each numbered line there is either **one** mistake or **no** mistake. Find the group of words with the mistake in it and mark its letter on your answer sheet. If there is no mistake, mark N.

Spelling Exercise

11 'I felt terrible when I heard that you had cougth the cold. I know it's my fault.'

A B C D

12 His friends garaunteed that he would have no regrets buying the car.

A B C D

13 'I thought that Becky's poem about gruesome recipes was very funny.'

A B C D

14 'Show more respect, Martha! Everyone's entitled to there own opinion.'

A B C D

15 'We would like to acknowledge the inventer of this machine, but we were not provided with his or her name.'

A B C D

Read the whole poem carefully, then answer the questions that follow.

Dental Dread

1. I took the chair, quite full of dread,
2. Considered all that lay ahead.
3. The man approached, with toothy grin,
4. 'Let's begin!'

5. He poked and prodded with sharp tools,
6. My mouth, agape, began to drool.
7. And furthermore, I could not speak.
8. Instead, I shrieked.

9. The white-coat man appeared so grim,
10. My noises did not hinder him.
11. My heart sank down, I felt quite sick,
12. As he still picked.

13. 'It seems that you've been chewing wrong,
14. And now your teeth are not so strong.'
15. He shook his head and looked annoyed,
16. Then grabbed his toys.

17. I lay there, feeling faint with fear,
18. All hope was lost – the drill drew near.
19. It whirred while I tried not to flinch,
20. But felt the pinch.

21. My mouth now numb, I left his chair,
22. Paid up the bill, left in despair.
23. My gums felt odd (they'd soon be sore),
24. What was it for?

25. And then he said, 'Before you go,
26. There's one more thing I need to show.'
27. He gave a bag and said, 'It's new –
28. A brush for you.'

29. I fled the prison, feeling free,
30. With my new toothbrush joining me.
31. A token of the things, I'm sure,
32. That I endured!
33. I walked outside, my smile was back,
34. Survivor of the Drill Attack.
35. Displayed my gnashers to the street,
36. Then wanted sweets.
37. But realised, to my dismay,
38. I couldn't speak, could not say 'Hey!'
39. Confectioner just stared at me,
40. 'What'll it be?'
41. My mouth was froze, I wanted gum,
42. My words came out: 'Num num num num.'
43. My face turned red (his even more),
44. I left the store.
45. That sorry tale should teach you well
46. To not speak when your gums have swelled.
47. You'll leave without your gum in hand,
48. As Dentist planned.
-

Please answer these questions. (Look at the poem again if you need to.)
You should choose the **best** answer and mark its letter on your answer sheet.

16

Which of the following statements about the poem is true?

- A Each line in the poem has the same number of syllables.
- B Even-numbered lines in each verse rhyme with each other.
- C The final word in each verse has no rhyming connection to the line before it.
- D The first three lines in every verse have eight syllables each.
- E The final line in each verse contains alliteration.

17

Which of the following statements best summarises the poet's experience at the dental surgery?

- A** It was not a pleasant experience but the poet handled it well.
- B** It was an unpleasant experience throughout, from which the poet was happy to escape.
- C** The poet was confident at the beginning but became gradually more terrified.
- D** It was a frustrating experience because the poet was unable to speak properly.
- E** It was a very painful experience for the poet.

18

What does the poet think was the dentist's plan all along?

- A** to make his mouth so numb that he couldn't eat sweets
- B** to get to play with all his dental tools
- C** to reward him with a toothbrush
- D** to imprison him
- E** to take pleasure in drilling his teeth

19

**'He shook his head and looked annoyed,
Then grabbed his toys.'**

(lines 15 - 16)

What is the meaning of these lines in the poem?

- A** The dentist had a childish tantrum when he discovered that the poet's teeth were beyond repair.
- B** The dentist disapproved of the poet trying to play with his toys so snatched them from him.
- C** The dentist, frustrated by the condition of the poet's teeth, needed to use his dental tools.
- D** The poem describes a game in which the characters are pretending to be at a dental surgery.
- E** The dentist gave up and just decided to give the poet some toys as a reward.

20

Which of the following lines from the poem contains a metaphor?

- A line 1
- B line 9
- C line 19
- D line 24
- E line 29

21

‘My noises did not hinder him’ (line 10)

On which line in the poem do we discover the kind of noise the poet was actually making at that moment?

- A line 1
- B line 6
- C line 8
- D line 19
- E line 42

22

‘My mouth was froze, I wanted gum,
My words came out: ‘Num num num num.’
(lines 41 - 42)

Why did the poet say ‘Num num num num’?

- A This was the name of the sweets that the poet wished to buy.
- B He was telling the confectioner that the sweets looked delicious.
- C The poet was telling the confectioner that his mouth was numb.
- D The poet’s mouth was full of sweets, which made it difficult to speak properly.
- E The poet was trying to speak but, due to his numbness, was unable to form any clear words.

For these questions you have to **write your answers**, neatly, in the boxes provided on your answer sheet.

23 Which word in lines 1 - 8 means 'wide open'?

24 Line 41 of the poem contains a grammatical error. One of the words needs to be changed by adding a single letter.

What should the new word be?

25 Which two-word phrase in lines 41 - 48 means 'unfortunate story'?

26 There is a line in the poem that tells us that one character is embarrassed while the other is angry. The line manages to do this by using the **SAME** adjective for **BOTH** characters.

Write the number of this line.

27 Which noun in lines 33 - 40 is similar in meaning to 'regret'?

28 Which one part of speech are the following as they appear in the passage?

toothy (line 3), **sharp** (line 5), **strong** (line 14), **odd** (line 23)

Maths

29

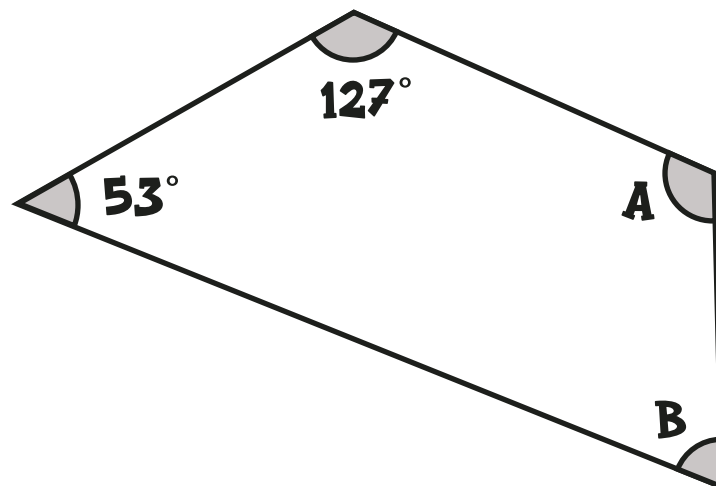

Prize money of £471 is shared equally among four people.

How much money does each person get?

- A £117 B £117.03 C £117.30 D £117.75 E £1884
-

30

This quadrilateral has four different angles. Two of them are missing.

Angle A is double the size of Angle B.

What is the size of Angle A?

- A 60° B 90° C 120° D 127° E 180°
-

31

Which of the following is greatest?

- A 20% of 110
 - B 30% of 70
 - C 40% of 60
 - D 50% of 50
 - E 90% of 30
-

32

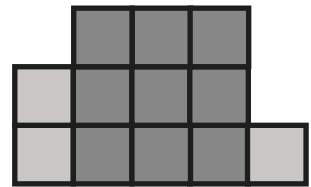

This sequence of patterns is created using shaded squares.

Pattern 1

Pattern 2

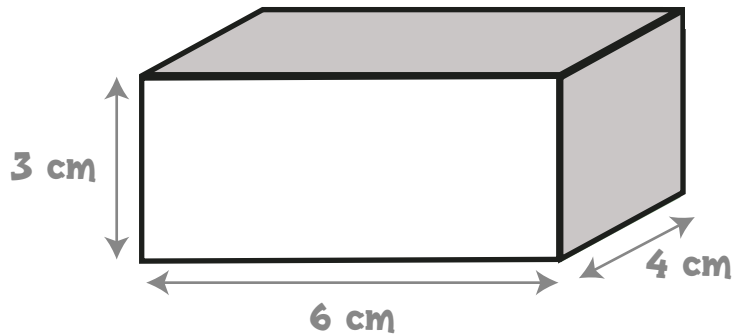

Pattern 3

How many squares will there be altogether in Pattern 5?

- A 20 squares
 - B 30 squares
 - C 36 squares
 - D 42 squares
 - E 56 squares
-

33

A cuboid has measurements of 3 cm, 6 cm and 4 cm.

What is the combined area of all the faces of the cuboid?

- A 72 cm^2 B 24 cm^2 C 52 cm^2 D 54 cm^2 E 108 cm^2
-

34

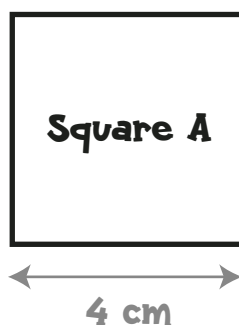

$$\begin{array}{c} \boxed{7 \text{ tens}} \\ + \\ \boxed{7 \text{ tenths}} \\ + \\ \boxed{70 \text{ hundredths}} \end{array}$$

What is the sum of 7 tens, 7 tenths and 70 hundredths?

- A 7.77 B 8.4 C 70.77 D 71.4 E 77.7
-

35

Square A has a side length of 4 cm.

The length of a side of Square B is three times greater than the length of a side on Square A.

How many times greater is the area of Square B than the area of Square A?

- A 3 times greater
- B 6 times greater
- C 9 times greater
- D 32 times greater
- E 128 times greater

36

Saturday 6th May. 2025

22:50

Sunday 7th May. 2025

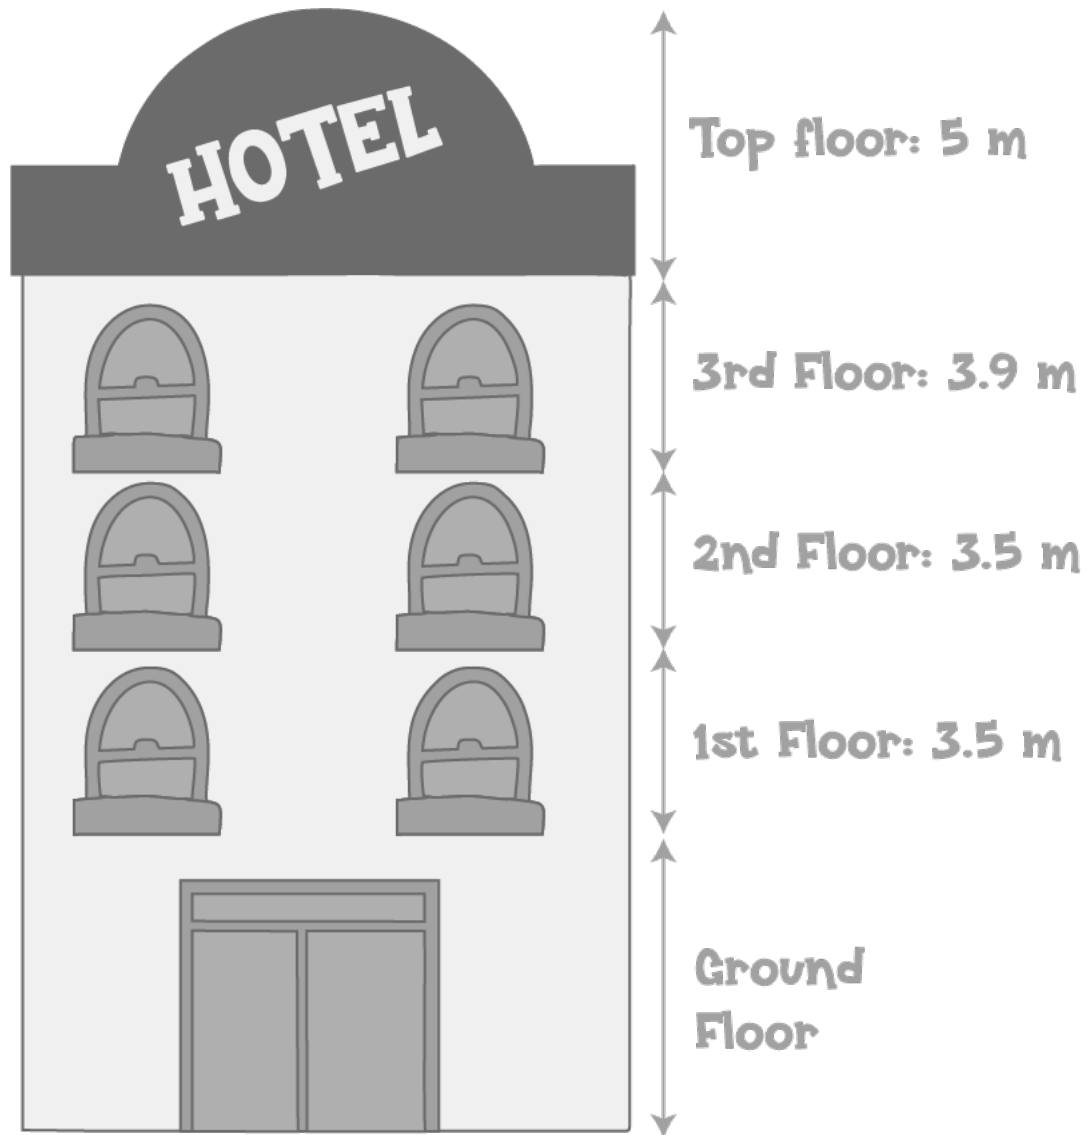

00:30

How many minutes are there in total between these two times?

- A 90 minutes
- B 100 minutes
- C 110 minutes
- D 120 minutes
- E 140 minutes

37

The total height of this hotel building is 21 metres.

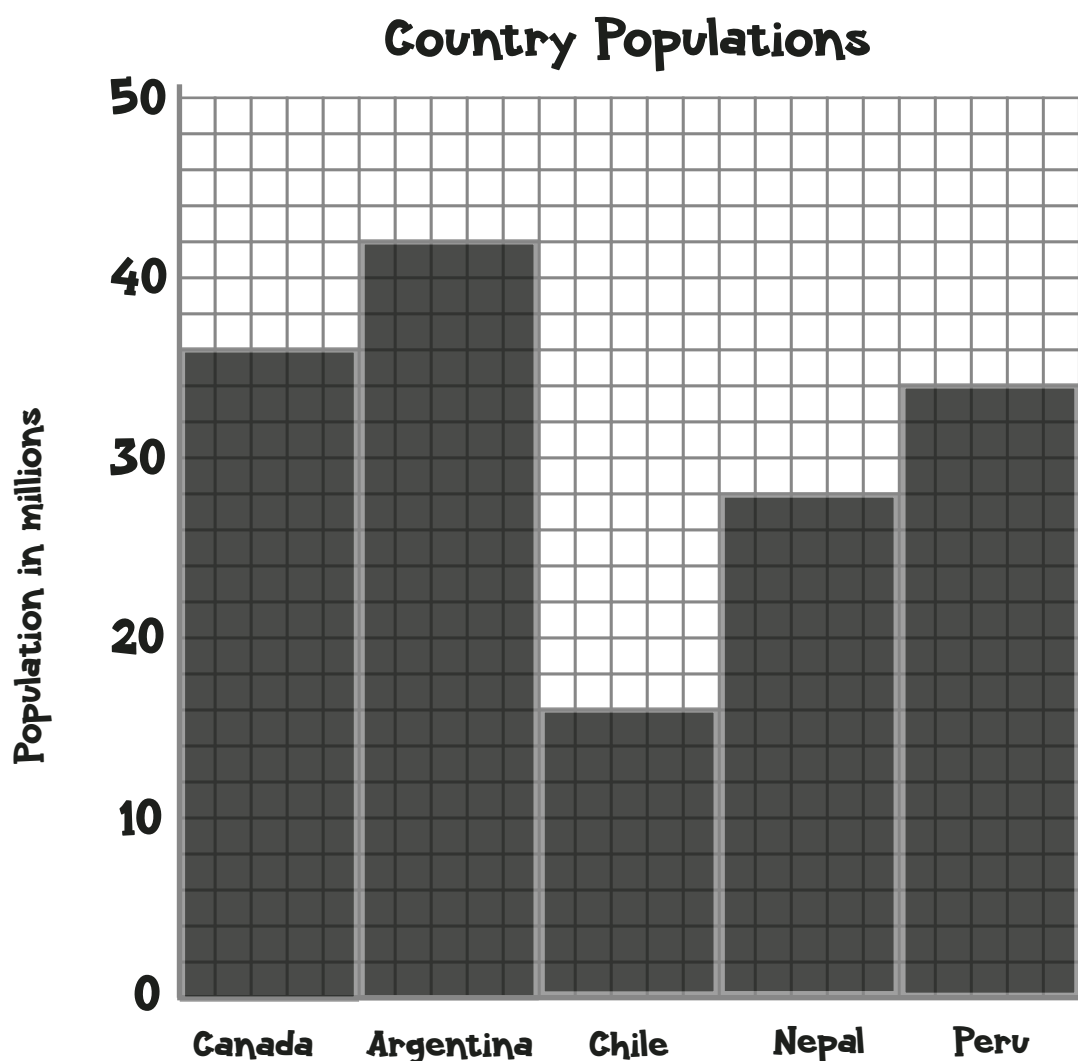

What is the height of the ground floor?

- A 3.5 m B 3.9 m C 4.1 m D 5 m E 5.1 m
-

38

This bar chart shows the population, in millions, of five of the world's countries.

Which pair of countries on this bar chart has a combined population of 70 million?

- A Argentina & Chile
- B Canada & Peru
- C Chile & Nepal
- D Canada & Argentina
- E Nepal & Peru

39

12 small identical sharpeners weigh 72 g altogether.
One large sharpener weighs 11 g.

What is the difference in weight between a box of 25 small sharpeners and a box of 25 large sharpeners?

- A 5 g B 61 g C 125 g D 150 g E 275 g
-

40

Which of the following shapes **CANNOT** have a pair of sides that are perpendicular to each other?

- A equilateral triangle
B isosceles triangle
C scalene triangle
D square
E rectangle
-

41

Which of the following decimals is equal to $\frac{1}{5}$?

- A 0.15 B 0.2 C 0.25 D 0.5 E 1.5
-

42

How many factors does the number 36 have?

- A 6 factors
 - B 7 factors
 - C 8 factors
 - D 9 factors
 - E 10 factors
-

43

Which of the following 3D shapes can be made from two triangles and three squares?

- A triangular-based pyramid
 - B square-based pyramid
 - C triangular prism
 - D cuboid
 - E cone
-

44

How many times greater will a number become if it is multiplied by 48, then the answer is divided by 6?

- A 54 times B 8 times C 42 times D 288 times E 12 times
-

45

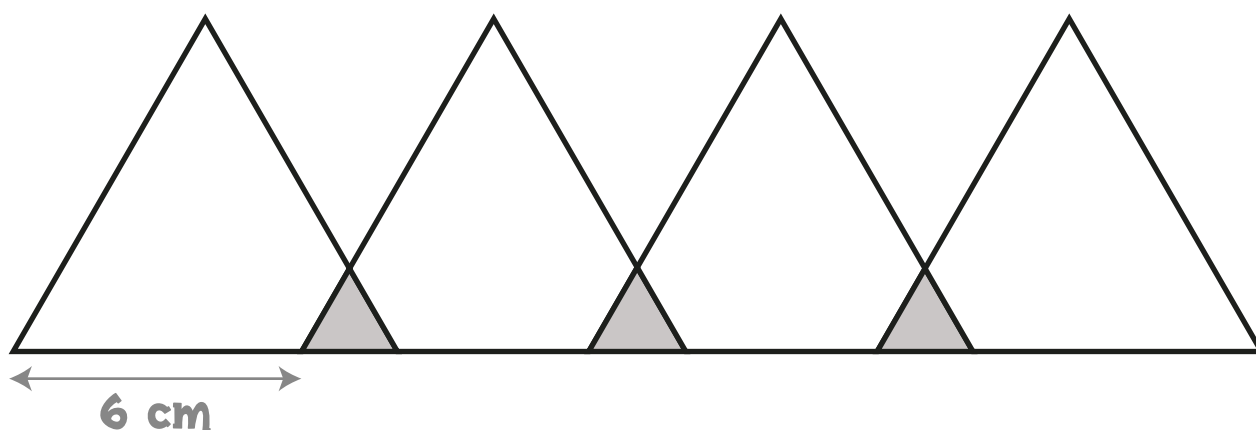

Which compass point is three quarter-turns clockwise from east?

- A north
- B south
- C southwest
- D west
- E northwest

46

Four large equilateral triangles are placed next to each other to create the pattern below.

The triangles overlap each other, creating three smaller equilateral triangles.

The perimeter of one large equilateral triangle is 24 cm.

What is the perimeter of one of the smaller equilateral triangles?

- A** 2 cm **B** 6 cm **C** 8 cm **D** 12 cm **E** 20 cm
-

47

Fiona's birthday is 5th April. Bobby's birthday is 6th May.

In 2023, Fiona's birthday was on a Wednesday.

On which day of the week was Bobby's birthday that year?

- A** Saturday
B Sunday
C Monday
D Tuesday
E Thursday

48

Which of the following measurements is 30% of 4.5 kilograms?

- A 450 g B 1125 g C 1350 g D 1500 g E 2250 g
-

49

Maisie rolls a six-sided dice ten times.
She rolls a 1 four times, a 3 twice, a 4 three times and a 6 once.

What is the mean score from Maisie's dice rolls?

- A 1 B 2.8 C 3 D 4 E 5
-

50

Isla and Maggie are each thinking of a number between 1 and 100.

Isla's number is three times greater than Maggie's.

The sum of their numbers is 84.

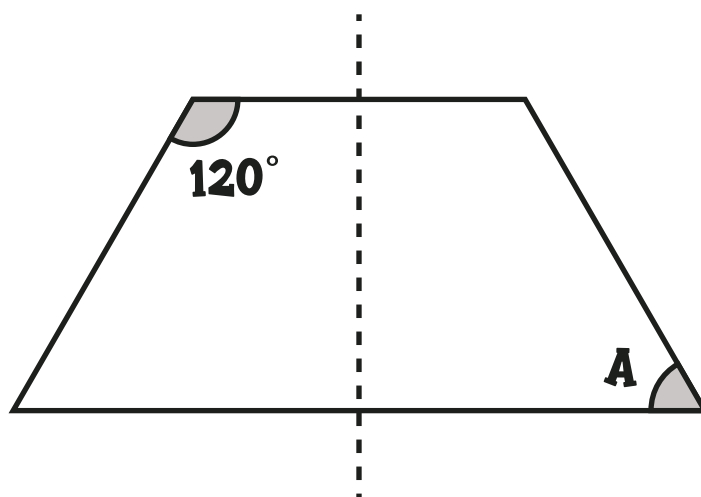

What is Maggie's number?

- A 21 B 25 C 28 D 63 E 81
-

For questions 51 - 56, you have to **write your answers** in the boxes provided on your answer sheet. The units of measurement have been given.

51

The trapezium in this picture has one line of symmetry.
The angle at the top left measures 120° .

What is the size of Angle A?

52

Bronagh is given money by her mother to buy dinner.

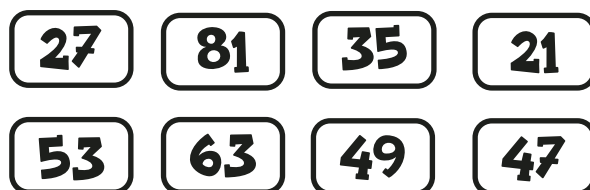

She buys a hamburger, french fries and a soft drink.
These cost £7.20 in total.

She now has $\frac{1}{5}$ of the money left.

How much money did Bronagh's mother give her?

53

These eight number cards are shuffled and placed face down on a table. One card is selected at random.

What is the probability that a prime number is selected? Write this probability as a percentage.

54

Harvey and Kerry go for a jog along the Comber Greenway on a Saturday. They decide to start training for the Belfast Marathon.

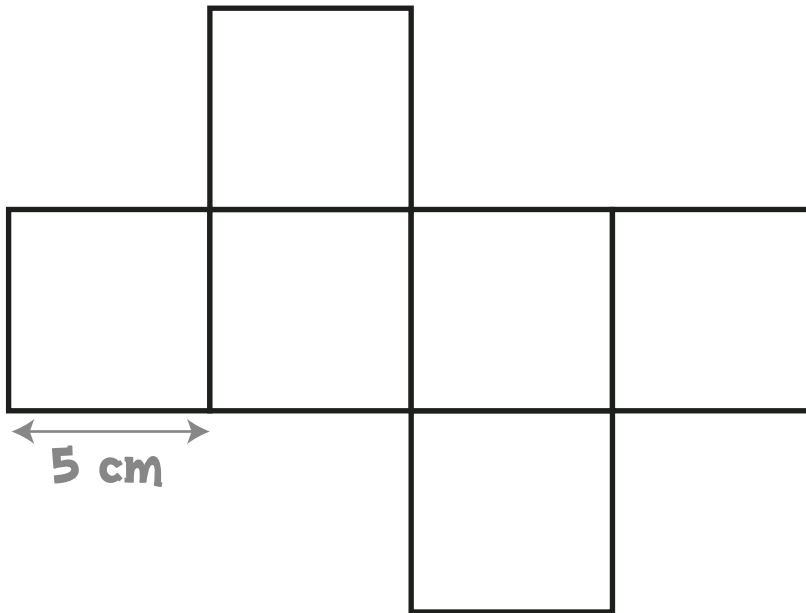

They agree that, 4 days after Saturday, Harvey will run along the Comber Greenway. He will then do the same thing every 4 days.

Kerry's plan is to run along the Comber Greenway 6 days after Saturday. She will then do the same thing every 6 days.

How many days from that Saturday will it be until Harvey and Kerry next run along the Comber Greenway on the same day?

55

This net can be folded to make a cube.
One of the squares' sides has been measured as 5 cm.

What will the volume of the cube be?

56

A human heart is measured as beating once every 0.5 seconds.

If it continues to beat at the same rate, how many times will it beat in one minute?
